Tips On How To Use The Scholarship File

When you first look at this scholarship file you will probably be overwhelmed at the sheer magnitude of the file. I have spent several years putting this file together. As I have traveled the country recruiting, I have looked everywhere for scholarships...high school bulletin boards, college websites, internet college scholarship search engines, etc. And there are still hundreds of scholarships out there that are not included in this file.

I have also been asked on numerous occasions if I had access to any graduate scholarships. Until this year I have not included any graduate scholarships in my file because most of my work has been done with high school students. However, because I have been asked so many times about graduate scholarships, I have decided to include them in this file. They are mixed in with the undergraduate scholarships by category throughout the pages of this file. I have also included grants, research grants, fellowships, doctoral, and post-doctoral information on scholarships as well. Some of the scholarships appear multiple times in different categories because they fit each category and it is easier to search for the scholarships that meet your needs. In addition, I have included several lists of paid and unpaid internships for high school and college students (mostly summer internships). This makes for a great resource while students are not only getting ready for college but also while they are in college and doing graduate work!

Here are some tips for searching for scholarships.

1. Start your search in your own backyard.
Don't go for the big scholarships that most of the time turn out to be a waste of time (Example: Coca-Cola Scholarship, \$100,000 – receives more than 100,000 applicants every year). Look for scholarships from your parents' employers, local civic groups, clubs, businesses, churches, and organizations in your community first. Don't worry if they are small! The small ones add up!
2. Use your high school guidance counselor as a resource. If you are already in college, make an appointment with your college financial aid office. They will be more than happy to give you ideas about where to find scholarships and grants.
3. Those extracurricular activities you're involved in during your high school years can turn out to be a great resource for scholarships. There may be scholarships sponsored by the organizations with which you are involved.
4. There is no magic number of scholarships for which to apply. Don't spend time crafting the perfect application and apply for only two scholarships. And don't apply for hundreds of scholarships sending in the same application for each one. Strike a balance between quantity and quality.
5. Keep a file on each scholarship you apply for and make sure you don't miss the deadlines! On the outside of each folder write the deadline for applying in bold.
6. Beware of scholarship scams!

Disclaimer: All of the information in this scholarship file is public domain unless otherwise noted. Most of the information has come from articles and websites. I have credited those who have made the information available and have highlighted websites in blue so that you can go directly to the scholarship sites. The inclusion of the scholarships in this file does not mean they are endorsed by Chuck Kittrell. If you have information about a scholarship(s) which you feel should be included in this file, please email all information about the scholarship or scholarship search site to chuckkittrell@collegedebtfree.org and I will be happy to take a look at it.

Financial Aid Resources For College And Grad School

Books About Financial Aid

There is Life After College by Jeff Selingo

Probably the best book I've read in my 29 years of recruiting. Not only great information about what to do in college to prepare for the job market but also information on how high school students can prepare for the rigors of college.

College Unbound by Jeff Selingo

Peterson's College Money Handbook (Peterson's)

The Scholarship Book (Prentice Hall)

You Can Afford College (Doubleday)

USA Today's Financial Aid for College (Peterson's)

How to Go To College Almost for Free (Ben Kaplan)

One of the best resources I've seen on how to apply for scholarships and grants.

The College Blue Book, Scholarships, Fellowships, Grants and Loans (McMillan Publishing Co.)

Paying For College: A Guide for Parents (College Board Publications, PO Box 886, New York, NY 10101)

Winning Scholarships for College: An Insider's Guide (Author: Marianne Ragins, Winner of more than \$400,000 in scholarship money)

Sports Scholarships: Insider's Guide (Author: Dion Wheeler)

Scholarship Handbook (CollegeBoard, 2,170 programs offering private, federal, and state money)

Getting Financial Aid (CollegeBoard)

The Ultimate Scholarship Book (Authors: Gen and Kelly Tanabe, A thick book full of scholarships if you have time to go through it)

Scholarship Resources Online

www.tun.com – Probably my all-time favorite scholarship website. This website has scholarships that ALL high school students can apply for from 9-12 grades. **EXCELLENT RESOURCE!**

www.collegeparents.org – Excellent resource for parents of college students or parents with children getting ready for college. Full of parental tips for navigating the waters of college life.

www.collegexpress.com – A matching site for colleges and scholarships. Fill in your personal profile info and they match you to colleges and scholarships. **(Disclaimer: Always be careful when giving out personal information on any website. I have checked out this website and it is legitimate. Read “About Us” in their menu for more info about this website).**

www.princetonreview.com - This website is great for test prep. Prep for ACT, SHSAT, TOEFL, SAT, PSAT, SSAT, SAT Subjects, AP, ISEE, MCAT, DAT, OAT, GRE, GMAT, LSAT, CFA and USMLE

www.Pinterest.com - What can you NOT find on Pinterest? Well, one thing I have found on Pinterest is plenty of scholarships for college. It seems like there is page after page of websites offering scholarships! In fact, I get emails in my inbox almost every day with a new Pinterest page about scholarships. **GREAT RESOURCE!**

www.jlvcollegecounseling.com - Jessica Velasco is a former admissions professional who now shares her insider knowledge to help students and their families as they move through the college admissions process. The reason I like Jessica’s website is that it is all-encompassing. Not only does she have hundreds of scholarships posted to her site (I especially like the scholarships she has posted by state of residence) but she also has very helpful articles for parents and students navigating the waters of the college admissions process. **This is one of my top 5 favorite websites.**

www.gettschooled.com – Not only scholarship help but employment help as well.

www.scholarshipmonkey.com – You can do scholarship search in three ways: Personalized search, search by keywords, or search by list of scholarships.

Scholarship Scam Alert

Every year, several hundred thousand students and parents are defrauded by scholarship scams. The victims of these scams lose more than \$100 million annually.

<http://www.annuity.org/financial-literacy/students/> There are links to need-based scholarships, merit-based scholarships, how student loans work, choosing colleges wisely, sticking to a budget, getting the most out of your college meal plan, credit cards for students, planning for the future, starting your career, and much more. This is a great resource!

www.how2winscholarships.com Website where you can purchase (\$37 for a combo parent guide/student guide) a PDF download for students/parents with tips on how to win college scholarships. Monica Matthews is a mother who helped her son win over \$100,000 in college scholarships. Her son graduated debt free.

Internet Scholarship Sources

Various Scholarships

The undergrad and graduate scholarships, grants, and fellowships contained in pages 11-223 are compiled by Francisco A Tomei Torres (Paco Tomei). For a complete list of specific scholarships visit his website at <https://www.fatomei.com/>.

QuestBridge — College Prep for High School Juniors & Seniors

National College Match

The QuestBridge National College Match helps outstanding low-income high school seniors gain admission and full four-year scholarships to some of the nation's most selective colleges. If you are a student who has achieved academic excellence in the face of economic challenges, we encourage you to apply to the National College Match. QuestBridge's partner colleges offer generous financial aid packages that cover 100% of demonstrated financial need, making them very affordable for low-income students.

[Quest for Excellence Awards](#)

The Quest for Excellence program is an innovative initiative for talented, low-income high school juniors and seniors, and serves as a powerful complement to the College Prep Scholarship and National College Match programs. Quest for Excellence Awards are designed to enhance educational exploration for qualified juniors and seniors with a range of backgrounds and interests.

[Siemens Foundation — Programs](#)

[Siemens Math, Science and Technology Competition for High School Students — Up to \\$100,000 College Scholarships](#)

The Siemens Competition in Math, Science & Technology recognizes remarkable talent early on, fostering individual growth for high school students who are willing to challenge themselves through science research. Through this competition, students have an opportunity to achieve national recognition for science research projects that they complete in high school.

[Coca-Cola Scholars Foundation — Scholarships](#)

[Four-Year College Scholarships for High School Seniors — \\$20,000](#)

Seniors in high schools throughout the United States who meet the eligibility requirements may apply each year for achievement-based scholarships.

[Harvard University — Financial Aid](#)

[Harvard Financial Aid Initiative](#) Potentially worth over \$60,000/year.

Admission to Harvard is based on achievement and promise without regard to financial need; the financial paperwork is handled separately, and applying for financial aid does not jeopardize a student's chances for admission. The application fee normally associated with admissions can also be waived. Harvard College does not award merit nor athletic scholarships. All scholarships are based on demonstrated financial need. Ninety percent of American families would pay the same or less to send their children to Harvard as they would a state school.

[Ron Brown Scholar Program — Prospective Applicants](#)

[College Scholarships for African-American High School Seniors Who Intend to Pursue Undergraduate Degrees Full-Time — \\$10,000 annually for four years, for a total of \\$40,000](#)

The Ron Brown Scholar Program seeks to identify African-American high school seniors who will make significant contributions to society. Applicants must excel academically, exhibit exceptional leadership potential, participate in community service activities and demonstrate financial need.

[Boettcher Foundation](#)

[College Scholarships for Colorado High School Seniors — Over \\$2,800/year](#)

Nov Selection criteria include superior scholastic ability, evidence of leadership & involvement, service to
1 community, and school outstanding character.

[Jack Kent Cooke Foundation — Scholarships](#)

[College Scholarships for High-Achieving High School Seniors with Financial Need — Up to \\$40,000](#)

Nov This scholarship rewards excellence by supporting high-achieving high school seniors with financial need
4 who seek to attend the nation's best four-year colleges and universities. Each award is intended to cover a significant share of the student's educational expenses — including tuition, living expenses, books and required fees. Awards vary by individual, based on the cost of tuition as well as other grants or scholarships he or she may receive.

[Intel — Education Initiative Competitions](#)

[Intel Science Talent Search for High School Seniors — Up to \\$100,000 College Scholarships](#)

Nov America's oldest and most prestigious pre-college science competition.
6

[U.S. Air Force AFROTC — Scholarships](#)

[Four-Year College Scholarships for High School Seniors](#)

Dec The Air Force ROTC High School Scholarship Program provides three- and four-year scholarships in three
1 different types to high school seniors.

[Four-Year Nursing College Scholarships for High School Seniors](#)

The Nursing Scholarship program is operated on a noncompetitive basis - those who meet the qualifications are awarded the scholarship and do not meet a scholarship selection board.

[Phi Theta Kappa Honor Society — Scholarships](#)

[All-USA Community College Academic Team](#)

Dec The Coca-Cola Scholars Foundation sponsors the All-USA Community College Academic Team. In
2 addition, The Coca-Cola Foundation, along with The Coca-Cola Scholars Foundation recognizes the New Century Scholars. Fifty students will be named Gold Scholars, each receiving \$1,500 scholarships, fifty students will be named Silver Scholars, each receiving \$1,250 scholarships, and fifty students will be named Bronze Scholars, each receiving \$1,000 scholarships. A state may have multiple Gold, Silver, or Bronze Scholars. All scholars will also receive special medallions.

[Coca-Cola New Century Scholars](#)

Scholarships for students in community colleges. The student receiving the highest All-USA Community College Academic Team application score in each state is named a Coca-Cola New Century Scholar and represents his/her state at the New Century Scholars Presidents Breakfast at the American Association of Community Colleges Convention.

Elks National Foundation — Scholarships

Most Valuable Student Scholarships for High School Seniors

The Elks National Foundation will award four-year scholarships to the highest-rated high school senior applicants. Two first-place awards of \$50,000; two second-place awards of \$40,000; and two third-place awards of \$30,000. The remaining 14 finalists will receive awards of \$20,000. 480 runners-up will receive fifth-place scholarships of \$4,000.

AXA Foundation

[AXA AchievementSM Scholarships for High School Seniors](#) — \$10,000 to \$25,000

Dec The AXA AchievementSM Scholarship offers college scholarships to high school seniors who have
15 demonstrated outstanding achievement in their activities in school, the community or the workplace.

Burger King McLamore Foundation — *Scholars Program*

[Burger King Scholarships for Graduating, College Bound High School Seniors](#) — *Up to \$50,000*

Dec Scholarships for current high school senior who will be enrolling full-time in the fall of the scholarship
15 year.

Milken Family Foundation

[College Scholarships for High School Students in the Los Angeles, California Area](#)

Dec Scholarships for exceptional young men and women based on their academic performance, community
19 service, leadership activities and triumphs over obstacles.

Imagine America Foundation — *Education Scholarships*

[Scholarships for College Bound High School Seniors](#)

Dec Each year, every high school in the United States and Puerto Rico may nominate up to five graduating
31 seniors to receive an Imagine America scholarship.

Ronald Reagan Presidential Foundation and Library — *Scholarship Programs*

[GE-Reagan Foundation Scholarships](#) — \$10,000 scholarship renewable for up to an additional three years
- up to \$40,000 total per recipient

Jan The GE-Reagan Foundation Scholarship Program rewards college-bound students who demonstrate
8 exemplary leadership, drive, integrity, and citizenship with financial assistance to pursue higher
education. Awards are for undergraduate study only, and may be used for education-related expenses,
including tuition, fees, books, supplies, room, and board. In addition, Scholars are invited to participate
in a special awards program.

U.S. Army ROTC — Scholarships

Four-year college scholarships for high school seniors

Jan 10 The high school Four-Year Scholarship is for high school students planning on attending a four-year college program. Students agree to accept a commission and serve in the Army on Active Duty or in a Reserve Component (Army Reserve or Army National Guard).

Nursing College Scholarships for High School Seniors

The Army ROTC program offers two-, three- or four-year scholarships for undergraduate nursing students.

Bill and Melinda Gates Foundation

Gates Millennium Scholarships — Over \$10,000

Jan 13 The Gates Millennium Scholars (GMS) Program provides outstanding African American, American Indian/Alaska Native, Asian Pacific Islander American, and Hispanic American students with an opportunity to complete an undergraduate college education in any discipline area of interest. Continuing Gates Millennium Scholars may request funding for a graduate degree program in one of the following discipline areas: computer science, education, engineering, library science, mathematics, public health or science.

SAE International Foundation — Scholarships Program

Scholarships for High School Seniors — Up to \$6,000

Jan 15 These scholarships encourage academic excellence and help students around the world to pursue their passion for engineering.

Michael & Susan Dell Foundation — Urban Education

Dell Scholarships for College-Bound High School Seniors — \$20,000 to complete your higher education over the course of six years.

Jan 15 Unlike many other college scholarships, the Dell Scholars Program recognizes academic potential and determination in students that have a definite need for financial assistance. The Dell Scholars Program is available to students participating in approved college readiness/college access programs. If your school/area has a program that you believe meet the criteria below, please submit the informational request for your program to be reviewed for inclusion in the Dell Scholars Program.

George Snow Scholarship Fund

College Scholarships for High School Seniors in Palm Beach and Northern Broward Counties, Florida, USA.

Feb 1 The primary mission of The George Snow Scholarship Fund is to provide educational grants to the deserving young people of Palm Beach and Northern Broward Counties, Florida, USA. The Fund offers a variety of scholarships.

American Meteorological Society — Scholarships and Fellowships

AMS Minority Scholarships — Up to \$3,000

Feb 6 The scholarships help support the college educations of minority students traditionally underrepresented in the sciences, especially Hispanic, Native American, and Black/African American students, who intend to pursue careers in the atmospheric or related oceanic and hydrologic sciences. Minority students who will be entering their freshman year of college in the fall are eligible to apply.

Davidson Institute for Talent Development

Davidson Fellows Scholarships — \$50,000, \$25,000 and \$10,000 Scholarships to Extraordinary Young People, 18 and under

Feb 11 For young people under the age of 18 who have completed a significant piece of work. Application categories are Science, Technology, Engineering, Mathematics, Literature, Music, Philosophy and Outside the Box. Davidson Fellows are honored every year in Washington, D.C. with Congressional meetings and a special reception. The Davidson Institute is looking for students whose projects are at, or close to, the college graduate level with a depth of knowledge in their particular area of study. This scholarship is not geared toward students at the novice level.

Massachusetts Institute of Technology (MIT)

MITES Program for High School Juniors

Feb 20 The MITES Program is a rigorous six-week residential, academic enrichment summer program for talented high school students who are interested in studying and exploring careers in science and engineering.

Japanese American Citizens League — Internships and Fellowships

National Scholarship Program

Mar 1 The National Scholarship and Awards Program offer scholarships to students at the entering freshman, undergraduate, graduate, law, financial need and creative & performing arts. All scholarships are one-time awards. Every applicant must be an active National JACL member. JACL Membership is open to everyone of any ethnic background. All who meet eligibility criteria are welcomed and encouraged to apply.

Google — Explore Scholarship Opportunities

The Generation Google Scholarship — \$10,000 U.S. or C\$5,000 Canadian dollars

Mar 5 Applicants must be high school seniors who intend to be enrolled in or accepted as a full-time student at a university in the US or Canada OR be enrolled in or accepted for enrollment in a baccalaureate in Computer Science, Computer Engineering, Software Engineering, or related program. To be eligible to apply, applicants must be a student from an underrepresented group in computer science (African American, Hispanic, American Indian, or Female).

Federal Employee Education & Assistance Fund (FEEA)

Scholarships for Current Civilian Federal or Postal Employees and Their Dependent Family Members

Mar 28 FEEA sponsors the only merit-based scholarship competition program open exclusively to federal employees, their spouses, and their children--rewarding hard workers through our merit-based program.

Latino Scholarship Dollars - Scholarships for Latino Students

Scholarships can play an important role in helping you pay for college. They are free money that you can apply for - and they don't have to be paid back.

Senator George J. Mitchell Scholarship Research Institute

College Scholarships — \$7,000 over four years

Apr 1 The Mitchell Institute awards a scholarship to a graduating senior from every public high school in Maine. Students must be maine residents enrolled in a four-year degree program at a college or university in Maine

National Restaurant Association Educational Foundation — Scholarship Program

<https://chooserestaurants.org/Scholarships> \$2,500

Apr 23 This scholarship is for students who will be first-time freshmen including graduating high school seniors, GED graduates and high school graduates enrolling in college for the first time.

Community Foundation for Greater New Haven

Milton Fisher Scholarship for Innovation and Creativity — Up to \$20,000

Apr 30 This scholarship is not a traditional scholarship focused on rewarding academic achievement and financial need. Its specific goal is to reward and encourage innovative and creative problem solving. The Scholarship aims to honor these students and to help make their higher education goals more accessible. Open to residents of all US states who will be attending college in NY or CT and also to residents of NY or CT who will be attending college anywhere in the United States. Applicant must be (a) a high school junior, or (b) a high school senior, or (c) any person entering an undergraduate degree program* in the fall after the application deadline or the following spring, or (d) a student in the first year of an undergraduate degree program.

Shawn Carter Foundation — Scholarship Fund

College Scholarships — \$1,500 to \$2,500

Apr 30 All high school seniors, undergraduate (2yr or 4yr) college students, and students at vocational or trade schools are eligible to apply. All applicants must be US citizens, 25 years old or younger, and have a minimum GPA of 2.0.

American Society of Heating, Refrigerating and Air-Conditioning Engineers — Scholarships and Grants

High School Senior Scholarships — \$3,000

May 1 Available to college freshmen enrolled full-time in an undergraduate pre-engineering or engineering technology program leading to a bachelor's degree in a course of study that traditionally has been a preparatory curriculum for the HVAC&R profession.

Army Scholarship Foundation

College Scholarships for High School Seniors — \$500 to \$2000

May 1 The Army Scholarship Foundation awards one-year financial scholarships (not grants or loans) on an annual basis to qualified and deserving students.

U.S. Department of Education — Student Aid on the Web

Pell Grants — Up to \$5,902

A Federal Pell Grant, unlike a loan, does not have to be repaid. Undergraduate and vocational students enrolled or accepted for enrollment in participating schools may apply. Pell Grants are awarded usually only to students who have not earned a bachelor's or a professional degree. To be eligible for a Pell Grant, you must also meet the general federal student aid eligibility requirements. To apply for a Pell Grant, you must complete the Free Application for Federal Student Aid (FAFSA).

College Scorecard

You can use the College Scorecard to find out more about a college's affordability and value so you can make more informed decisions about which college to attend.

FAFSA - Free Application for Federal Student Aid

Submit electronically the Free Application for Federal Student Aid (FAFSA). All students interested in financial aid for college will need to complete this form.

Students and parents can explore the site for information about the Direct Loan Program, including helpful publications and tools to help manage their Direct Loans.

[Presidential Scholars - the Most Distinguished High School Seniors](#)

The U.S. Presidential Scholars Program recognizes and honors some of our nation's most distinguished graduating high school seniors, including students who demonstrate exceptional talent in the visual, creative and performing arts.

[U.S. Navy/Marine Corps NROTC — Full-Scholarship Opportunities - Offering up to \\$180,000 for tuition plus a host of other advantages](#)

[Four-Year College Scholarships for High School Seniors](#)

If you are interested in a collegiate scholarship program that not only pays for school but also generates some of the country's most capable leaders, start by looking into the NROTC Scholarship program.

Scholarships For Women

[U.S. National Aeronautics and Space Administration \(NASA\) — Student Programs](#)

Fellowships and Post-Doctoral programs

[U.S. National Science Foundation \(NSF\) — Find Funding](#)

[Increasing the Participation and Advancement of Women in Academic Science and Engineering Careers \(ADVANCE\)](#)

Sep The goals of the ADVANCE program are (1) to develop systemic approaches to increase the
 22 representation and advancement of women in academic STEM careers; (2) to develop innovative and
 Oct sustainable ways to promote gender equity in the STEM academic workforce; and (3) to contribute to
 3 the development of a more diverse science and engineering workforce

American Medical Women's Association — Awards, Scholarships, and Fellowships

Medical Education Scholarships for Women — \$1,000

Sep

30 Scholarships for women currently enrolled in medical school. Awardees will be chosen based on need as
Jan well as embodiment of the goals of AMWA.

31

University at Albany, Center for Women in Government

Graduate Fellowships on Women and Public Policy — \$10,000

Oct

13

The Fellowship is an intensive leadership development program designed to promote equity and excellence in public service, and encourage government to be more responsive to the needs of women, children, families, and communities in New York State.

Woodrow Wilson National Fellowship Foundation — Fellowships

Woodrow Wilson Doctoral Dissertation Fellowships in Women's Studies — \$5,000

Oct

15

The Woodrow Wilson Dissertation Fellowship in Women's Studies encourages original and significant research about women that crosses disciplinary, regional, or cultural boundaries.

Microsoft — Scholarships

<https://careers.microsoft.com/students/us/en/usscholarshipprogram>

Schlumberger Foundation — Graduate and Postdoctoral Fellowships

[Faculty for the Future Fellowships for Women from Developing and Emerging Economies — \\$40,000 to \\$50,000](#)

Nov 14 Faculty for the Future fellowships are awarded to women from developing and emerging economies who are preparing for PhD or post-doctoral study in the physical sciences, engineering, or related disciplines to pursue advanced graduate study at top universities in their disciplines abroad. Related disciplines may also be awarded. For example, awards in biological sciences are limited to interdisciplinary research between physical and biological sciences.

Georgetown University Law Center — Women's Law and Public Policy Fellowship Program

[Women's Law and Public Policy Fellowships — \\$41,000](#)

Nov 14 Oct 17 The Women's Law and Public Policy Fellowship Program (WLPPFP) offers Fellowships for public interest lawyers from the United States who are committed to advancing women's rights throughout their careers. Throughout the Fellowship year, participants gain invaluable experience by working on women's issues in Washington, D.C. with a public interest organization or governmental agency and by participating in educational and professional development opportunities organized by WLPPFP.

Soroptimist International of The Americas — Programs

[Live Your Dream Awards — Up to \\$10,000](#)

Nov 15 The Soroptimist Live Your Dream Awards (formerly the Women's Opportunity Awards) assists women who provide the primary source of financial support for their families by giving them the resources they need to improve their education, skills and employment prospects. Recipients may use the cash award to offset any costs associated with their efforts to attain higher education, such as books, childcare, tuition and transportation.

American Association of University Women (AAUW) Educational Foundation — Educational Funding and Awards

Nov 15 American Fellowships support women scholars who are completing dissertations, planning research leave from accredited institutions, or preparing research for publication. Applicants must be U.S. citizens or permanent residents. Candidates are evaluated on the basis of scholarly excellence; quality and originality of project design; and active commitment to helping women and girls through service in their communities, professions, or fields of research.

Women in Aviation, International

[Aviation Scholarships for Women](#)

Nov
17 Scholarships to help women get ahead and advance into the aviation and aerospace careers.

American Society of Safety Engineers (ASSE) Foundation — Scholarship Awards

College and Graduate Scholarships for Women in Safety — \$1,000 to \$5,000

Dec
1 Most undergraduate awards are for full-time students (enrolled in 12 hours or more per semester) pursuing an undergraduate degree in occupational safety, health, and the environment.

The Google Anita Borg Memorial Scholarship — \$10,000

Jan
15 A group of female undergraduate and graduate students all over the world will be chosen from the applicant pool, and scholarships will be awarded based on the strength of each candidate's academic background and demonstrated leadership. Applicants must be a female student entering her senior year of undergraduate study or be enrolled in a graduate program and enrolled in Computer Science or Computer Engineering program, or a closely related technical field.

The Generation Google Scholarship for Current University Students — \$10,000 U.S. or C\$5,000 Canadian dollars

Jan
15 Applicants must be currently enrolled as an undergraduate or graduate student at a university for the academic year; pursuing a computer science or computer engineering degree, or a degree in a closely related technical field; and be a student from an underrepresented group in computer science (African American, Hispanic, American Indian, or female).

U.S. National Oceanic and Atmospheric Administration (NOAA) — Student Internships and Scholarships

Dr. Nancy Foster Graduate Scholarships in Oceanography, Marine Biology and Maritime Archaeology — Up to \$42,000

Dec
10 The scholarship program recognizes outstanding scholarship and encourages independent graduate level research -- particularly by female and minority students -- in oceanography, marine biology and maritime archaeology (including all science, engineering, social science and resource management of ocean and coastal areas).

P.E.O. Sisterhood — Educational Projects

International Peace Graduate Scholarships for International Women Students - Up to \$10,000

Dec 15 P.E.O. International Peace Scholarship (IPS) Fund was established in 1949 to provide scholarships for international women students to pursue graduate study in the United States and Canada.

STAR Scholarships for Women High School Seniors — \$2,500

Nov 30 Scholarships for exceptional high school senior women to attend an accredited postsecondary educational institution in the United States or Canada in the next academic year.

U.S. Department of Energy, Office of Fossil Energy

Fossil Energy Mickey Leland Energy Summer Fellowships in Math, Science and Engineering — \$6,000 to \$8,500

Jan 2 The Mickey Leland Energy Fellowship (MLEF) is an Internship program sponsored by the U.S. Department of Energy's Office of Fossil Energy to provide opportunities to women and under-represented minority students who are pursuing academic majors related to the Fossil Energy mission.

American Water Works Association (AWWA) — Awards & Scholarships

Holly Cornell Scholarships for Women in Water Supply and Treatment — \$7,500

Jan 6 The Holly A. Cornell Scholarship encourages and supports outstanding female and/or minority masters students in pursuit of advanced training in the field of water supply and treatment.

New York Women in Communications — Scholarships

College and Graduate Scholarships for Women - \$2,500, \$5,000, and \$10,000

Jan 31 Each year, the Foundation, in conjunction with New York Women in Communications, awards scholarships to graduating high school seniors, undergraduate and graduate students who intend to pursue or further a career in communications.

American Nuclear Society (ANS) — Honors and Awards

<https://www.ans.org/honors/>

Feb 1 One scholarship is awarded to a mature woman whose undergraduate studies in nuclear science, nuclear engineering, or a nuclear-related field have been delayed.

Greater Philadelphia Chamber of Commerce — Events

Paradigm Scholarship for Working Women — Up to \$5,000

Feb 3 This merit scholarship is awarded annually to women who wish to complete their undergraduate degrees while working full-time for Chamber member companies.

Society of Women Engineers — SWE Scholarships

[Freshman, Sophomore, Junior, Senior, Reentry, and Graduate Scholarships for Women in Engineering and Computer Sciences — \\$1,000 to \\$20,000](#)

Feb 17 The SWE Scholarship Program provides financial assistance to women admitted to accredited
Mar 1 baccalaureate or graduate programs, in preparation for careers in engineering, engineering technology
and computer science.

Jeannette Rankin Women's Scholarship Fund

[Scholarships for Low-Income Women, Ages 35 and Older — \\$2,000](#)

Mar 1 Scholarships for women pursuing undergraduate degrees at accredited colleges and universities: a
technical or vocational education, an associate's degree, or a first bachelor's degree.

Association for Women in Computing (AWC)

[Ann Arbor AWC Scholarship for Women in Computing — \\$1,000](#)

Mar 17 The scholarship recognizes outstanding women participating in an institution accredited for higher
education in the state of Michigan pursuing a career in a computer or technology-related field.

Educational Foundation for Women in Accounting

[College and Graduate Scholarships for Women in Accounting — \\$1,000 to \\$16,000](#)

Apr 30 The Educational Foundation awards scholarships to women who are pursuing accounting degrees at
both the undergraduate and postgraduate levels. One scholarship is designated for a woman who is the
May 15 primary source of support for her family and is enrolling as an incoming freshman to earn a Bachelors
degree in Accounting.

American Planning Association — Scholarships and Fellowships

[College Scholarships and Graduate Fellowships for Minorities and Women — \\$2,000 to \\$4,000](#)

Apr 30 The American Planning Association awards are made to students currently enrolled in degree programs
in Planning or a closely related field.

Brookhaven National Laboratory — Women in Science

[Renate W. Chasman Science Scholarships — \\$2,000](#)

Apr 30 Applicants must be women returning to school after a break in their education, and pursuing formal
education in the natural sciences, engineering or mathematics, at the junior or senior undergraduate
level or first-year graduate level at any accredited institution.

Organization for women in science for the developing world — Awards

Postgraduate Training Fellowships

Jul 31 Postgraduate Training Fellowships for Women Scientists from Sub-Saharan Africa and Least Developed Countries (LDC) at Centres of Excellence in the South. The Fellowship is offered to women scientists to pursue postgraduate research in a field of the natural sciences.

American Physical Society (APS) — Scholarships and Awards

M. Hildred Blewett Scholarships — Up to \$45,000

Jun 1 Enables early-career women to return to physics research careers after having had to interrupt those careers for family reasons. The applicant must currently be a U.S. citizen, legal resident, or resident alien of the United States or Canada. She must be currently in Canada or the United States and must have an affiliation with a research-active educational institution or national lab. She must have completed work toward a PhD.

APS/IBM Research Internships for Undergraduate Women

Feb 15 Must be female with sophomore or junior standing at a U.S. college or university at the time of application. Must be majoring in chemistry, physics, materials science or engineering, computer science or engineering, chemical, electrical, mechanical engineering, or biology, if it has an emphasis on one of the other areas listed.

National Federation of Republican Women — Scholarships

National Pathfinder Scholarship

Jun 1 The three annual scholarships of \$2,500 provide financial assistance and support to women seeking undergraduate or graduate degrees. Undergraduate sophomores, juniors and seniors, as well as students enrolled in a master's degree program, are eligible to apply for the scholarship.

Women's Research and Education Institute

Congressional Fellowships on Women and Public Policy — Up to \$13,600

Jun 14 WREI awards annual fellowships to a select number of graduate students with a proven commitment to equity for women. WREI Fellows gain practical policymaking experience and graduate credit as they work from January to August as Congressional legislative aides in Washington, D.C.

Women's Sports Foundation — Grants

The Linda Riddle/SGMA Endowed Scholarship — \$3,000

The goal is to provide young female athletes of limited financial means the opportunity to continue to pursue their sport in addition to their college studies.

[American Association for the Advancement of Science \(AAAS\) — Fellowships](#)

<https://www.aaas.org/fellowships>

AAAS works to increase the participation of women, minorities, and the disabled in the science and technology workforce.

[Association for Computing Machinery](#)

[Travel Scholarships for Women Students in Computer Science and Related Programs Who Wish to Attend Research Conferences.](#)

ACM-W provides support for women undergraduate and graduate students in Computer Science and related programs who wish to attend research conferences.

APS/IBM Research Internship for Undergraduate Women

Must be female with **sophomore or junior standing at a U.S. college or university** at the time of application. Must be majoring in chemistry, physics, materials science or engineering, computer science or engineering, chemical, electrical, mechanical engineering, or biology, if it has an emphasis on one of the other areas listed. Must have a minimum 3.0 GPA.

-No citizenship restriction.

<http://www.aps.org/programs/women/scholarships/ibm/index.cfm>

VIP Women In Technology Scholarship

Applications are now being accepted for the Visionary Integration Professionals (VIP) Women In Technology Scholarship (WITS) program. As in past years, WITS will support promising women who are enrolled at, or are accepted into, a two or four year college or university in the United States for the current school year.

WITS will offer multiple scholarship awards with values up to \$2,500 per recipient to qualified candidates who will seek a career in information technology or a related field and meet the program requirements as defined in the application.

Submissions are evaluated based on candidate essays, which define and offer meaningful solutions to local or statewide IT problems. Consideration will also be given to academic performance, community involvement, leadership qualities and extracurricular activities.

Submissions due by April 30th.

For contact **WITS@vipconsulting.com** for more information about WITS. Awards will be announced by June 5th.

Jeanette Rankin Fund Scholarship

Each fall, Jeannette Rankin Women's Scholarship Fund awards scholarships to low-income women, **ages 35 and older**, who have a vision of how a college education will benefit themselves, their families and their communities. The scholarships are open to students pursuing a technical or vocational education, an associate's degree or a first bachelor's degree. Applicants must be U.S. citizens or permanent residents.

Applications must be completed online and are available starting November 1 each year. The application deadline is March 1. We will not accept application materials by mail.

<http://www.rankinfoundation.org/>

Scholarships For Minorities

Harvard Business School

Summer Venture in Management Program

Summer Venture in Management Program Introduces College Students to Harvard MBA Experience. A one week management training program for rising college seniors designed to increase diversity and opportunity in business education. SVMP participants must be employed in a summer internship and be nominated by and have sponsorship from their company or organization to attend.

11

American Planning Association — Scholarships and Fellowships

College Scholarships and Graduate Fellowships for Minorities and Women — \$2,000 to \$4,000

Judith McManus Price Scholarship for students enrolled in an approved Planning Accreditation Board (PAB) planning program who are citizens of the United States, intend to pursue careers as practicing planners in the public sector, and are able to demonstrate a genuine financial need.

Apr
30

American Society for Microbiology (ASM) — Student Fellowships

<https://asm.org/browse-by-content-type/fellowship>

Aimed at highly competitive graduate students who are enrolled in a Ph.D. program and who have completed their graduate course work in the microbiological sciences. The fellowship encourages students to continue and complete their research project in the microbiological sciences.

May
1

American Architectural Foundation — AIA Diversity and Inclusion Resource Center of Excellence

AIA/F Diversity Advancement Scholarship — \$3,000 to \$4,000

Provides assistance to high school graduates, college freshmen, and community college students from a minority and/or financially disadvantaged background who intend to pursue a NAAB-accredited professional degree in Architecture. A professional degree is either a 5-year Bachelor of Architecture degree or a 4+2 pre-professional Bachelor degree followed by a Master of Architecture degree.

May

2

American Institute of Chemical Engineers — Student Awards & Competitions

Minority Scholarships for College Students — \$1,000

Applicants must be AIChE national student members at the time of application, undergraduates in
 Jul chemical engineering during the academic year, and members of a minority group (i.e., African-
 31 American, Hispanic, Native American, or Alaskan Native) that is underrepresented in chemical
 engineering.

Semiconductor Research Corporation — Fellowships and Scholarships

Master's Graduate Scholarships in Microelectronics — Full Tuition and fees + a competitive stipend

Sep Attracts qualified students who are also in underrepresented minority categories to graduate study in
 27 areas of interest to the semiconductor industry.

U.S. National Science Foundation (NSF) — Find Funding

https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=503622

The Directorate for Biological Sciences (BIO) awards Postdoctoral Research Fellowships in Biology to
 recent recipients of the doctoral degree for research and training in selected areas supported by BIO and
 with special goals for human resource development in biology. The fellowships encourage independence
 Nov at an early stage of the research career to permit Fellows to pursue their research and training goals in
 3 the most appropriate research locations regardless of the availability of funding for the Fellows at that
 site. For FY 2015 and beyond, these BIO programs are (1) Broadening Participation of Groups Under-
 represented in Biology, (2) Research Using Biological Collections, and (3) National Plant Genome
 Initiative (NPGI) Postdoctoral Research Fellowships.

Ocean Sciences Postdoctoral Research Fellowships (OCE-PRF): Broadening Participation — \$87,000+

The Division of Ocean Sciences (OCE) offers postdoctoral research fellowships to provide opportunities
 for scientists early in their careers to work within and across traditional disciplinary lines, develop
 partnerships, and avail themselves of unique resources, sites and facilities. The fellowship program is
 Dec intended to recognize beginning investigators of significant potential, and provide them with experience
 8 that will establish them in positions of leadership in the scientific community. During tenure, fellows will
 affiliate with an appropriate research institution(s) and conduct research on topics supported by OCE.
 The OCE fellowship program has two tracks: 1) Track 1 (Broadening Participation) and 2) Track 2
 (International).

ASEE/NSF Small Business Postdoctoral Research Diversity Fellowships — \$75,000+

This fellowship program offers active Phase II Small Business Innovation Research (SBIR) participating
 companies the opportunity to attract top scientific and technological talent at a fraction of the usual

cost. At the same time, the program recruits postdoctoral fellows from underrepresented groups to work for at least a year outside an academic setting, contributing to cutting-edge research aimed at promoting scientific excellence and strengthening our nation's technological prowess.

Harvard University

Harvard Financial Aid Initiative — *Potentially worth over \$60,000/year.*

Nov Admission to Harvard is based on achievement and promise without regard to financial need; the
1 financial paperwork is handled separately, and applying for financial aid does not jeopardize a student's
1 chances for admission. The application fee normally associated with admissions can also be waived.
Jan Harvard College does not award merit nor athletic scholarships. All scholarships are based on
1 demonstrated financial need. Ninety percent of American families would pay the same or less to send
1 their children to Harvard as they would a state school.

Administrative Fellowships

Mar The program seeks to attract talented professionals, especially more ethnic minorities, to administrative
28 careers in higher education.

Princeton University, Woodrow Wilson School of Public and International Affairs

Public Policy and International Affairs (PPIA) Junior Summer Institute (JSI)

Nov The PPIA Junior Summer Institute is a seven-week program structured to introduce or strengthen skills in
1 economics, statistics, policy analysis, writing, public speaking and organization/time management.

University of California, Office of the President

President's Postdoctoral Fellowship Program for Diversity — *\$42,000+*

Nov The program offers postdoctoral research fellowships, faculty mentoring, and eligibility for a hiring
1 incentive to outstanding scholars in all fields whose research, teaching, and service will contribute to
1 diversity and equal opportunity at the University of California.

American Educational Research Association (AERA) — Fellowships and Grants

Minority Dissertation Fellowships in Education Research — *\$12,000 + travel support*

Nov This program offers doctoral fellowships to enhance the competitiveness of outstanding minority
3 scholars for academic appointments at major research universities. It supports fellows conducting
3 education research and provides mentoring and guidance toward the completion of their doctoral
3 studies. This program is targeted for members of racial and ethnic groups historically underrepresented
3 in higher education (e.g., African Americans, Alaskan Natives, American Indians, Asian Americans,
3 Hispanics or Latinos, and Native Hawaiian or Pacific Islanders).

National Academies — Fellowships Office

[Ford Foundation Dissertation Graduate Fellowships for Minorities — \\$21,000](#)

Nov 14 The dissertation fellowships provide one year of support for individuals working to complete a dissertation leading to a Doctor of Philosophy (Ph.D.) or Doctor of Science (Sc.D.) degree.

[Ford Foundation Postdoctoral Fellowships for Minorities — \\$40,000](#)

Nov 13 The postdoctoral fellowships provide one year of support for individuals engaged in postdoctoral study after the attainment of the Ph.D. or Sc.D. degree.

[Ford Foundation Predoctoral Graduate Fellowships for Minorities — \\$20,000](#)

Nov 20 The predoctoral fellowships provide three years of support for individuals engaged in graduate study leading to a Doctor of Philosophy (Ph.D.) or Doctor of Science (Sc.D.) degree.

[National Consortium for Graduate Degrees for Minorities in Engineering and Science \(GEM\) — Graduate Fellowships](#)

[MS Engineering, Ph.D. Engineering, and Ph.D. Science Graduate Fellowships for Minorities — \\$16,000](#)

Nov 15 GEM offers MS and Ph.D. level students an outstanding opportunity and access to dozens of the top Engineering and Science firms and Universities in the nation. The GEM Fellowship was designed to focus on promoting opportunities for individuals to enter industry at the graduate level in areas such as research and development, product development, and other high level technical careers. GEM also offers exposure opportunities to a number of opportunities in academe.

[National Physical Science Consortium \(NPSC\) — Graduate Fellowships](#)

<https://stemfellowships.org/>

Nov 30 The National Physical Science Consortium is a partnership between government agencies and laboratories, industry, and higher education. NPSC's goal is to increase the number of American citizens with graduate degrees in the physical sciences and related engineering fields, emphasizing recruitment of a diverse applicant pool. Though the fields supported can vary annually depending on employer needs, in general NPSC covers the following: Astronomy, Chemistry, Computer Science, Geology, Materials Science, Mathematical Sciences, Physics, and their subdisciplines, and related engineering fields: Chemical, Computer, Electrical, Environmental, Mechanical. NPSC welcomes applications from any qualified U.S. citizen who has the ability to pursue graduate work at an NPSC member institution.

U.S. Department of Energy, Office of Fossil Energy

Fossil Energy Mickey Leland Energy Summer Fellowships in Math, Science and Engineering for Women and Minorities — \$6,000 to \$8,500

Jan 2 A ten-week summer internship program opportunities for women and minority students.

American Water Works Association — Awards & Scholarships

Holly Cornell Graduate Scholarships — \$7,500

Jan 6 Encourages and supports outstanding female and/or minority masters students in pursuit of advanced training in the field of water supply and treatment.

Consortium for Graduate Study in Management

Full-Tuition Fellowships for MBA Candidates — Full Tuition and Mandatory Fees

Jan 5 Becoming a member of The Consortium will allow you to achieve your career goals and position you among elite business minds. An alliance between the nation's best business schools, sponsoring Oct 15 companies, current MBA students and a network of nearly 6,000 alumni worldwide, The Consortium is dedicated to enhancing diversity in business education and leadership.

Asian & Pacific Islander American Scholarship Fund (APIASF)

<https://apiascholars.org/>

Jan 9 The nation's largest non-profit organization that provides scholarships to exceptional Asian and Pacific Islander Americans (Persons having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands) with financial need. Citizens of the Republic of the Marshall Islands, Federated States of Micronesia and the Republic of Palau are also eligible to apply.

National Urban Fellows

<https://www.nuf.org/>

Jan 10 The National Urban Fellows' leadership development program is a rigorous, 14-month, full-time graduate degree program comprising two semesters of academic course work and a nine-month mentorship assignment.

New York University (NYU), Stern School of Business

Pre-Doctoral Program for Underrepresented Minority Students — Full Tuition Scholarship

Jan 10 The program seeks to prepare students for admission to PhD programs in the mathematically based majors of finance, economics, operations management, quantitative marketing and statistics. The intent is that program participants will later go on to seek faculty positions in these fields.

Bill and Melinda Gates Foundation

Gates Millennium Scholarships — Over \$10,000

The Gates Millennium Scholars (GMS) Program provides outstanding African American, American Indian/Alaska Native, Asian Pacific Islander American, and Hispanic American students with an opportunity to complete an undergraduate college education in any discipline area of interest.

Jan 13 Continuing Gates Millennium Scholars may request funding for a graduate degree program in one of the following discipline areas: computer science, education, engineering, library science, mathematics, public health or science.

Charles B. Rangel International Affairs Program — Graduate Fellowships and Summer Internships

Google — Explore Scholarship Opportunities

The Generation Google Scholarship for Current University Students — \$10,000 U.S. or C\$5,000 Canadian dollars

Applicants must be currently enrolled as an undergraduate or graduate student at a university for the academic year; pursuing a computer science or computer engineering degree, or a degree in a closely related technical field; and be a student from an underrepresented group in computer science (African American, Hispanic, American Indian, or female).

Jan 15

Dr. Nancy Foster Graduate Scholarships - Up to \$42,000

Provides support for outstanding scholarship and encourages independent graduate-level research in oceanography, marine biology, or maritime archaeology (including all science, engineering, social science and resource management of ocean and coastal areas), particularly by women and members of minority groups.

Dec 10

Woodrow Wilson National Fellowship Foundation — Fellowships

MMUF Doctoral Dissertation Grants - Up to \$20,000

The MMUF Dissertation Grants are available to graduate students who participated in the Mellon Mays Undergraduate Fellowship Program. The grants provide graduate students at the critical juncture of completing their graduate degrees with support to spend a year finishing the writing of the dissertation.

Dec 13

MMUF Travel and Research Grants — Up to \$5,000

The MMUF Travel & Research Grants are available to graduate students who participated in the Mellon Mays Undergraduate Fellowship Program. The grants provide eligible graduate students with the financial means to complete their research prior to the start of dissertation writing.

Mar 14

American Sociological Association — Grants and Fellowships

Minority Doctoral Graduate Fellowships in Mental Health and Mental Illness — \$18,000

Jan 31 Supports the development and training of sociologists of color in any sub-area or specialty in the discipline.

Smithsonian Institution — Fellowship and Internship Opportunities

Minority Internships and Visiting Student Awards — \$5,500

Feb 1 This program is designed to provide undergraduate and beginning graduate students the opportunity to learn more about the Smithsonian and their academic fields through direct experience in research or museum-related internship projects under the supervision of research and professional staff members at the Institution's many museums, research institutes and offices.

Massachusetts Institute of Technology (MIT)

MITES Program for High School Juniors

Feb 20 The MITES Program is a rigorous six-week residential, academic enrichment summer program for talented high school students who are interested in studying and exploring careers in science and engineering.

DOW-MIT ACCESS

Jul 15 ACCESS is a weekend of educational and informative events that will introduce talented sophomores, juniors and seniors to the benefits of a graduate education in chemistry, chemical engineering, and materials science. The goal of ACCESS is not to prepare students for graduate school at MIT specifically, but rather to introduce them to the advantages of choosing a graduate career path at an institution that best meets each participant's individual needs. All costs including lodging, travel, meals and excursions during ACCESS are paid for by the program.

University Corporation for Atmospheric Research

Significant Opportunities in Atmospheric Research and Science (SOARS)

Feb 1 Dedicated to broadening participation in the atmospheric and related sciences. It is an undergraduate to graduate program built around a summer research internship, mentoring by top scientists, and a supportive learning community.

Greenlining Institute — Programs

Multi-Ethnic Graduate Fellowships for Careers in the Non-Profit Sector, Community Development, and Public Affairs — \$34,300 per year/health benefits included

Feb 6 The Fellowship Program is a year-long training program for young leaders that have completed, at minimum, their undergraduate degrees by the start of the program. Bridges to health; environmental equity; economic equity; strengthening our democracy

American Physical Society — Scholarships and Awards

[APS College Scholarships for Minority Undergraduate Physics Majors — \\$2,000 to \\$3,000](#)

Feb 7 Any African-American, Hispanic American, or Native American U.S. citizen or permanent resident who is majoring or planning to major in physics, and who is a high school senior, college freshman, or sophomore is eligible to apply for the scholarship. Engineering physics and applied physics majors also welcome to apply.

American Meteorological Society — Scholarships and Fellowships

Industry Minority Scholarships in the Atmospheric or Related Oceanic and Hydrologic Sciences — \$3,000

Feb 6 Applicant must be entering his or her freshman undergraduate year in the fall to be eligible to apply.

University of Wisconsin, Madison

Integrated Biological Sciences Summer Research Program

Feb 15 As part of the program, students do full-time research for 10 weeks with a faculty member in one of eight disciplinary areas: Biochemistry/Biophysics, Cellular and Molecular Biology, Biostatistics and Medical Informatics, Ecology, Plants, and Environmental Systems, Molecular & Environmental Toxicology, Neurobiology, and Virology

Woods Hole Diversity

Woods Hole Partnership Educational Program (PEP)

Feb 18 The Woods Hole Partnership Educational Program (PEP) is designed primarily for college juniors and seniors who want to spend a summer gaining practical experience in marine and environmental science. The program consists of a four-week course and a six-to-ten week research project - all in the sea-side village of Woods Hole.

American Political Science Association — Diversity & Inclusion

Ralph Bunche Summer Institute for Minorities

Feb 20 The program goal is to encourage students to pursue academic careers in political science.

Minority Graduate Fellowships in Political Science — \$4,000

Oct 24 The Minority Fellows Program is designed for minority or under-represented students applying to doctoral programs in political science. Applicants must be college/university seniors, college/university graduates, or students currently enrolled in a Master's Program applying for doctoral study at another political science program/institution.

The Aspen Institute Program on Philanthropy and Social Innovation — Program on Philanthropy and Social Innovation (PSI)

[William Randolph Hearst Endowed Scholarship for Minority Students — \\$2,000 to \\$4,000](#)

Feb

27

Jul Through this fellowship, PSI seeks to introduce a diverse group of students to issues and challenges
18 affecting philanthropy, social enterprise, nonprofit organizations, and other actors in the social sector.

Dec

5

Lagrang Foundation — Scholarship Programs

[College Scholarships for African American/Black, Asian/Pacific Islander American, Hispanic/Latino or Native American/Alaska Native Students — \\$2,500](#)

Feb For undergraduates (current freshmen, sophomores, juniors and non-graduating seniors) who MUST
28 major in a field of study that has an emphasis on public relations, marketing or advertising. Additional majors that also qualify are art, anthropology, communications, English, graphic design and sociology - while demonstrating a career path in advertising, marketing or public relations.

[Graduate Scholarships in Public Relations, Marketing or Advertising — \\$5,000](#)

Feb For African American/Black, Asian/Pacific Islander American, Hispanic/Latino or Native American/Alaska
28 Native Students graduate students. MUST major in a field of study that has an emphasis in public relations, marketing or advertising. Additional majors that also qualify are art, anthropology, communications, English, graphic design and sociology - while demonstrating a career path in advertising, marketing or public relations.

[Internships in Journalism and Business Administration \(Public Relations, Marketing or Advertising\) for Minorities](#)

The LAGRANT Foundation helps place interns throughout the country in various corporations and agencies.

[Minority Doctoral Dissertation Graduate Fellowships — \\$10,000](#)

Mar The annual AAA Minority Dissertation Fellowship is intended to encourage members of ethnic minorities
1 to complete doctoral degrees in anthropology, thereby increasing diversity in the discipline and/or promoting research on issues of concern among minority populations. Dissertation topics in all areas of the discipline are welcome.

American Chemical Society — Funding & Awards

[Chemistry College and Graduate Scholarships — Up to \\$5,000](#)

Mar African American, Hispanic, or American Indian high school seniors or college freshman, sophomores, or
1 juniors pursuing a college degree in the chemical sciences or chemical technology are eligible to apply.

University of Washington, Friday Harbor Laboratories — Fellowships and Scholarships

Blinks Summer Internships in Marine Research

Mar This program welcomes students who bring diversity to the FHL student body in any phase of their
1 undergraduate career.

Research Apprenticeships in Marine Research for Undergraduates and Post-Baccalaureates

Applications are welcome from undergraduates or post-baccalaureates from any academic institution. Applicants do not need to be currently enrolled at the University of Washington or at any other university or college.

American Library Association, Library & Information Technology Association — Scholarships and Awards

LITA/LSSI Minority Scholarship in Library and Information Technology — \$2,500

Mar The scholarship is designed to encourage the entry of qualified persons into the library and automation
1 field who plan to follow a career in that field; who demonstrate potential in, and a strong commitment to the use of automated systems in libraries; and who are qualified members of a principal minority group (American Indian or Alaskan native, Asian or Pacific Islander, African-American, or Hispanic).

LITA/OCLC Minority Scholarship in Library and Information Technology — \$3,000

Mar The scholarship is designed to encourage the entry of qualified persons into the library and automation
1 field who plan to follow a career in that field; who demonstrate potential in and have a strong commitment to the use of automated systems in libraries; and who are qualified members of a principal minority group (American Indian or Alaskan native, Asian or Pacific Islander, African-American, or Hispanic).

Nuclear Age Peace Foundation — Internships

Paid Internships — \$3,200

Mar These positions are for qualified university students at either the graduate or undergraduate level
1 seeking experience in the peace and disarmament field. Candidates from anywhere in the world are encouraged to apply, provided that they are students currently enrolled in an accredited college or university in the United States.

Texas Historical Commission (THC) — Diversity Internship Program

Diversity Internships — \$5,000

The THC recognizes that many such groups are currently underrepresented in the professional fields related to historic preservation. This initiative targets undergraduate students to encourage their interest in pursuing fields of study in history, preservation, architecture, landscape architecture, Archaeology, downtown revitalization and heritage tourism.

American Institute of Certified Public Accountants — Diversity Initiatives

College and Graduate Scholarships for Minority Accounting Students — Up to \$5,000/yr.

Apr The AICPA Minority Scholarship awards outstanding minority students to encourage their selection of
1 accounting as a major and their ultimate entry into the profession.

Minority Doctoral Graduate Fellowships in Accounting — \$12,000

Apr The program's goal is to increase the number of minority CPAs who serve as role models and mentors to
1 young people in the academic environment.

Brown and Caldwell — Scholarships

Minority Scholarships — \$5,000

Apr Awards for students in civil, chemical or environmental engineering or one of the environmental
15 sciences (e.g., geology, hydrogeology, biology, ecology, public health, industrial hygiene or toxicology).

National Action Council for Minorities in Engineering (NACME)

Alfred P. Sloan Foundation Minority Ph.D. Program — \$38,500+

The Ph.D. component offers substantial scholarship support to underrepresented minority students who are beginning their doctoral work in engineering, natural science and mathematics. The smaller Feeder component offers underrepresented minority B.S. or M.S. students access to select faculty and departments that have demonstrated success in sending their students on to doctoral programs.

Children's Scholarship Fund

Transfer from Public to Private School Scholarships

The Children's Scholarship Fund aims to maximize educational opportunity for all children: for those in need by offering tuition assistance in grades K-8 for alternatives to faltering conventional schools, and for all children by supporting and cultivating education reform and parental choice efforts.

Inroads

Internships in Industry and Business

A paid multi-year internship with a top company.

Andrew W. Mellon Foundation — Diversity Initiatives

Mellon Minority Undergraduate Fellowships (MMUF) in Core Humanities, Social Sciences and Physical Sciences

The Program aims to reduce over time the serious under-representation on the faculties of individuals from certain minority groups, as well as to address the attendant educational consequences of these disparities. To be eligible for MMUF, students must first be enrolled at one of the MMUF member institutions. The fellowship is not awarded directly to individual students; instead, the Mellon Foundation awards grants to the program's [member institutions](#), which then select fellows and administer the program on each campus.

University of Notre Dame

Librarian-in-Residence Program

Intended to recruit a recent library school graduate who can contribute effectively to the diversity of the profession and the university while developing career interests in various aspects of academic librarianship.

AICPA Minority Accounting Students Scholarships

American Institute of Certified Public Accountants established the AICPA Scholarship for Minority Accounting Students to provide funds for deserving students. The Center for Scholarship Administration, Inc. (CSA), a non-profit, independent organization is the administrator of the program. Applicants must be students who are underrepresented minorities in the accounting profession (e.g., **African American, Hispanic/Latino, Native American or Asian American**).

All materials should be sent to:
 American Institute of Certified Public Accountants
 Minority Scholarships Program
 Academic and Career Development Team – MIC
 Durham Office

220 Leigh Farm Road
Durham, NC 27707-8110

<http://www.aicpa.org/BECOMEACPA/SCHOLARSHIPS/Pages/default.aspx>

Additional opportunities: <https://www.scholarships.com/financial-aid/college-scholarships/scholarships-by-type/minority-scholarships/african-american-scholarships/>

Jackie Robinson Foundation Scholarship

Minority high school students are encouraged to submit their applications to the Jackie Robinson Foundation. In addition to a financial grant, the foundation also provides its scholars with mentoring, internships and leadership development.

To be eligible for a Jackie Robinson Foundation Scholarship, an applicant must be a graduating, minority high school senior; Plan to attend an accredited and approved four-year institution within the United States; Show leadership potential; Demonstrate a dedication to community service; Present evidence of financial need; Be a United States citizen.

Applicants must also have a minimum SAT score of 1,000 combined on the math and critical reading sections or a composite ACT score of 22; and not possess a degree from a 2 or 4-year College when applying for the scholarship.

Deadline:

Usually in March **Award Amount:** \$7,500

<http://www.jackierobinson.org/>

Minority Scholarships For Medical, Nursing And Public Health

National Hispanic Medical Foundation — Scholarships

<https://www.nhmafoundation.org/>

Open to any student enrolled full time in an accredited graduate dental, medical, public health, policy, physician assistant, pharmacy, or podiatry, and BSN or graduate students in nursing school. Nursing BSN students will only be considered for the \$2,000 one-year scholarships. Any other health professions not listed above will not be considered.

National Medical Fellowships — Scholarships in Medicine and the Health Professions

[Scholarships, Awards and Fellowship Programs for Medical Students](#)

The core program of NMF is the need-based scholarships. Offered primarily to first- and second-year medical students, these scholarships are granted on the basis of financial need.

American Physical Therapy Association — Scholarships, Awards and Grants

Physical Therapy Minority Scholarships

Dec 1 These scholarships are awarded annually to physical therapy students in their final year of physical therapy education and faculty members pursuing their post-professional doctoral degree.

American Psychological Association — Minority Fellowship Program

Mental Health and Substance Abuse Services Predoctoral Fellowship

Jan 15 A federally funded program to support doctoral training in psychology that seeks to promote culturally competent behavioral health services and policy for ethnic minority populations and increase the number of ethnic minority psychologists providing behavioral health services and developing policy for ethnic minority populations.

Mental Health and Substance Abuse Services (MHSAS) Postdoctoral Fellowship

Jan 15 The goal of the Postdoctoral MHSAS Fellowship Program is to encourage and facilitate the specialized training of postdoctoral psychologists who maintain a professional focus on behavioral health services or policy for ethnic minorities.

American Psychiatric Foundation — Minority Fellowships

American Psychiatric Diversity Leadership Fellowships

Jan 30 The two-year American Psychiatric Leadership Fellowship offers psychiatric residents, with exceptional leadership potential, many different experiences that prepare them for leadership roles.

Harvard School of Public Health

Summer Program in Quantitative Sciences (Biostatistics, Epidemiology, and Health and Social Behavior)

Feb 1 The Summer Program is a relatively intensive 4-week program, during which qualified participants receive an interesting and enjoyable introduction to biostatistics, epidemiology and public health research. This program is designed to expose undergraduates to the use of quantitative methods for biological, environmental and medical research.

Visiting Clerkship Program (VCP) for Medical Students — Up to \$400

The Visiting Clerkship Program (VCP) provides support for fourth-year and qualified third-year minority (African American, Native American, and Hispanic American) medical students to participate in the HMS Exchange Clerkship Program.

Columbia University College of Physicians & Surgeons — Programs for Future Physicians and Scientists

Summer Public Health Scholars

The program is designed for undergraduates in their Sophomore or Junior year and recent baccalaureate degree students who are undecided about their career goals and who have a minimum GPA of 2.7. This is a rigorous program which includes Public Health course work at Columbia University; hands-on field experience and immersion in a diverse, economically disadvantaged urban environment; seminars and lectures with public health leaders; and mentoring by faculty members, ensuring students' exposure to the breadth and importance of public health as a career option.

University of Michigan, School of Public Health — Tuition and Financial Aid

Future Public Health Leaders Program

The Future Public Health Leaders Program (FPHLP) is a 10-week residential program at the University of Michigan School of Public Health (UM-SPH) designed to encourage underrepresented college students to consider careers in public health. The program is intended for college students in their Sophomore, Junior or Senior year who are undecided about their career goals and are in good academic standing in their area of study. The program includes public health and career mentorship, hands-on and practical field experience, seminars, lectures and workshops with public health leaders.

Kennedy Krieger Institute — RISE Programs

Maternal and Child Health Careers/Research Initiatives for Student Enhancement

The Maternal and Child Health Careers/Research Initiatives for Student Enhancement (MCHC/RISE-UP) Program provides opportunities for enhanced public health and related training to eliminate health disparities and promote health equity. This program's ultimate goal is to promote a more diversified and equal health system by introducing highly qualified undergraduate students (juniors and seniors with a GPA 2.5 or better on a 4.0 scale; and students who received their baccalaureate degree within 12 months of MCHC/RISE-UP program orientation) from underrepresented groups to the field of public health. All students interested in addressing health disparities are encouraged to apply.

Public Health Leadership and Learning Undergraduate Student Success (PLLUSS) Program

The PLLUSS Program is a public health leadership and research program for undergraduate sophomore and junior scholars minoring or majoring in public health with at least a 3.0 GPA on a 4-point scale. The PLLUSS Program provides scholars with mentored public health research and community health activities, mentorship, and professional development, especially in the area of promotion of health equity and the elimination of health disparities research.

James A. Ferguson Emerging Infectious Diseases Fellowship Program

A nine week summer program providing educational and professional development opportunities for students from underrepresented populations and those interested in addressing health disparities related to infectious diseases. Students must be currently enrolled as a full-time student in a medical, dental, pharmacy, veterinary, or public health graduate program.

Hispanic-Serving Health Professions Schools (HSHPS) — Training Programs

<https://www.hshps.org/programs/>

The HSHPS Graduate Fellowship Training Program provides paid and unpaid training opportunities for graduate and doctoral students and recent graduates interested in working on Hispanic health research. Fellows are placed throughout the United States and Latin America within government agencies and academic institutions. All HSHPS fellows work along side a mentor, an experienced researcher or senior staff member; assist with a research project as it relates to minority health issues; and participate in a series of professional development seminars.

Kaiser Permanente, Southern California

[Oliver Goldsmith, M.D. Scholarships for Students in Good Standing Entering the Third or Fourth Year of Medical School — \\$5,000](#)

Scholarships for people who care about their diverse communities. Applicants must be enrolled in an accredited U.S. medical/osteopathic school and demonstrate a commitment to the advancement of culturally and/or linguistically responsive care or diversity through community service work, clinical volunteering, or applicable research.

American Gastroenterological Association (AGA) Research Foundation — Research Funding

<https://gastro.org/research-and-awards/apply-for-awards/>

The American Gastroenterological Association (AGA) Research Foundation is offering 10 summer fellowship awards to stimulate interest in digestive disease and nutrition-related research among underrepresented minority students. Highly qualified students will have the opportunity to work with top investigators in the fields of gastroenterology and hepatology.

Harvard Medical School

[Summer Honors Undergraduate Research Program — Up to \\$4,800](#)

The Program is offered for currently-enrolled undergraduates who are considering careers in biological or biomedical research sciences, who have already had at least one summer (or equivalent term-time) of experience in a research laboratory, and who have taken at least one upper-level biology course that includes molecular biology.

Institute for Diversity in Health Management — Education Programs

[Summer Internships in Health Management — \\$5,000](#)

The Summer Enrichment Program (SEP) is an enhanced internship program which gives real-world work experience to graduate students in health administration with a 10-12 week, paid internship in a hospital or health care facility.

[Graduate Scholarships in Health Care Administration - \\$1,000 to \\$5,000](#)

Feb 28 The Institute's Scholarship Program provides financial support to help fund graduate education for students preparing for a career as a health administrator.

[Directors of Health Promotion and Education \(DHPE\)](#)

[Directors of Health Promotion and Education \(DHPE\) Internship Program for Students of Minority-Serving Institutions](#)

Mar

1

Jun 15 The program has been designed to provide students with practical experiences in public health related to the core competencies of health education and to introduce the students to the essentials of public health.

Oct

15

[Summer Medical and Dental Education Program \(SMDEP\) — Dental and Medical School Career Preparation](#)

[Free \(full tuition, housing, and meals\) six-week medical and dental school summer academic enrichment program for freshman and sophomore college students — \\$3,600](#)

Factors considered in the admissions process include whether an applicant identifies with a group that is racially/ethnically underrepresented in medicine and/or dentistry (as defined independently by each program site); comes from an economically or educationally disadvantaged background; has demonstrated interest in issues affecting underserved populations; and submits a compelling personal statement and strong letters of recommendation.

Mar

1

[American Nurses Association — Minority Fellowships](#)

[Minority Fellowship Program Youth](#)

Feb 28 The primary goal of the NITT-MFP-Y is to reduce health disparities, and improve behavioral health care outcomes for racially and ethnically diverse populations by increasing the number of culturally competent master's level behavioral health professionals. The fellowship focuses on the behavioral health care of children, adolescents, and youth transitioning into adulthood (aged 16-25). Applicants must be currently matriculated in a master's level program that has behavioral health (psychiatric mental health and/or substance use) disorders prevention and treatment specialty programs.

[U.S. National Institutes of Health \(NIH\) — Training Programs in the Biomedical Sciences](#)

[Undergraduate Scholarship Program \(UGSP\)](#)

Mar 2 UGSP offers competitive scholarships to students from disadvantaged backgrounds who are committed to careers in biomedical, behavioral, and social science health-related research. The program offers scholarship support, paid research training at the NIH during the summer and paid employment and training at the NIH after graduation.

[Individual Predoctoral Fellowships to Promote Diversity in Health-Related Research](#)

Apr This program encourages students from underrepresented racial and ethnic groups, individuals with
13 disabilities, and individuals from disadvantaged backgrounds to seek graduate degrees in the biomedical
Aug and behavioral sciences to help increase the number of well-trained scientists from underrepresented
13 groups. The fellowship provides up to 5 years of support for research training leading to the Ph.D. or
Dec equivalent research degree, the combined M.D./Ph.D. degree, or other combined degrees in the
13 biomedical or behavioral sciences.

[Latin American School of Medicine, Havana, Cuba](#)

[Full Scholarship to Study Medicine at the Latin American School of Medicine, Havana, Cuba](#)

Mar A six-year program of study, which includes two years of basic sciences, three years of classwork and
14 clinical rotations at accredited teaching hospitals, and a rotatory clinical internship in the sixth year.

[American Dental Association Foundation — Education](#)

[Scholarships for Dental and Allied Dental Health Students](#)

Mar Predoctoral Dental Student and Allied Dental Student Scholarships. The ADA Foundation funds
14 scholarships for dental student, underrepresented minority dental students and allied dental students
including dental hygiene, dental assisting and dental laboratory technology.

[Robert Wood Johnson Foundation - Basic/Biomedical, Clinical, Dental, and Health Services/Epidemiology Research](#)

[Harold Amos Medical Faculty Development Program](#)

Mar The Harold Amos Medical Faculty Development Program supports basic/biomedical, clinical, and health
18 services/epidemiology research. The purpose of the AMFDP award is to facilitate the transition of the
newly-trained clinician who wishes to develop into an independent investigator.

[American College of Healthcare Executives — Scholarships, Internships, and Fellowships](#)

[Albert W. Dent Graduate Student Scholarship — \\$5,000](#)

Mar Designated for minority students enrolled in their final year of a healthcare management graduate
31 program.

[Minority Internships in Healthcare and Professional Society Management](#)

Dec The three-month internship program will provide an opportunity for the intern to rotate through all
1 major ACHE divisions, including Communications and Marketing, Education, Executive Office, Finance
and Administration, Health Administration Press, Management Information Systems, Membership,
Regional Services, and Research.

American Art Therapy Association

Awards & Scholarships

Apr 1 Specifically designed for the purchase of books, this fund is available to members of an ethnic minority group who can demonstrate financial need and acceptance and or enrollment in an AATA approved art therapy program.

Association of American Medical Colleges (AAMC) — Grants and Awards

Herbert W. Nickens, M.D., Medical Scholarships — \$5,000

May 1 These awards consist of five scholarships given to outstanding students entering their third year of medical school who have shown leadership in efforts to eliminate inequities in medical education and health care and have demonstrated leadership efforts in addressing educational, societal, and health care needs of racial and ethnic minorities in the United States.

Herbert W. Nickens, M.D., Faculty Fellowships — \$15,000

May 1 The award recognizes an outstanding junior faculty member who has demonstrated leadership in the United States in addressing inequities in medical education and health care; demonstrated efforts in addressing educational, societal, and health care needs of minorities; and is committed to a career in academic medicine.

Henry J. Kaiser Family Foundation — Media Internships and Fellowships

The Kaiser Media Internships in Health Reporting

An internship program for young minority journalists interested in specializing in urban public health reporting.

United Health Foundation — Diverse Scholars Initiative

Scholarships for Spanish-Speaking, Bicultural Students Pursuing Careers in the Health Care Industry

United Health Foundation partners with leading nonprofit and civic organizations to select and award scholarships to deserving students pursuing careers in health. To qualify, scholars must demonstrate a financial need and a strong commitment to working in underserved communities, including community health centers.

Society of Toxicology — Awards and Fellowships

Minority Student Travel Awards

The award will provide travel funds to the next National SOT meeting and will be presented to a minority or woman Ph.D. student judged to give the best platform or poster presentation.

U.S. Agency for Healthcare Research and Quality — Research Training Programs

Opportunities for Minority Students

The Agency for Healthcare Research and Quality (AHRQ) supports training opportunities to help individuals prepare for a career in health services research. AHRQ is particularly interested in fostering the professional development of minority health services researchers.

U.S. National Institute of General Medical Sciences (NIGMS) — Research Grant Mechanisms

Bridges to the Baccalaureate Degree

The program provides support to institutions to help students make transitions at a critical stage in their development as scientists. The program is aimed at helping students make the transition from 2-year junior or community colleges to full 4-year baccalaureate programs. The program targets students from groups underrepresented in the biomedical and behavioral research enterprise of the nation and/or populations disproportionately affected by health disparities.

Bridges to the Doctoral Degree

The program provides support to institutions to help students make a critical transition in their development as scientists. The program is aimed at helping students make the transition from master's degree programs to Ph.D. programs. The program targets students from groups underrepresented in the biomedical and behavioral research enterprise of the nation and/or populations disproportionately affected by health disparities.

Minority Access to Research Careers (MARC)

MARC seeks to increase the number of highly-trained underrepresented biomedical and behavioral scientists in leadership positions to significantly impact the health-related research needs of the nation.

Scholarships For Hispanics And Latinos

[Fundación Kinesis](#)

<https://kinesispr.org/?lang=en>

Kinesis directs its efforts to Puerto Rican students and low-income families. Aspiring high school seniors must have a GPA of 3.5 or higher. Students who are currently enrolled in a bachelors degree and those aspiring or attending a graduate program must have a 3.0 GPA or higher on a 4.0 scale. Applicants must obtain admission to an accredited educational institution outside of Puerto Rico (letter of admission of the university is required).

[TheDream.US](#)

TheDream.US Scholarship provides college scholarships to highly motivated DREAMers who have DACA or TPS approval and who, without financial aid, cannot afford a college education that will enable them to participate in the American workforce. The Scholarships for First Time College Students is available to Feb high school seniors or high school graduates with demonstrated financial need who are first time 15 college students and seek to earn a career-ready associate's or bachelor's degree at one of the Partner Colleges. The Community College Graduate Scholarship is available to community college students with demonstrated financial need who have earned their associate's degrees and seek to complete their bachelor's degrees at one of our four-year Partner Colleges.

[Hispanic Association of Colleges and Universities \(HACU\) — Student Programs](#)

[HACU National Internships](#) — \$470 to \$570 per week

Feb The HACU National Internship Program is open to all students, regardless of their ethnicity, gender, age, 27 faith, etc. To be eligible for HNIP, applicants must (1) have a minimum 3.0 GPA (on a 4.0 scale); (2) be June enrolled in a degree-seeking program at an accredited institution. (Students pursuing only a credential 12 or certificate will be considered ineligible.) The only session for which you may apply if you have already Nov graduated is the summer session immediately following your final spring semester; (3) have completed 14 the freshman year of college before the internship begins; and (4) be authorized or eligible to work in the United States by law.

[HACU Scholarships](#) — \$1,000 to \$2,200

Apr
2

May To be eligible to apply for one of HACU's scholarships, students must be attending a HACU Member or 22 Partner college or university.

May
29

La Unidad Latina Foundation

[Scholarships for all Hispanic Undergraduates and Graduates — \\$250 to \\$1000](#)

Feb

15 Awards scholarships and grants to worthy and needy Hispanic/Latino students for the pursuit of higher education. Arts, Science, Public Administration/Policy, Social Work, Education, and Divinity.

Oct
15

U.S. National Highway Institute — Technology Partnership Programs

[Eisenhower Hispanic Serving Institutions \(HSI\) Fellowships — \\$1,700/mo. to \\$2,000/mo.](#)

Mar The Dwight David Eisenhower Transportation Fellowship Program (DDETFP) awards fellowships to

Mar Any current or newly entering graduate library school student (M.L.S. or Ph.D.) may apply for its
15 scholarships. Must provide proof of enrollment to an accredited library school. Full-time status is not a requirement.

[Gates Millennium Scholarships — Over \\$10,000](#)

The Gates Millennium Scholars (GMS) Program provides outstanding African American, American Indian/Alaska Native, Asian Pacific Islander American, and Hispanic American students with an
Jan opportunity to complete an undergraduate college education in any discipline area of interest.
13 Continuing Gates Millennium Scholars may request funding for a graduate degree program in one of the following discipline areas: computer science, education, engineering, library science, mathematics, public health or science.

[Latino Scholarship Dollars: Scholarships for Latino Students](#)

Scholarships can play an important role in helping you pay for college. They are free money that you can apply for and they don't have to be paid back.

LULAC National Educational Service Centers (LNESEC) — Scholarships

LULAC National Scholarships — \$250 to \$2,000

Mar 31 Applicants are eligible for National Scholastic Achievement Awards, Honors Awards and General Awards. Grades and academic performance will serve as indicators of potential; however, an emphasis may be placed on the individuals motivation, sincerity, and community involvement.

National Hispana Leadership Institute

Latinas Learning to Lead Summer Youth Institute

Mar 31 The program promotes and fosters the development of young college-age Latina leaders through training, mentoring opportunities, access to national networks and tools to create a community impact through their leadership projects.

Florida Student Scholarship Grant Programs — State Scholarship and Grant Programs

Hispanic Heritage Foundation — Youth Programs

<https://hispanicheritage.org/>

Sep 15 The Hispanic Heritage Youth Awards honor young Latino leaders with grants for their college education or to fund a community service effort the student will plan, oversee and sustain.

ExxonMobil/LOFT Fellowship — \$1,000

Apr 15 Career development opportunity for motivated undergraduate and graduate Hispanic student with a passion for Engineering and Science. Selected students will be exposed to ExxonMobil by participating in their world class mentoring program, have the possibility to interview for positions and receive a \$1,000 educational grant. See application below.

Connecticut Association of Latinos in Higher Education

CALAHE Competitive Scholarship — \$1,000

Apr 15 College scholarships for Latino high school seniors and college students from Connecticut. High School Seniors or GED equivalent and undergraduate college students.

Great Minds in STEM™ — Scholarships and Career Fair

<http://www.greatmindsinstem.org/college/college-home>

Apr 30 For Hispanic High School Seniors, College and Graduate School Students. Great Minds in STEM™ encourages all engineering, applied science, computer science and math students to apply this year.

National Hispanic Coalition of Federal Aviation Employees

Rene Matos Scholarships for Hispanics

May 1 Applicants must be accepted or attending an accredited college, university, or vocational/trade school at the time the scholarship is awarded.

National Organization of Professional Hispanic Natural Resources Conservation Service Employees (NOPHNRCS)

College Scholarships — \$1,000

May 1 Provides scholarships to deserving Hispanic students that wish to pursue or are pursuing a bachelor degrees in a natural resources or a natural resources conservation-related field of study at an accredited four-year institution.

¡Adelante! U.S. Education Leadership Fund — Connecting Hispanic College Students to Corporate America, Federal Agencies, and Top Graduate Schools

College Scholarships for Hispanics

May 30 Scholarships for college juniors and seniors in international business, general business, economics, finance, accounting, marketing, public relations, or sales; electrical engineering, mechanical engineering, computer science or biochemistry.

Internships for Hispanics

The ¡Adelante! Internship program provides students with the opportunity to intern in corporate environments throughout the United States.

National Hispanic Foundation for the Arts

Entertainment Industry Graduate Scholarships for Hispanics

Jul 31 Graduate scholarships in drama/theater, set design/costume design, lighting design, film (writing/directing/production), broadcast communications, entertainment law, or business administration with an emphasis on entertainment management. You must be a graduate student enrolled full-time during the previous/current academic year at one of the following selected universities: Yale, Harvard, Columbia, NYU, Northwestern, UCLA, USC, and UT Austin.

College Board — Pay for College

The National Hispanic Recognition Program (NHRP)

The National Hispanic Recognition Program identifies nearly 5,000 outstanding Hispanic/Latino students each year.

Hispanic Dental Association Foundation

<https://www.hdassoc.org/hda-foundation>

Scholarships under this program will help the student complete their training for Undergraduate, Master's Degree or above in a Dentistry Related Program.

Center for the Advancement of Hispanics in Science and Engineering Education (CAHSEE) — Programs

Central American Young Scholar Awards (CAYSA)

The CAYSA ceremonies honor more than 60 Washington, D.C. area high school seniors of Central American descent who have demonstrated remarkable success throughout all four years of high school.

Young Educators Program (YEP) — \$2,750 to \$3,000

The Young Educators Program Fellowship is geared towards further developing the fellow's academic, leadership, civic, and presentation skills. Our goal is to prepare the fellows to excel in their college education and professional careers.

Science, Technology, Engineering, and Mathematics Institute (STEM Institute)

This four-summer program is designed to prepare pre-college students fifth through eleventh grades to enter and succeed in science and engineering at the colleges of their choice.

Young Engineer and Scientist Program (YESP)

This program places talented Hispanic college students in the research labs of government agencies.

SAT/SOAR Program

National Alliance for Hispanic Health

[Scholarships for Hispanics: High School Seniors and College Students](#)

Scholarships For African-Americans

National Association for Equal Opportunity in Higher Education (NAFEO)

<http://www.nafeonation.org/>

Mar 3 The NAFEO Internship Program offers full-time paid internships in the summer. Preference will be given to students enrolled in undergraduate or graduate programs at historically or predominantly black colleges and universities.

U.S. National Highway Institute — Technology Partnership Programs

[Eisenhower Undergraduate and Graduate Fellowships at Historically Black Colleges and Universities \(HBCUs\) — \\$1,700/mo. to \\$2,000/mo.](#)

Mar
10 Fellowships for students pursuing degrees in transportation-related disciplines.

American Intellectual Property Law Education Foundation — Scholars

[Sidney B. Williams, Jr. Intellectual Property Law Graduate Scholarships — Up to \\$30,000](#)

The scholarship will be awarded to minority students developing a career in intellectual property law or holding a past or present, full or part-time position in an area related to intellectual property law.
Mar
14 Applicants must also have a demonstrated financial need and outstanding academic performance in the undergraduate level and law school level (if applicable).

Sachs Foundation — Scholarship Applications

[Undergraduate Scholarships — Over \\$6,000](#)

Mar
15 These scholarships are for African American high school seniors only who will be attending college in the fall term. Applicants must be a full-time Colorado resident for a minimum of five years. Residence due to military orders to Colorado may be accepted on a case by case basis.

[Graduate Scholarships — \\$7,000](#)

Mar
15 The Sachs Foundation has a very limited graduate grant program. Selection for a graduate grant is on a case by case basis determined by the Board of Directors. Only current Sachs Foundation recipients who will, or have, received their undergraduate degree within the last three years are eligible.

[UCCS Health Sciences Scholarship — \\$6,000](#)

Mar
15 You must be currently attending, or have been admitted to, the University of Colorado, Colorado Springs Health Sciences Program. Applicants must be a full-time Colorado resident for a minimum of five years. Residence due to military orders to Colorado may be accepted on a case-by-case basis.

Jacki Tuckfiled Memorial Fund

[Jacki Tuckfiled Memorial Scholarships — \\$2,000](#)

May
29 The applicant must be an African American United States citizen, resident of South Florida, enrolled (part or full time) in a graduate business degree program (master's or doctoral) at a Florida university.

Development Fund for Black Students in Science and Technology — Program Summary

[College Scholarships — Up to \\$2,000](#)

Jun 15 The Development Fund for Black Students in Science and Technology (DFBSST) is an endowment fund which provides scholarships to African-American undergraduate students who enroll in scientific or technical fields of study at Historically Black Colleges and Universities (HBCUs).

National Society of Black Engineers — Programs, Competitions & Scholarships

Programs and Scholarships — \$500 to \$10,500

Jun 30 NSBE and Corporate-sponsored scholarship and award opportunities for pre-college, collegiate undergraduate and graduate student, and technical professional members.

Ron Brown Scholar Program — Prospective Applicants

College Scholarships for African-American High School Seniors Who Intend to Pursue Undergraduate Degrees Full-Time — Up to \$40,000

Jan 9 The Ron Brown Scholar Program seeks to identify African-American high school seniors who will make significant contributions to society. Applicants must excel academically, exhibit exceptional leadership potential, participate in community service activities and demonstrate financial need.
Nov 1

United Negro College Fund — Scholarships, Programs, Internships, and Fellowships

Gates Millennium Scholarships — Over \$10,000

Jan 13 The Gates Millennium Scholars (GMS) Program provides outstanding African American, American Indian/Alaska Native, Asian Pacific Islander American, and Hispanic American students with an opportunity to complete an undergraduate college education in any discipline area of interest. Continuing Gates Millennium Scholars may request funding for a graduate degree program in one of the following discipline areas: computer science, education, engineering, library science, mathematics, public health or science.

College Scholarships

The UNCF Program Services Department manages various scholarship programs. Each program has its own eligibility criteria, open/close dates and required documentation.

National Merit Scholarship Corporation (NMSC) — National Merit College Scholarships

<https://www.nationalmerit.org/s/1758/interior.aspx?sid=1758&gid=2&pgid=424>

An academic competition established to provide recognition for outstanding Black American high school students. Black students may enter both the National Achievement Program and the National Merit® Program by taking the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT®) and meeting other published requirements for participation.

Scholarships For Native Americans

American Indian College Fund

Gates Millennium Scholarships — Over \$10,000

The Gates Millennium Scholars (GMS) Program provides outstanding African American, American Indian/Alaska Native, Asian Pacific Islander American, and Hispanic American students with an opportunity to complete an undergraduate college education in any discipline area of interest.

13 Continuing Gates Millennium Scholars may request funding for a graduate degree program in one of the following discipline areas: computer science, education, engineering, library science, mathematics, public health or science.

American Indian Graduate Center

Graduate Fellowships and College Scholarships

American Indian Science and Engineering Society (AISES) — Scholarships

Internships

The AISES Internship Program provides students with applied work experience and an opportunity to explore career options. Placing students in 10-week summer positions with partner agencies, the program also promotes advanced study to the graduate level and assists students in developing professional networks.

American Philosophical Society — Fellowships and Grants

Phillips Fund Grants for Native American Research

Scholarships for Native Americans and Alaska Natives in Fields Related to Health Care or Tribal Policy

Native Visions

College Scholarships for Native Americans

Royal Bank Financial Group

College Scholarships for Aboriginal Canadian Students in Disciplines Relevant to the Banking Industry (e.g., Business, Economics, Computer Science)

Smithsonian Institution — Fellowship and Internship Opportunities

Native American Visiting Student Awards

Appointments are available for currently enrolled advanced Native American graduate students who are formally or informally related to a Native American community. Visiting Students pursue independent research in association with Smithsonian staff.

[National Museum of the American Indian Internships](#)

The Internship Program provides educational opportunities for students interested in the museum profession and related fields. Interns complete projects using the resources of the National Museum of the American Indian (NMAI) and other Smithsonian offices.

[Society for American Archaeology](#)

[Scholarships for Archaeological Training for Native Americans and Native Hawaiians](#)

[U.S. Centers for Disease Control and Prevention](#)

[American Indian Science and Engineering Society \(AISES\) Internship Program](#)

[U.S. Indian Health Service](#)

[Health Professions Preparatory Scholarships, Including Pre-Engineering, Pre-Medicine, Pre-Dentistry, Civil and Environmental Engineering](#)

[U.S. National Highway Institute — *Technology Partnership Programs*](#)

[Eisenhower Transportation Graduate Fellowships](#)

The Dwight David Eisenhower Transportation Fellowship Program (DDETFP) awards fellowships to students pursuing degrees in transportation-related disciplines. This program advances the transportation workforce by attracting the brightest minds to the field through education, research, and workforce development. The DDETFP encompasses all modes of transportation.

[Wildlife Conservation Society](#)

[Graduate Fellowships for Exceptional Conservationists from North American Indigenous Groups](#)

Engineering, Computer Engineering And Science Scholarships

[International Society of Explosives Engineers — *Education Scholarship Funds*](#)

[College and Graduate Scholarships in Explosives Related Fields](#)

May 30 Monies are awarded to qualified students who are pursuing technical undergraduate, graduate or doctorate degrees in fields of education related to the commercial explosives industry.

[Linux Foundation](#) — *Free Linux Training Online*

[Linux Training Scholarships](#)

Sep 2 The Linux Foundation's Linux Training Scholarship Program will award scholarships to individuals who demonstrate the greatest need and who have already demonstrated an interest in Linux and open source software. The program seeks to find individuals who want to contribute to the advancement of the Linux operating system and help influence its future.

[Semiconductor Research Corporation](#) — *Student Center*

[Graduate Fellowships in Microelectronics](#)

Sep 27 The GRC Program supports over 1,000 advanced degree students each year on contracts guided by the membership. These students are outstanding academically and have demonstrated research capability in disciplines critical to the semiconductor industry.

[IBM](#)

[IBM Ph.D. Fellowships](#)

Oct 28 The IBM Ph.D. Fellowship Awards Program honors exceptional Ph.D. students who have an interest in solving problems that are important to IBM and fundamental to innovation in many academic disciplines and areas of study. These include: computer science and engineering, electrical and mechanical engineering, physical sciences (including chemistry, material sciences, and physics), mathematical sciences (including optimization), business sciences (including financial services, communication, and learning/knowledge), and service science, management, and engineering (SSME).

[Herman Goldstine Postdoctoral Fellowship in Mathematical Sciences and Computer Sciences](#)

The Business Analytics and Mathematical Sciences Department of the IBM Thomas J. Watson Research Center invites applications for its Herman Goldstine Memorial Postdoctoral Fellowship for research in the mathematical and computer sciences. The fellowship provides scientists of outstanding ability an opportunity to advance their scholarship as resident department members at the Research Center. The Research Center is located in Westchester County, less than an hour north of New York City.

[Associated General Contractors of America Education and Research Foundation](#) — *Scholarships Program*

[Undergraduate Scholarships in Construction or Civil Engineering](#)

Nov 3 The AGC Foundation offers undergraduate scholarships to students enrolled in ABET or ACCE-accredited construction management or construction related engineering programs.

[Graduate Scholarships in Construction or Civil Engineering](#)

- Nov 3 The AGC Foundation offers graduate level scholarships to students enrolled in ABET or ACCE-accredited construction management or construction related engineering programs.

Computing Research Association — Awards

Outstanding Undergraduate Researchers Award

- Nov 3 This award program recognizes undergraduate students in North American colleges and universities who show outstanding research potential in an area of computing research. Eligible nominees are enrolled as undergraduates in a North American college or university throughout the academic year. They must be nominated by two faculty members and recommended by the chair of their home department.

Institute of Industrial Engineers (IIE) — Student Center

College Scholarships and Graduate Fellowships in Industrial Engineering

- Nov 15 IIE's scholarship and fellowship program is in place to recognize undergraduate industrial engineering students for academic excellence and campus leadership. IIE also offers honors and recognition specifically for graduate students, including the Graduate Research Award and the prestigious Pritsker Doctoral Dissertation Award.

American Society of Safety Engineers (ASSE) Foundation — Scholarship Award Program

Undergraduate and Graduate Scholarships in Occupational Safety, Health, and the Environment.

- Dec 1 Graduate awards are for full-time students (enrolled in 9 hours or more per semester) pursuing a graduate degree in occupational safety & health or a closely related field. Those that apply to part-time students (3-8 hours per semester) are noted. U.S. citizenship is not required unless specified.

Washington Internships for Students of Engineering (WISE)

<https://wise-intern.org/>

- Dec 31 Applicants must be juniors, seniors, or entering their final year of undergraduate studies in engineering (or computer science). WISE will also accept applications from engineering grads who are beginning Masters level study in a technology policy-related degree.

Woods Hole Oceanographic Institution (WHOI) — Education

Postdoctoral Fellowships in Ocean Science and Engineering

- Jan 5 The Woods Hole Oceanographic Institution offers several types of postdoctoral awards. A term appointment to the position of Postdoctoral Scholar, Fellow, or Investigator may be offered to an individual who has completed the requirements for a Ph.D. degree.

American Water Works Association — Awards & Scholarships

Abel Wolman Fellowships in Water Supply and Treatment

Jan 6 The Abel Wolman Fellowship is designed to support promising doctoral students in the U.S., Canada and Mexico pursuing advanced training and research in the field of water supply and treatment.

Camp Memorial Scholarships in Drinking Water Research

Jan 6 The Thomas R. Camp Scholarship provides support to outstanding graduate students doing applied research in the drinking water field.

Larson Aquatic Research Support in Corrosion Control, Treatment and Distribution of Domestic and Industrial Water Supplies, Aquatic Chemistry, and/or Environmental Chemistry

Jan 6 The Larson Aquatic Research Support scholarship provides support for doctoral and masters students interested in careers in the fields of corrosion control, treatment and distribution of domestic and industrial water supplies, aquatic chemistry, and/or environmental chemistry.

Academic Achievement Dissertation Awards in Public Water Supply

Oct 1 The Academic Achievement Award encourages academic excellence by recognizing contributions to the field of public water supply. All Masters theses and doctoral dissertations that are relevant to the water supply industry are eligible.

American Society for Engineering Education — Fellowship Programs

U.S. Office of Naval Research Postdoctoral Fellowships — Up to \$76,000+

The program is designed to significantly increase the involvement of creative and highly trained scientists and engineers from academia and industry to scientific and technical areas of interest and relevance to the Navy. Fellows are competitively selected on the basis of their overall qualifications and technical proposals addressing specific areas defined by the host Navy laboratories.

U.S. Navy Science and Engineering Apprenticeship Program (SEAP) — 3,300 to \$3,800

Jan 7 This program is intended for high school students who have completed at least Grade 9. SEAP is an eight week summer research opportunity at participating ONR laboratories. Applicants must be 16 years of age for most Laboratories and U.S. citizens. A competitive stipend is available. The application cycle is from October to January.

U.S. Army Science and Engineering Apprenticeship Program (SEAP) — — \$2,000

SEAP is designed so that students can apprentice in fields of their choice with experienced scientists and engineers. This opportunity provides students with valuable experience needed to make informed career decisions. Students apprentice with their mentors on mutually agreed upon projects. At Army Research facilities, the students apprentice in a professional research laboratory setting and learn how their research can benefit the Army as well as the civilian community.

Apr 14

[Naval Research Enterprise Internship Program \(NREIP\) — \\$5,400 to \\$10,800](#)

NREIP provides competitive research internships to undergraduate sophomores, juniors & seniors, and graduate students. Participating students typically spend ten weeks during the summer doing research at DoN laboratories. To participate, a student must be enrolled at an accredited 4 year US college or university and have completed their freshman year before beginning the internship.

Dec 19

[Gains in the Education of Mathematics and Science \(GEMS\) — U.S. Army](#)

The program is an extracurricular science education program, which enables students to experience science in a real laboratory setting. Students receive a stipend to participate in one week-, two week- and four-week long programs, depending on student grade and program site. Programs offered at different sites are unique.

[Krell Institute — Fellowships](#)

[U.S. Department of Energy Computational Science Graduate Fellowships \(CSGF\)](#)

The Department of Energy Computational Science Graduate Fellowship (DOE CSGF) program provides outstanding benefits and opportunities to students pursuing a PhD in scientific or engineering disciplines with an emphasis in high-performance computing.

Jan 27

[U.S. Department of Energy National Nuclear Security Administration Stewardship Science Graduate Fellowships \(SSGF\)](#)

The Department of Energy National Nuclear Security Administration Stewardship Science Graduate Fellowship (SSGF) Program provides opportunities to students pursuing a Ph.D. in areas such as high-energy density physics, low-energy nuclear science, or properties of materials under extreme conditions.

Jan 14

[National Air and Space Museum — Research](#)

[National Air and Space Museum Research Fellowships](#)

Interns have a firsthand opportunity to learn about the historic artifacts and archival materials housed in the Museum and to study the scientific and technological advances they represent. To be considered for a summer internship, you must be a high school graduate and be enrolled in a degree-granting undergraduate or graduate program at an accredited college or university.

Jan 15

[National Air and Space Museum Summer Internship Program](#)

Feb 15 Interns have a firsthand opportunity to learn about the historic artifacts and archival materials housed in the Museum and to study the scientific and technological advances they represent. To be considered for a summer internship, you must be a high school graduate and be enrolled in a degree-granting undergraduate or graduate program at an accredited college or university.

Google — Explore Scholarship Opportunities

[The Google Anita Borg Memorial Scholarship — \\$10,000](#)

Jan 15 A group of female undergraduate and graduate students all over the world will be chosen from the applicant pool, and scholarships will be awarded based on the strength of each candidate's academic background and demonstrated leadership. Applicants must be a female student entering her senior year of undergraduate study or be enrolled in a graduate program and enrolled in Computer Science or Computer Engineering program, or a closely related technical field.

[The Generation Google Scholarship for Current University Students — \\$10,000 U.S. or C\\$5,000 Canadian dollars](#)

Jan 15 Applicants must be currently enrolled as an undergraduate or graduate student at a university for the academic year; pursuing a computer science or computer engineering degree, or a degree in a closely related technical field; and be a student from an underrepresented group in computer science (African American, Hispanic, American Indian, or female).

[Google Student Veterans of America Scholarship — 10,000](#)

Jan 27 Eligible students must be pursuing a bachelor's or graduate degree in Computer Science, or a closely related field.

University of Minnesota, Charles Babbage Institute

[Adelle and Erwin Tomash Graduate Fellowship](#)

Jan 15 The fellowship will be awarded to a graduate student for doctoral dissertation research in the history of computing.

SAE International — International Scholarships Program

[Engineering Scholarships for High School Seniors — for the Freshman Year in College](#)

Jan 15 SAE International awards scholarships to both undergraduate and graduate engineering students.

[Engineering Scholarships Freshmen — for the Sophomore Year in College](#)

Feb 15 SAE International awards scholarships to both undergraduate and graduate engineering students.

[Engineering Scholarships Sophomores — for the Junior Year in College](#)

Feb 15 SAE International awards scholarships to both undergraduate and graduate engineering students.

[Engineering Scholarships Juniors — for the Senior Year in College](#)

Feb 15 SAE International awards scholarships to both undergraduate and graduate engineering students.

[Engineering Scholarships for Graduate and Ph.D. Students](#)

Feb 15 SAE International awards scholarships to both undergraduate and graduate engineering students.

[Microsoft — Scholarships](#)

[Scholarships in Computer Science, Computer Engineering, or Related Technical Disciplines, with a Demonstrated Interest in Computer Science](#)

Microsoft is offering four different types of technical scholarships to current undergraduate students:
Jan 30 General Scholarships, Women's Scholarships, Minority Scholarships, and Scholarships for Students with Disabilities.

[Internships](#)

The majority of the interns are PhD students in the field of Computer Science, related technical majors, or social sciences with a technical focus, and a small group of students with a proven research focus who are masters or bachelor's candidates.

[Graduate Research Fellowships for Ph.D. Students in North America, Latin America, India, Europe, and China](#)

The fellowship program provides financial support for students and early-career faculty, allowing them to focus on their research.

[Microsoft Research Faculty Fellowships](#)

The selected professors explore breakthrough, high-impact research that has the potential to help solve some of today's most challenging societal problems.

[National Research Council \(NRC\) — Research Associateship Programs](#)

[Postdoctoral Research Associateship Programs for Scientists and Engineers](#)

Tenable at U.S. Laboratories and NASA Research Centers. The mission of the NRC Research Associateship Programs (RAP) is to promote excellence in scientific and technological research
Nov 1 conducted by the U. S. government through the administration of programs offering graduate, postdoctoral, and senior level research opportunities at sponsoring federal laboratories and affiliated institutions.

[Tau Beta Pi — The Engineering Honor Society — Awards and Programs](#)

[Graduate Fellowships](#)

Feb 1 The purpose is to finance, for a select group of members chosen for merit and need, a year of graduate study at the colleges of their choice. Tau Beta Pi fellows are free to do graduate work in any field which will enable them to contribute to the engineering profession. The only specific duty of awardees is to write a report at the completion of the fellowship year summarizing their work.

[College Scholarships](#)

Apr 1 Awards for the senior year of engineering study.

[College and Graduate School Student Assistance Loans](#)

The resources of Tau Beta Pi's Student Loan Fund are available to members who otherwise would be without sufficient money to remain in college and complete their courses.

[International Society for Optical Engineering — SPIE Scholarship Program](#)

[Educational Scholarships and Grants in Optical Science and Engineering](#)

Feb 15 All students studying worldwide in an optics, photonics, imaging, or optoelectronics program or related discipline are eligible to apply.

[American Society of Mechanical Engineering — Scholarships and Awards](#)

[College Scholarships in Mechanical Engineering](#)

Mar 20 You must be a current undergraduate or graduate ASME Student Member to login to the online application system.

[Auxiliary Scholarships in Mechanical Engineering](#)

The ASME Auxiliary Incorporated provides scholarships and loans to students of mechanical engineering at both the graduate and undergraduate levels and supports the objectives of ASME to promote the advancement of the art, science and practice of mechanical engineering.

[Instrumentation, Systems, and Automation Society \(ISA\) — Students](#)

[College and Graduate Scholarships in Instrumentation, Systems, and Automation](#)

Feb 15 ISA Educational Foundation Scholarships are awarded to college or university students who demonstrate outstanding potential for long-range contribution to the fields of automation and control.

[Society of Women Engineers — SWE Scholarships](#)

[Freshman, Sophomore, Junior, Senior, Reentry, and Graduate Scholarships for Women in Engineering and Computer Sciences — 1,000 to \\$20,000](#)

Feb 16 The SWE Scholarship Program provides financial assistance to women admitted to accredited
 Mar 1 baccalaureate or graduate programs, in preparation for careers in engineering, engineering
 technology and computer science.

[U.S. National Aeronautics and Space Administration \(NASA\) — Student Programs](#)

[NASA Pathways Programs](#)

Open NASA Pathways Programs provide opportunities for students and recent graduates to be considered
 for Federal employment through NASA Pathways Intern Employment Program (IEP), NASA Pathways
 Recent Graduates Program (RGP), NASA Pathways Presidential Management Fellows (PMF) Program.

[U.S. NASA Summer Faculty Fellowships in Aeronautics and Space Research](#)

Apr 1 The fellowships are awarded to full-time engineering and science educators from U.S. colleges and
 universities.

[National Society of Professional Engineers — Scholarships](#)

[High School](#)

Mar 1 Engineering college scholarships for high school seniors who belong to an ethnic minority or for those
 who participated as a competitor in the MATHCOUNTS program.

[Undergraduate](#)

Mar 1 Engineering scholarships for women and college undergraduates.

[Graduate](#)

Mar 1 Engineering graduate school scholarships for outstanding students pursuing an MBA, a master's
 Mar degree in engineering management, a master's degree in public administration, architecture,
 15 engineering and law.

[American Nuclear Society \(ANS\) — Honors and Awards](#)

[Glenn T. Seaborg Congressional Science and Engineering Fellowship](#)

Mar 1 This Fellowship provides a stipend for the successful candidate to work in a Congressional office
 (either House or Senate) for a year, providing advice on science and engineering matters to a member
 of Congress and his or her staff.

[Engineering Internships](#)

ANS is a full participant in the Washington Internships for Students of Engineering (WISE) Program,
 with guaranteed support for two students. ANS-sponsored students must be student members of the
 Society.

AIST Steel Foundation — Internships and Scholarships**Scholarships and Grants for Students in the Iron and Steel Industry**

Mar 2 AIST Foundation scholarships are awarded on an annual basis to talented and dedicated students to encourage them to pursue careers within iron- and steel-related industries.

David and Lucile Packard Foundation — Conservation and Science**Faculty Fellowships for Science and Engineering**

Mar 14 The Packard Fellowships for Science and Engineering allow the nation's most promising young professors to pursue their science and engineering research with few funding restrictions and limited paperwork requirements.

Society of Plastics Engineers Foundation — Scholarships and Grants

<https://www.4spe.org/i4a/pages/index.cfm?pageID=3280>

Mar 30 The SPE Foundation offers numerous scholarships to students who have demonstrated or expressed an interest in the plastics industry. They must be majoring in or taking courses that would be beneficial to a career in the plastics industry. This would include, but is not limited to, plastics engineering, polymer science, chemistry, physics, chemical engineering, mechanical engineering, and industrial engineering. All applicants must be in good standing with their colleges. Financial need is considered for most scholarships.

American Historical Association — Grants and Fellowships

Fellowships in Aerospace History

Apr 1 The Fellowship in Aerospace History is offered annually by the the National Aeronautics Space Administration (NASA) and the American Historical Association to support a significant scholarly research project in aerospace history. It will provide a fellow with an opportunity to engage in significant and sustained advanced research in all aspects of the history of aerospace from the earliest human interest in flight to the present, including cultural and intellectual history, economic history, history of law and public policy, and the history of science, engineering, and management. Applicants must possess a PhD in history or in a closely related field, or be enrolled as a student (having completed all coursework) in a doctoral degree-granting program.

Brown and Caldwell — Scholarships

Eckenfelder Scholarship

Apr 15 Full-time students enrolled in their Junior, Senior year or graduate program at an accredited college/university. Must have a declared major in civil, chemical or environmental engineering or one of the environmental sciences (e.g. biology, geology, hydrogeology, ecology).

Minority Scholarship

Apr 15 Full-time students enrolled in their Junior, Senior year or graduate program at an accredited college/university. Must have a declared major in civil, chemical or environmental engineering or one of the environmental sciences (e.g. biology, geology, hydrogeology, ecology). Be a minority (e.g. African American, Hispanic, Asian or Pacific American or Alaska Native).

Society of Petroleum Engineers — Scholarships and Fellowships

<https://www.spe.org/en/scholarships/>

Apr 15 Each year, the Society of Petroleum Engineers (SPE) awards STAR scholarships and fellowships representing a 1 million dollar commitment to education.

Gus Archie Memorial Scholarship for the Most Outstanding Student

May 1 Each year the SPE Foundation, working through the SPE Section Scholarship Support Program, awards the Archie Scholarship to the most outstanding student attending university for the first time. The curriculum must lead to an undergraduate degree in petroleum engineering.

Henry DeWitt Smith Fellowship

Jun 1 Applicants must be students studying or planning to study petroleum engineering on the Master's or PhD level.

Nico van Wingen Memorial Graduate Fellowships

Nov 1 Eligible students must be members of an official SPE Student Chapter and must be at the Ph.D. level intending to pursue careers in academia.

National Society of Black Engineers — Programs, Competitions & Scholarships

Programs and Scholarships

NSBE and Corporate-sponsored scholarship and award opportunities for pre-college, collegiate undergraduate and graduate student, and technical professional members.

American Society of Civil Engineers

College Scholarships in Civil Engineering

Graduate Fellowships in Civil Engineering

American Society of Naval Engineers (ASNE) — Student Programs

College and Graduate Scholarships in Naval Engineering

Scholarships to undergraduate and graduate students interested in pursuing an education and career in naval engineering.

Armed Forces Communications & Electronics Association (AFCEA) Educational Foundation — Scholarships

College & Graduate Scholarships in Environmental & Geological Engineering

The AEG Foundation is dedicated to advancing research, student and professional education, and public awareness in the field of engineering geology and the related fields of environmental geology and hydrogeology.

Association for Computing Machinery

Awards

ACM recognizes excellence through its eminent series of awards for outstanding technical and professional achievements and contributions in computer science and information technology.

Special Interest Group Awards

ACM's Special Interest Groups (SIGs) regularly cite outstanding individuals for their contributions in more than 30 distinct technological fields.

Astronaut Scholarship Foundation — Scholars

College Scholarships in Science and Engineering

Scholarship nominees must be engineering or natural or applied science (e.g., astronomy, biology, chemistry, physics, earth science, computer science) or mathematics students with intentions to pursue research or advance their field upon completion of their final degrees.

Rubber Division, American Chemical Society — Funding & Awards

[Scholarships and Awards in Chemistry, Physics, Chemical Engineering, Mechanical Engineering, Polymer Science or Any Other Technical Discipline of Relevance to the Rubber Industry](#)

There are many scholarships available for those students who wish to pursue a degree in rubber technology, polymer science or the chemical profession.

Society of Manufacturing Engineers Education Foundation — Scholarships

[Scholarships for Graduating High School Seniors, College Undergraduates, and Graduate Students](#)

The Foundation awards scholarships to graduating high school seniors, current undergraduates and masters or doctoral degree students pursuing degrees in manufacturing and related fields at two-year and four-year colleges.

Texas Tech University, College of Engineering

[College Scholarships](#)

The Whitacre College of Engineering offers a number of externally funded scholarships. Each department offers scholarships to students within the department.

U.S. Federal Aviation Administration (FAA) — Scholarships and Grants

U.S. National Highway Institute — Technology Partnership Programs

[Eisenhower Transportation Graduate Fellowships](#)

The Dwight David Eisenhower Transportation Fellowship Program (DDETFP) awards fellowships to students pursuing degrees in transportation-related disciplines. This program advances the transportation workforce by attracting the brightest minds to the field through education, research, and workforce development. The DDETFP encompasses all modes of transportation.

Scholarships For High School Students

American Society for Engineering Education — Fellowship Programs

Science and Engineering Apprenticeship Program (SEAP) - U.S. Army

Apr 14 SEAP is designed so that students can apprentice in fields of their choice with experienced scientists and engineers. This opportunity provides students with valuable experience needed to make informed career decisions. Students apprentice with their mentors on mutually agreed upon projects. At Army Research facilities, the students apprentice in a professional research laboratory setting and learn how their research can benefit the Army as well as the civilian community.

Science and Engineering Apprenticeship Program (SEAP) - U.S. Navy

Dec 19 The program is an extracurricular science education program, which enables students to experience science in a real laboratory setting. Students receive a stipend to participate in one week-, two week- and four-week long programs, depending on student grade and program site. Programs offered at different sites are unique.

Gains in the Education of Mathematics and Science (GEMS) - U.S. Army

Mar 2 This program is intended for high school students who have completed at least Grade 9. SEAP is an eight week summer research opportunity at participating ONR laboratories. Applicants must be 16 years of age for most Laboratories and U.S. citizens. A competitive stipend is available. The application cycle is from October to January.

U.S. Centers for Disease Control and Prevention (CDC) — Opportunities for Students and College Graduates

CDC Disease Detective Camp for Upcoming High School Juniors and Seniors

Apr 3 CDC Disease Detective Camp is a week-long day camp for rising high school juniors and seniors that exposes students to epidemiology, the field of public health and the diverse career opportunities within the field of public health. Two separate, but identical iterations of the camp are held each summer.

Pathways Program

Summer student employment for high school, college and graduate students. The Pathways Programs offer clear paths to Federal internships for students from high school through post-graduate school and to careers for recent graduates, and provide meaningful training and career development opportunities for individuals who are at the beginning of their Federal service.

Jack Kent Cooke Foundation

Young Scholars (High-Achieving Youth with Financial Need)

The Young Scholars Program provides the most personalized, generous scholarship experience in the nation. The Foundation works closely with Scholars and their families to construct a tailored educational program that includes, but is not limited to, support for summer programs, distance learning courses, and music and art instruction. Some Young Scholars attend a private school if none of their public school options adequately serve their academic potential; however, many stay in their public schools.

Nordstrom

College Scholarships for High School Juniors in Selected Areas

May 1 Nordstrom awards \$10,000 scholarships to 80 outstanding high school students to help them achieve their dreams of going to college. The Nordstrom Scholarship recognizes students across the country for their exceptional scholastic achievement and community involvement.

Institute for Educational Advancement

Caroline D. Bradley Scholarships for High School Students

May 2 This prestigious award offers scholarship support, academic guidance and the opportunity to develop lifelong connections with a unique peer network. Caroline D. Bradley Scholars receive a four-year high school scholarship that covers day student tuition or an approved alternative educational program. The award does not cover boarding expense. Textbooks may be covered based on need.

Siemens Foundation — Programs

Siemens Math, Science and Technology Competition for High School Students — Up to \$100,000 College Scholarships

Sep 22 The Siemens Competition in Math, Science & Technology recognizes remarkable talent early on, fostering individual growth for high school students who are willing to challenge themselves through science research. Through this competition, students have an opportunity to achieve national recognition for science research projects that they complete in high school.

Carson Scholars Fund

College Scholarships

Dec 19 The Carson Scholars Fund awards college scholarships to students in grades 4-11 who excel academically and are dedicated to serving their communities. Scholarship winners receive the honor of being named "Carson Scholars" and are awarded an Olympic-sized medal and a trophy for their school to celebrate their accomplishments.

U.S. Environmental Protection Agency — Environmental Education

President's Environmental Youth Awards (PEYA)

Dec 31 The PEYA program promotes awareness of our nation's natural resources and encourages positive community involvement. It recognizes young people across the U.S. for protecting our nation's air, water, land, and ecology.

Massachusetts Institute of Technology (MIT)

MITES Program for High School Juniors

Feb 20 The MITES Program is a rigorous six-week residential, academic enrichment summer program for talented high school students who are interested in studying and exploring careers in science and engineering.

U.S. National Institutes of Health (NIH) — Training Programs in the Biomedical Sciences

Summer Internship Program in Biomedical Research (SIP) — \$1,700 to \$2,200/mo.

Mar 1 The Summer Internship Program is for students who will be sixteen years of age or older at the time they begin the program and who are currently enrolled at least half-time in high school or an accredited U.S. college or university as undergraduate, graduate, or professional students. Students who have been accepted into a college or university program may also apply.

American Museum of Natural History

Young Naturalist Awards

Mar 1 The Young Naturalist Awards is an inquiry-based science competition for students in grades 7-12 to promote participation and communication in science.

Children's Scholarship Fund

Transfer from Public to Private School Scholarships

The Children's Scholarship Fund aims to maximize educational opportunity for all children: for those in need by offering tuition assistance in grades K-8 for alternatives to faltering conventional schools, and for all children by supporting and cultivating education reform and parental choice efforts.

Davidson Institute for Talent Development — Programs and Scholarships

Free support services for profoundly gifted students ages 5 to 18 in educational advocacy, talent and interest development, and peer connections

1st of mo. The Davidson Young Scholars Program provides FREE services designed to nurture and support profoundly gifted young people. Students and their parents receive assistance - free consulting services, an online community, annual get-togethers, ambassador program, free guidebooks.

Intel Education Initiative — Competitions

Intel International Science and Engineering Fair

Each year, approximately 7 million high school students around the globe develop original research projects and present their work at local science competitions with the hope of making it to the Intel International Science and Engineering Fair, a program of Society for Science & the Public. Only the best and brightest-1,600 winners of local, regional, state, and national competitions-are invited to participate in this week-long celebration of science, technology, engineering, and math. At the event, these young innovators share ideas, showcase cutting-edge research, and compete for more than USD 4 million in awards and scholarships.

[Intel Science Talent Search for High School Seniors](#)

Each year, more than 1,700 seniors attending American high schools conduct original research projects and present their work in the country's oldest, most prestigious pre-college science competition: the Intel Science Talent Search, a program of Society of Science & the Public. Forty of these young innovators are chosen as finalists and invited to participate in a nearly week-long event in Washington, D.C., where they compete for over USD 1.25 million in awards and scholarships.

[William Randolph Hearst Foundations](#)

[United States Senate Youth Program and College Scholarships for High School Juniors or Seniors](#)

Student leaders will spend a week in Washington experiencing their national government in action. Student delegates will hear major policy addresses by Senators, cabinet members, officials from the Departments of State and Defense and directors of other federal agencies, as well as participate in a meeting with a Justice of the U.S. Supreme Court.

Biology, Environmental Sciences And Agriculture Scholarships

[**U.S. Environmental Protection Agency \(EPA\) — Fellowships and Scholarships**](#)

[Greater Research Opportunities \(GRO\) Fellowships for Undergraduate Environmental Study — Up to \\$20,700/yr plus \\$8,600 internship](#)

May 19 Eligible students will receive support for their junior and senior years of undergraduate study and for an internship at an EPA facility during the summer between their junior and senior years.

[Science to Achieve Results \(STAR\) Fellowships for Graduate Environmental Study](#)

May 26 Graduate fellowships for master's and doctoral level students in environmental fields of study.

[A National Student Design Competition for Sustainability Focusing on People, Prosperity and the Planet](#)

Dec 16 EPA's P3: People, Prosperity, and the Planet-Program is a unique college competition for designing solutions for a sustainable future. P3 offers students quality hands-on experience that brings their classroom learning to life. The competition has two phases. For the first phase of the competition,

teams are awarded a \$15,000 grant to develop their idea. They bring the design in April to the National Sustainable Design Expo in Washington DC to compete for the P3 Award and a grant of \$90,000 to take their design to real world application.

[Grants and Fellowships](#)

Grants and fellowship information.

[Internships, Fellowships, and Student Programs](#)

Numerous opportunities are available within EPA for students to gain vital career experience while contributing to the mission of protecting human health and safeguarding the environment. Internships, fellowships and other opportunities are available in Washington, D.C., laboratories, and at regional EPA locations nationwide.

[Smithsonian Institution](#) — *Fellowship and Internship Opportunities*

[Smithsonian Tropical Research Institute Postdoctoral Fellowships](#) — \$45,000 per year

Jan 15 Disciplines include ecology, anthropology, paleontology, paleoecology, evolutionary biology, molecular phylogenetics, biogeography, animal behavior, neurobiology, soils sciences, and physiology of tropical plants and animals.

[Link Foundation Graduate Fellowships in the Marine Sciences](#) — \$6,500

Feb 15 Interns will learn skills in a broad range of horticultural endeavors from SI's expert professional staff and can provide a strong practical background to emerging professionals hoping to enter the public gardening world.

[Smithsonian Biodiversity Genomics Postdoctoral Fellowship Program](#) — \$48,000 per year

Dec 1 The program promotes collaborative research in these fields involving comparative genomic approaches such as phylogenomics, population genomics, metagenomics or transcriptomics, and have a component that involves significant bioinformatics analysis. Applicants must propose to conduct research in-residence for a period of 12 to 24 months. Applicants must have completed or be near completion of the Ph.D. Recipients who have not completed the Ph.D. at the time of application must provide proof of completion of the degree before the fellowship begins.

[American Society for Microbiology \(ASM\)](#) — *Student Fellowships*

[ASM Undergraduate Research Fellowships](#)

Feb 1 A 10-12 week summer program for students to conduct microbiology-related research with an ASM member at the student's undergraduate institution. Requires joint application from student and faculty sponsor.

University of Washington, Friday Harbor Laboratories — Fellowships and Scholarships

Research Apprenticeships in Marine Research for Undergraduates and Post-Baccalaureates

Jan
25
Feb
1
Jul
1

Applications are welcome from undergraduates, post-baccalaureates or graduate students from any institution, worldwide. Applicants do not need to be currently enrolled at the University of Washington or any other university or college.

Blinks Summer Fellowships in Marine Research

Mar
1

The awards link undergraduate students with scientist-mentors as collaborators in marine science research projects.

U.S. National Oceanic and Atmospheric Administration (NOAA) — Student Internships and Scholarships

<https://www.noaa.gov/education/opportunities/student-opportunities>

Jan
30

Provide successful undergraduate applicants with awards that include academic assistance for full-time study during the 9-month academic year; a 10-week, full-time internship position during the summer at a NOAA facility; and, if reappointed, academic assistance for full-time study during a second 9-month academic year.

Coastal Services Center Coastal Management Fellowships — \$34,000 per year

Jan
23

Provide on-the-job education and training opportunities in coastal resource management and policy for postgraduate students.

NOAA Coral Reef Management Fellowships

Jul
15

Applicants typically have a master's degree and two years of experience or a bachelor's degree and four years of experience. Jurisdictions may require additional or alternate skills, such as outreach and education experience. Although most applicants hold either Bachelor's or Master's degrees, applicants holding a PhD or JD are welcome to submit an application for consideration.

Dr. Nancy Foster Graduate Scholarships in Oceanography, Marine Biology and Maritime Archaeology — Up to \$42,000

Dec
10

The scholarship program recognizes outstanding scholarship and encourages independent graduate level research -- particularly by female and minority students -- in oceanography, marine biology and maritime archaeology (including all science, engineering, social science and resource management of ocean and coastal areas).

National Research Council (NRC) — Research Associateship Programs

Postdoctoral Research Associateship Programs for Scientists and Engineers

Nov

1

May Tenable at U.S. Laboratories and NASA Research Centers. The mission of the NRC Research Associateship

1 Programs (RAP) is to promote excellence in scientific and technological research conducted by the U. S.

Aug government through the administration of programs offering graduate, postdoctoral, and senior level

1 research opportunities at sponsoring federal laboratories and affiliated institutions.

Nov

1

Rocky Mountain Conservancy

Graduate Fellowships at the Rocky Mountain National Park — \$8,000 plus up to \$3,000 for expenses

Feb The award is designed to encourage highly qualified graduate students to apply their talents to conducting
1 research in the national parks. It is also intended to convey the importance of communicating park research to the public.

American Museum of Natural History — Fellowship and Grant Opportunities

Graduate Student and Postdoctoral Fellowships

Dedicated to the training of Ph.D. candidates in those scientific disciplines practiced at the Museum.

Undergraduate Fellowships

Every summer AMNH hosts two National Science Foundation Research Experience for Undergraduate Site grants: Research in Evolution and Systematics, and Earth Sciences and Astrophysics. In these programs, undergraduate students who have completed their freshman through junior years may work with AMNH scientists on one of an array of potential research projects that are available each year.

Mote Marine Laboratory

Research Experiences for Undergraduates (REU)

Feb The awards offer paid research training experiences in estuarine science to undergraduate students during
15 a 10-week summer period.

Internships

Mote Internships allow college students and recent college graduates to gain valuable hands-on experience in ocean science research, conservation, education and support services.

Hudson River Foundation

Tibor T. Polgar Summer Fellowships for Undergraduate and Graduate Students

Feb 18 This program provides a summertime grant and limited research funds for college students (both undergraduate and graduate students are eligible) to conduct research on the Hudson River.

Mark B. Bain Graduate Fellowships

Mar 17 The Foundation will award research fellowships to advanced graduate students conducting research on the Hudson River system.

University of New Hampshire Marine Program — Fellowships

Summer Undergraduate Research Fellowships

Mar 1 Designed to create research experiences for undergraduate students who are interested in pursuing graduate work. SURF is aimed primarily at students who are working toward a degree in science, engineering, or math and are completing their junior year.

The Brian E. Doyle Undergraduate Marine Extension Fellowship — \$3,000

Apr 11 Applications will be accepted from students beginning their junior or senior year at any four-year undergraduate institution in New Hampshire. Fisheries and aquaculture, marine literacy, coastal communities and climate adaptation, healthy coastal ecosystems, communications

Wildlife Conservation Society

Research Fellowships — Up to \$20,000

Jul 16 Designed to build capacity for the next generation of conservationists by supporting individual field research projects that have a clear application to the conservation of threatened wildlife and wild places.

National Wildlife Federation — Campus Ecology

<https://www.nwf.org/Campus-Ecology.aspx>

Feb 25 NWF is seeking graduate students in the U.S. to conduct and test market research and business planning and assist with content development for the new NWF EcoLeaders online community. There will be two track options for the Fellowship, Market Research and Content Development.

Bermuda Institute of Ocean Sciences (BIOS) — Education

Research Experiences for Undergraduates

May This program provides recipients with the opportunity to design and conduct intensive, hands-on research
30 projects under faculty supervision and mentorship in several active and ongoing research areas.

American Academy of Underwater Sciences (AAUS) — Scholarships and Internships

Graduate Scholarships — \$1,500 to \$3,000

Jun Awards for students engaged in, or planning to begin, a research project in which diving is or will be used as
30 a principal research tool or studying diving science.

Internships

Earth Island Institute

Brower Youth Awards in Environmental Conservation, Preservation and Restoration

The Brower Youth Awards recognize young people in North America for their outstanding activism and achievements in the fields of environmental and environmental justice advocacy.

Earthwatch Institute — Education

Student Fellowships for High School Rising Sophomores and Juniors

Earthwatch student fellows get to join one of Earthwatch's expeditions around the world to work with top scientists and other students in the field.

Fellowships for Elementary, Middle, and High School Educators and Administrators

Get out of the classroom and head into the field to learn about cutting edge research and conservation efforts, to develop professional skills, and to make a difference for our shared environment.

Entomological Society of America — Awards, Honors, and Scholarships

Awards and Scholarships

Each year the Entomological Society of America, Certification Corporation, and the Entomological Foundation provide annual honors and awards to recognize scientists, educators, and students, who have distinguished themselves through their contributions to entomology.

Environmental Leadership Program

<https://elpnet.org/>

Jul The National Fellowship Program offers intensive leadership and skills training, national networking
21 opportunities, and time for personal and professional reflection. Through immersive retreats, the

curriculum helps emerging leaders hone their leadership styles, improve their strategy and organizational development, and strengthen their outreach to diverse constituencies. With the assistance of professional coaching and peer learning, each Fellow develops a Personal Leadership Plan. The National Fellowship consists of two multi-day retreats and access to 4 hours of professional coaching.

U.S. Department of Agriculture

Internships and Special Programs

Student employees gain valuable professional experience as an assistant in scientific, professional, technical, and/or administrative areas.

U.S. Department of Energy — Internships, Fellowships and Scholarships

DOE Office of Science Graduate Student Research (SCGSR) Program

The goal of the Office of Science Graduate Student Research (SCGSR) program is to prepare graduate students for science, technology, engineering, or mathematics (STEM) careers critically important to the DOE Office of Science mission, by providing graduate thesis research opportunities at DOE laboratories. The SCGSR program provides supplemental awards to outstanding U.S. graduate students to pursue part of their graduate thesis research at a DOE laboratory in areas that address scientific challenges central to the Office of Science mission. The research opportunity is expected to advance the graduate students' overall doctoral thesis while providing access to the expertise, resources, and capabilities available at the DOE laboratories.

Welder Wildlife Foundation

<https://welderwildlife.org/>

Oct 1 The program is designed to promote the education of exceptionally qualified students and provide research information to manage wildlife populations.

Environmental Research and Education Foundation

Future Farmers of America — Grants and Scholarships

Scholarships for College and Graduate School

Each year the National FFA Organization awards approximately \$2 million in scholarships designed to fit the diversity of its applicants. Scholarships are sponsored by businesses and individuals through the National FFA Foundation and are given for a wide variety of experiences, career goals and higher education plans.

Feeding Tomorrow - the Foundation of the Institute of Food Technologists — Programs

College Scholarships and Graduate Fellowships in Food Science and Technology

Freshman, sophomore, junior, senior, and graduate scholarships.

University of Puerto Rico, Río Piedras

Natural-Human Systems in the Urbanizing Tropics: Graduate Traineeships

Integrative Graduate Education and Research Traineeship (IGERT). Research may cover climate, water, food security, renewable energy, waste management, biodiversity, or urban system services, among other topics. Award includes \$30,000/year for two years; \$2,000 for travel and education materials; office, computer and software usage; reserved space in all special courses and workshops.

International Crane Foundation — Get Involved

Crane Conservation Internships

Internships are usually six months in length and are open on a competitive basis.

United States-Israel Binational Agricultural Research and Development Fund (BARD)

Graduate and Postdoctoral Fellowships in Agricultural Research

Projects cover all phases of agricultural research and development, including integrated projects and strategic or applied research.

University of California, Davis

Postdoctoral Training

Each postdoctoral scholar is encouraged to choose one or two faculty mentors in addition to his/her primary mentor, to offer broader professional guidance.

Math And Physical Science Scholarships

Alfred P. Sloan Foundation

[Sloan Research Fellowships in Chemistry, Physics, Mathematics, Computer Science, Economics, or Neuroscience](#)

The Sloan Research Fellowships seek to stimulate fundamental research by early-career scientists and Sep scholars of outstanding promise. These two-year fellowships are awarded yearly to researchers in 15 recognition of distinguished performance and a unique potential to make substantial contributions to their field.

Woods Hole Oceanographic Institution (WHOI) — Fellowships

[Postdoctoral Scholar Program](#)

Jan Eighteen-month Postdoctoral Scholar awards are offered annually to recipients of new or recent 5 doctorates in the fields of chemistry, engineering, geology, geophysics, mathematics, meteorology, physics, and biology as well as oceanography.

[Summer Student Fellowship Program](#)

Feb A research project is at the heart of the Summer Student and Minority Fellowship programs. All fellows 15 are expected to work on a project selected in collaboration with their sponsor(s) that will provide meaningful results in one summer's work. Research topics span a broad spectrum of topics throughout WHOI's science departments, and the Woods Hole Field Station of the United States Geological Survey (USGS).

[Geophysical Fluid Dynamics Fellowships](#)

Feb Graduate students and researchers from a variety of fields who share a common interest in the 15 nonlinear dynamics of rotating, stratified fluids share an intense ten-week research experience, and vigorous discussions of concepts that span different disciplines.

[Guest Student Program](#)

The Woods Hole Oceanographic Institution offers a limited number of guest student appointments in our laboratories on a year-round basis for full-time graduate and undergraduate students in conjunction with their studies. Advanced high school students enrolled in Upper Cape and Island schools may also be eligible for a guest student appointment.

U.S. Department of Energy — Internships, Fellowships and Scholarships

[Science Undergraduate Laboratory Internships \(SULI\)](#)

Jan 9 The SULIs program encourages undergraduate students to pursue science, technology, engineering, and mathematics (STEM) careers by providing research experiences at the Department of Energy (DOE) laboratories. Selected students participate as interns appointed at one of 17 participating DOE laboratories/facilities. They perform research, under the guidance of laboratory staff scientists or engineers, on projects supporting the DOE mission.

Krell Institute — Fellowships

[U.S. Department of Energy National Nuclear Security Administration Stewardship Science Graduate Fellowships \(SSGF\)](#)

Jan 14 The Department of Energy National Nuclear Security Administration Stewardship Science Graduate Fellowship (SSGF) Program provides opportunities to students pursuing a Ph.D. in areas such as high-energy density physics, low-energy nuclear science, or properties of materials under extreme conditions.

[U.S. Department of Energy Computational Science Graduate Fellowships \(CSGF\)](#)

Jan 27 The Department of Energy Computational Science Graduate Fellowship (DOE CSGF) program provides outstanding benefits and opportunities to students pursuing a PhD in scientific or engineering disciplines with an emphasis in high-performance computing.

Chemical Heritage Foundation — Fellowships and Travel Grants

[Long-Term Dissertation and Postdoctoral Fellowships](#)

Jan 15 Applicants for dissertation fellowships must be graduate students whose Ph.D. dissertations have been accepted by their respective university departments. Applicants for postdoctoral fellowships must have their Ph.D. in hand before the July prior to the start of the fellowship.

Smithsonian Institution — Fellowship and Internship Opportunities

[National Air and Space Museum Fellowships in Aerospace History and Earth & Planetary Sciences](#)

Jan 15 The National Air and Space Museum offers a variety of fellowships for predoctoral, postdoctoral, and non-academic researchers.

[Harvard-Smithsonian Center for Astrophysics Postdoctoral Fellowships](#)

Oct 30 Awarded to an outstanding researcher displaying significant promise in theory, observation, instrumentation, and/or laboratory experiments.

U.S. National Oceanic and Atmospheric Administration (NOAA) — Student Internships and Scholarships

[Coastal Services Center Coastal Management Fellowships — \\$34,000 per year](#)

Jan 23 Provide on-the-job education and training opportunities in coastal resource management and policy for postgraduate students.

National Research Council (NRC) — Research Associateship Programs

Postdoctoral Research Associateship Programs for Scientists and Engineers

Nov

1

May

1

Aug

1

Nov

1

Tenable at U.S. Laboratories and NASA Research Centers. The mission of the NRC Research Associateship Programs (RAP) is to promote excellence in scientific and technological research conducted by the U. S. government through the administration of programs offering graduate, postdoctoral, and senior level research opportunities at sponsoring federal laboratories and affiliated institutions.

Space Telescope Science Institute (STScI) — Fellowships

Summer Student Program for Undergraduates

Jan

31

Each summer, the STScI brings highly motivated college students to Baltimore, Maryland, for a Space Astronomy Summer Program.

Hubble Postdoctoral Fellowships in Astronomy, Physics and Related Disciplines

Nov

6

The fellowship supports outstanding postdoctoral scientists whose research is broadly related to NASA Cosmic Origins scientific goals as addressed by any of the missions in that program: the Herschel Space Observatory, Hubble Space Telescope (HST), James Webb Space Telescope (JWST), Stratospheric Observatory for Infrared Astronomy (SOFIA), and the Spitzer Space Telescope.

Giacconi Postdoctoral Fellowships in Astronomy, Physics and Related Disciplines

Nov

6

The Giacconi Fellowship provides up to three years of support for outstanding postdoctoral researchers.

Washington Society of Certified Public Accountants

Accounting Student Scholarships

Feb

1

The Washington CPA Foundation awards scholarships annually to qualified accounting majors attending an accredited 4-year university in the state of Washington.

Geological Society of America

Undergraduate and Graduate Research Grants

Feb

2

Grants to encourage and support studies by students either in their senior year of their undergraduate studies, or at the Masters or Ph.D. level.

American Meteorological Society — Scholarships and Fellowships

AMS Minority Scholarships — Up to \$3,000

Feb 6 The scholarships help support the college educations of minority students traditionally underrepresented in the sciences, especially Hispanic, Native American, and Black/African American students, who intend to pursue careers in the atmospheric or related oceanic and hydrologic sciences. Minority students who will be entering their freshman year of college in the fall are eligible to apply.

Fermi National Accelerator Laboratory — Fellowships

Lee Teng Undergraduate Internship in Accelerator Science and Engineering for Undergraduate Students

Feb 8 The Lee Teng Undergraduate Internship in Accelerator Science and Engineering has been established by the Illinois Accelerator Institute to attract undergraduate students into the exciting and challenging world of particle accelerator physics and technology. A limited number of highly qualified students will be selected into this program. The program includes a generous stipend and all travel expenses.

Thesis Awards

Mar 20 To qualify the thesis must have been submitted as partial fulfillment of the Ph.D. requirements, be written in English, and must have been submitted in electronic form to the Fermilab Publications Office in accordance with Fermilab policy.

John Bardeen Engineering Fellowship for Master's and Doctoral Engineering Students

Provides full-time entry-level opportunities for outstanding engineering graduates who are interested in working in a cutting edge research environment. Fermilab provides opportunities in the fields of electrical, electronics, radio frequency systems, power distribution, magnets, RF cavities, mechanical, materials science and cryogenic engineering.

Peoples Postdoctoral Fellowships in Accelerator Physicists and Accelerator-Related Technology Specialists

Nov 1 Candidates must either have received within the prior three years a Ph.D. in accelerator physics or accelerator-related technology. Post-doctoral experience is not required or have received within the prior five years a Ph.D. in high energy physics or a related field. Candidates are normally expected to have at least three years of post-doctoral experience in high energy physics or a related field.

Robert R. Wilson Postdoctoral Fellowships in Particle Physics

Nov 14 The successful candidate will be a Ph.D. physicist of exceptional talent with at least two years of post-doctoral experience. Provides unique opportunities for self-directed research in experimental physics through work on the Fermilab particle physics experiment of the candidate's choice. The Fermilab experimental program includes collider physics, studies of neutrino, muon, and astroparticle physics, as well as R&D and planning for experiments at future colliders and high intensity beams.

[Lederman Postdoctoral Fellowships in Experimental Physics](#)

In general, candidates should either have obtained a Ph.D. in an appropriate field within a year before the deadline for accepting applications or expect to obtain a Ph.D. in an appropriate field within approximately 6 months after the deadline for accepting applications. Postdoctoral candidates who have demonstrated outstanding ability in research and who in addition have a strong interest in education and outreach. Lederman Fellows have a choice in the broad program of experimental work at Fermilab which includes research at the LHC, neutrino physics, astroparticle physics, and research at the Intensity Frontier.

[U.S. National Institute of Standards and Technology \(NIST\) — Educational Activities](#)

[Summer Undergraduate Research Fellowships \(SURF\), Gaithersburg, Maryland](#)

You and your school are invited to participate in the Boulder, Colorado, Laboratories' NIST Summer Undergraduate Research Fellowship (SURF) program for students majoring in science, mathematics, and engineering. Opportunities are available in the fields of Chemical Science and Technology, Electronics and Electrical Engineering, Information Technology, Materials Science & Engineering, and Physics.

[University of New Hampshire, Marine Program — Fellowship & Scholarship Opportunities](#)

[Marine Sciences Fellowships](#)

These fellowships are offered through and coordinated by the Marine Program on behalf of the following UNH/NOAA Centers of Excellence and Cooperative Institutes.

[Harbor Branch Oceanographic Institution](#)

[Marine Science and Engineering Summer Internships](#)

Open to qualified undergraduate and graduate students, the 10-week program is designed to provide hands-on experience in a research environment in areas that include aquaculture, biomedical marine research, marine biology, marine mammal research, marine natural product chemistry, marine microbiology, ocean engineering, ocean technology, and oceanography.

[American Institute of Certified Public Accountants — Legacy Scholars](#)

[AICPA Scholarship for Minority Accounting Students](#)

Provides financial awards to outstanding minority students to encourage their pursuit of accounting as a major and their ultimate entry into the profession.

[John L. Carey Scholarships for Liberal Arts Degree Holders Pursuing Graduate Studies in Accounting](#)

Provides financial assistance to liberal arts and non-business degree holders who are pursuing both graduate studies in accounting and the CPA licensure. These awards are intended to encourage students with little or no previous accounting education to consider professional accounting careers.

[Scholarship Opportunities](#)

Search dozens of scholarship opportunities to find the hidden cash that's out there waiting for you.

[Camille and Henry Dreyfus Foundation — *Programs and Awards*](#)

[Postdoctoral Program in Environmental Chemistry](#)

Aug 3 Applications are accepted from principal investigators who have well-established research efforts in environmental science or engineering. These research activities need not be located in traditional departments in the chemical sciences, and collaboration across departments and institutions is encouraged. The postdoctoral fellow is usually not already identified nor in the principal investigator's lab at the time of application.

[IBM](#)

[IBM Ph.D. Fellowship Awards](#)

Oct 28 The IBM Ph.D. Fellowship Awards Program honors exceptional Ph.D. students who have an interest in solving problems that are important to IBM and fundamental to innovation in many academic disciplines and areas of study. These include: computer science and engineering, electrical and mechanical engineering, physical sciences (including chemistry, material sciences, and physics), mathematical sciences (including optimization), business sciences (including financial services, communication, and learning/knowledge), and service science, management, and engineering (SSME). Students must be nominated by a doctoral faculty member and enrolled full-time in a college or university Ph.D. program.

[Herman Goldstine Fellowship for Postdoctoral Research in Mathematical and Computer Sciences](#)

The Business Analytics and Mathematical Sciences Department of the IBM Thomas J. Watson Research Center invites applications for its Herman Goldstine Memorial Postdoctoral Fellowship for research in the mathematical and computer sciences. The fellowship provides scientists of outstanding ability an opportunity to advance their scholarship as resident department members at the Research Center. The Research Center is located in Westchester County, less than an hour north of New York City.

[American Mathematical Society — *Fellowships and Scholarships*](#)

[Centennial Fellowships](#)

Dec 1 The primary selection criterion for the Centennial Fellowship is the excellence of the candidate's research. A recipient of the fellowship shall have held his or her doctoral degree for at least three years and not more than twelve years at the inception of the award.

[U.S. Geological Survey](#)

[Mendenhall Postdoctoral Research Fellowships](#)

Dec 1 Program provides an opportunity for postdoctoral fellows to conduct concentrated research in association with selected members of the USGS professional staff, often as a final element to their formal career preparation. The Program is also intended to provide research experiences that enhance their personal scientific stature and credentials. Mendenhall Fellows are appointed to the USGS for two years and receive full salary and benefits at the GS-12 level.

[American Society for Photogrammetry and Remote Sensing \(ASPRS\) Foundation](#)

[Awards and Scholarships](#)

The ASPRS Foundation funds the awards and scholarships given annually by ASPRS.

[American Statistical Association — Awards & Recognition](#)

[Awards and Scholarships](#)

[Research Fellowships and Grants](#)

[Be an Actuary](#)

[Actuarial Scholarships](#)

There are a number of opportunities for financial assistance available for students pursuing actuarial science.

[Carnegie Institution of Washington](#)

[Summer Internships](#)

For undergraduate students pursuing a degree in geosciences, physics, chemistry, materials science, biology, astronomy or a related field.

[Joint Institute for Laboratory Astrophysics \(JILA\) — Undergraduates, Graduate Students & Postdocs](#)

[Undergraduate Students](#)

During the academic year, individual JILA scientists may opt to participate in CU's campus-wide Undergraduate Research Opportunities Program, or UROP. Through UROP, individual faculty members can invite one or more talented and motivated undergraduate CU science majors to participate in their research laboratory for one or more semesters. The students not only get involved in ground-breaking research, but they also get paid for participating in the program.

[Graduate Students](#)

Graduate education is an integral part of JILA. Students work in a stimulating, collaborative environment with researchers from JILA and visitors from around the world. Students work in world-class facilities and have the option to participate in training courses in electronics, electron microscopy, computing, machining, and scientific writing.

[Postdoctoral Research Associates](#)

JILA supports an active postdoctoral research associates program for young scientists desiring advanced research training soon after being awarded a Ph.D. Appointments to the program are offered for durations of one year or more. Young researchers often undertake postdoctoral research to gain experience in a new field or expand their experience in applied research, theoretical analysis, or experimental research.

Social Science Scholarships

[American Psychological Association — Scholarships, Grants, and Awards](#)

[Doctoral Dissertation Awards](#)

Applicants must be graduate students of psychology in good standing with their university, at a regionally accredited university or college located in the United States or Canada. Applicants must be enrolled full-time or working on their dissertation research for an equivalent of full-time enrollment regardless of actual registration status.

[National Institute of Justice — Fellowship Programs](#)

[Graduate Research Fellowships](#)

Provides assistance to universities for dissertation research support to outstanding doctoral students undertaking independent research on issues related to crime and justice.

[W.E.B. du Bois Fellowships](#)

Places particular emphasis on crime, violence and the administration of justice in diverse cultural contexts within the United States.

[Visiting Fellowships](#)

Offers criminal justice professionals and researchers a unique opportunity to participate in research addressing criminal justice issues relevant to the work of NIJ and public policy.

[Association of American Geographers — Grants and Awards Programs](#)

[Dissertation Research Grants](#)

You are eligible to apply if you have been an AAG member for at least one year at the time you submit your application, you do not have a doctorate at the time of the award, and you will have completed all Ph.D. requirements except the dissertation by the end of the semester or term following approval of your award.

Collegeville Institute for Ecumenical and Cultural Research — Available Fellowships

Resident Scholars

Jan 12 Each resident scholar engages in an independent rhythm of reflection and writing, discernment and conversation. Bringing together diverse traditions, cultures, disciplines, and projects, the participants form a scholarly and prayerful community.

Council of American Overseas Research Centers (CAORC) — Fellowships

Multi-Country Research Fellowship

Jan 31 Supports advanced regional or trans-regional research in the humanities, social sciences, or allied natural sciences for U.S. doctoral candidates and scholars who have already earned their Ph.D. Preference will be given to candidates examining comparative and/or cross-regional research. Applicants are eligible to apply as individuals or in teams.

Mediterranean Regional Research Fellowship

Jan 21 Enables pre- and early post-doctoral scholars to carry out research in the humanities and related social sciences in countries bordering the Mediterranean and served by American overseas research centers.

Coro

The Coro Fellowship in Public Affairs

Jan 23 Applicants may include individuals who have recently completed their undergraduate or graduate degrees, as well as those with several years of work experience. Coro Fellows are diverse, talented individuals committed to positive change in their communities throughout their lives and careers. They are emerging innovators in business, policy and government who demonstrate exceptional leadership through their accomplishments, curiosity and civic involvement. Fellows are brought together by a common interest in creative leadership and civic engagement, and building strong connections that will support them as they drive impact in their cities and organizations.

George Mason University, Institute for Humane Studies — Scholarships and Fellowships

Undergraduate or Graduate Fellowships in Humane Studies

Jan 31 Humane Studies Fellowships are awarded to graduate students and outstanding undergraduates embarking on liberty-advancing careers in ideas. The fellowships support study in a variety of fields, including economics, philosophy, law, political science, history, and sociology.

Summer Graduate Research Fellowships in Research and Writing

The Summer Graduate Research Fellowship is a non-residential research and writing program that provides an opportunity to refine and complete a publishable scholarly article or thesis chapter that engages ideas within the classical liberal tradition.

[Internships and Job Opportunities](#)

Participate in an intensive public policy internship at an organization focused on state, federal, or single-issue policies. The journalism program offers paid internships in print, broadcast, new media, and investigative journalism at daily newspapers, major media outlets, and state policy think tanks across the country.

[National Research Council \(NRC\) — Research Associateship Programs](#)

[Postdoctoral Research Associateship Programs for Scientists and Engineers Tenable at U.S. Laboratories and NASA Research Centers](#)

Nov 1 The mission of the NRC Research Associateship Programs (RAP) is to promote excellence in scientific and technological research conducted by the U. S. government through the administration of programs offering graduate, postdoctoral, and senior level research opportunities at sponsoring federal laboratories and affiliated institutions.

[Harry Frank Guggenheim Foundation](#)

[Dissertation Fellowships to Increase Understanding of the Causes, Manifestations, and Control of Violence, Aggression, and Dominance](#)

Feb 1 These fellowships are designed to contribute to the support of the doctoral candidate to enable him or her to complete the thesis in a timely manner and are only appropriate for students approaching the final year of their Ph.D. work.

[The Carter Center — Get Involved](#)

[Internships in International Relations for Undergraduate Juniors and Seniors, Graduate Students, and Recent Graduates](#)

Mar 1
Jun 15
Oct 15 Carter Center interns come from around the world and make vital contributions to the Center's work. In turn, the Center provides a substantive learning experience that serves as a basis for interns to explore their career options and to attain professional skills.

[Society for the Psychological Study of Social Issues — Fellowships](#)

[The James Marshall Public Policy Postdoctoral Fellowship](#)

Mar 1 The Marshall Fellowship is open to post-doctoral scientists from any discipline relevant to the psychological study of social issues. Applicants must hold a PhD or PsyD before the start of the fellowship and be a member of SPSSI. Candidates must demonstrate interest or involvement in the application of social science to social issues and policies, have a sound scientific background, and demonstrate sensitivity toward policy issues. Candidates should be interested in and knowledgeable

about at least one current social issue such as homelessness, violence, adolescent pregnancy, child abuse, etc.

[Dalmas A. Taylor Memorial Summer Minority Policy Fellowship](#)

Mar 15 Provides an opportunity for a graduate student of color to work on public policy issues in Washington, DC. Applicants must be currently enrolled and in good standing in an accredited graduate program in psychology or a related field. In addition they must be members of an ethnic minority group (including, but not limited to, African American, Alaskan Native, American Indian, Asian American, Hispanic, and Pacific Islander) and/or have demonstrated a commitment to a career with a focus on ethnic minority issues. Applicants should not have completed their graduate program by the time they begin the fellowship.

[Applied Social Issues Internship](#)

Apr 25 Undergraduate seniors (rising seniors included), graduate students, and first-year post doctorates in psychology, applied social science, and related disciplines are eligible to apply. Applicant must be a SPSSI member. To encourage research that is conducted in cooperation with a community or government organization, public interest group or other not-for-profit entity that will benefit directly from the project.

[Mathematica Policy Research](#)

[Summer Fellowships: Pursuing Self-Directed, Issues-Oriented Research](#)

Mar 14 The program supports independent, self-directed research on economic or social problems that affect minority groups and individuals with disabilities. Students enrolled in a master's or Ph.D. program in public policy or a social science. Minority students and students with disabilities are encouraged to apply.

[Duke-UNC Rotary Center for International Studies](#)

[Rotary World Peace Scholarships for Graduate Studies in World Peace and Resolution of Conflicts](#)

Jul 1 A strong commitment to international understanding and peace demonstrated through professional and academic achievements and personal and community service activities is required.

[Rotary Foundation — Create a Scholarship](#)

[Peace Fellowships](#)

Jul 1 Rotary Peace Fellows are leaders promoting national and international cooperation, peace, and the successful resolution of conflict throughout their lives, in their careers, and through service activities. Fellows can earn either a master's degree in international relations, public administration, sustainable development, peace studies, conflict resolution, or a related field, or a professional development certificate in peace and conflict resolution.

U.S. National Science Foundation (NSF) — Find Funding

Biological Anthropology: Doctoral Dissertation Research Improvement Grants

Jul 28 The Biological Anthropology Program supports multifaceted research which advances scientific knowledge of human biology and ecology, including understanding of our evolutionary history and mechanisms which have shaped human and nonhuman primate biological diversity. Supported research focuses on living and fossil forms of both human and nonhuman primates, addressing time scales ranging from the short-term to evolutionary, encompassing multiple levels of organization and analysis (molecular and organismal, to the population and ecosystem scales), and conducted in field, laboratory, and captive research environments.

Cultural Anthropology: Doctoral Dissertation Research Improvement Grants

Aug 15 The primary objective of the Cultural Anthropology Program is to support basic scientific research on the causes, consequences, and complexities of human social and cultural variability. Anthropological research spans a wide gamut, and contemporary cultural anthropology is an arena in which diverse research traditions and methodologies are valid.

U.S. Department of State

Humphrey Fellowships for Mid-Level Professionals from Designated Countries in Africa, Asia, Latin America, the Caribbean, the Middle East, and Eurasia

Oct 1 A year of professional enrichment in the United States for experienced professionals from designated countries undergoing development or political transition.

Council for a Livable World

Herbert Scoville Jr. Peace Fellowships

Oct 10 A highly-competitive national fellowship program that provides college graduates with the opportunity to gain a Washington perspective on key issues of peace and security.

School of Advanced Research

Resident Scholars Fellowships

Nov 1 Nine-month Resident Scholar Fellowships are awarded to scholars who have completed their research and analysis in the social sciences, humanities, and Native arts and who need time to reflect, debate, and write. Two-month Summer Scholar Fellowships are awarded to scholars in the social sciences, humanities, and Native arts to pursue research or writing projects.

Social Science Research Council — Fellowships and Grants

International Dissertation Field Research Fellowships (IDRF)

Nov 4 The program is open to graduate students in the humanities and social sciences - regardless of citizenship - enrolled in doctoral programs in the United States and conducting dissertation research outside of the United States.

[Fellowships](#)

Current and upcoming opportunities to apply for SSRC fellowships and grants.

[Eisenhower Exchange Fellowships — USA and International Programs](#)

[Women's Leadership Program \(WLP\)](#)

Nov 14 The Women's Leadership Program (WLP) will promote women in leadership roles across all industries and sectors by providing strong networking and professional development opportunities. WLP participants will make a commitment to mentor and empower women in their countries and regions to advance the next generation of emerging women leaders.

[USA Program](#)

Jun 13 The USA program provides overseas exposure of 4-5 weeks designed to enhance Fellows' professional and personal growth, develop new contacts, and promote the exchange of ideas and international understanding. Fellows have meetings with leaders in their field, as well as cultural site visits and hospitality by local citizens.

[International Fellowships](#)

Multi Nation, Single Region, and Common Interest programs offer a unique opportunity for emerging leaders aged 32-45 with a record of achievement and high potential for further advancements to broaden their horizons through the exchange of perspectives with U.S. leaders.

[Leo Baeck Institute — Fellowships](#)

[David Baumgardt Memorial Fellowship](#)

Nov 14 The fellowship provides financial assistance to scholars whose research projects are connected with the writings of Professor David Baumgardt or his scholarly interests, including Ethics, Wissenschaft des Judentums and the Modern Intellectual History of German-speaking Jewry.

[Population Council — Fellowships](#)

[Biomedical Fellowships](#)

The Population Council offers pre- and postdoctoral biomedical fellowships for advanced study in basic and translational reproductive sciences and HIV and AIDS. Fellows train in the laboratories of the Council's Center for Biomedical Research located on the campus of The Rockefeller University in New York City.

[Wenner-Gren Foundation for Anthropological Research](#)

[Professional Development International Fellowships \(Predoctoral, Postdoctoral and Library Residency\)](#)

The Foundation has a variety of grant programs for anthropological research and scholarship that are open to applicants irrespective of nationality or country of residence.

Education Scholarships

Knowles Science Teaching Foundation (KSTF)Teaching Fellowships — Up to \$10,800

Oct 29 The KSTF Teaching Fellowships, are in the areas of biological sciences, mathematics and physical sciences. The fellowship is designed to meet the needs of beginning teachers from the onset of the credentialing process through the early years of their careers.

American Educational Research Association (AERA) — Fellowships and GrantsMinority Dissertation Fellowship Program in Education Research — \$12,000

Nov 3 This program offers doctoral fellowships to enhance the competitiveness of outstanding minority scholars for academic appointments at major research universities. It supports fellows conducting education research and provides mentoring and guidance toward the completion of their doctoral studies.

AERA Undergraduate Student Education Research Training Workshop

Dec 10 This workshop is designed to build the talent pool of undergraduate students who plan to pursue doctorate degrees in education research or in disciplines and fields that examine education issues.

AERA-AIR Fellows Program — \$55,000 to 65,000

The Fellows Program aims to build the talent pool of high skilled education researchers experienced in large-scale studies in a major research organization. Fellows will receive mentoring from a diverse group of highly recognized researchers and practitioners in a variety of substantive areas in education.

U.S. Department of State — Fulbright Fellowship Program GrantsThe Distinguished Fulbright Fellowship Awards in Teaching Program

Nov 5 Highly accomplished U.S. primary and secondary level teachers of all subjects, guidance counselors, curriculum specialists, curriculum heads, talented and gifted coordinators, special education coordinators and media specialists/librarians may apply for this professional development program to carry out a course of study for three to six months abroad.

U.S. Department of Energy — Internships, Fellowships and ScholarshipsAlbert Einstein Distinguished Educator Fellowships — \$6,000/mo. plus a \$1,000 housing allowance

Nov 20 Program of distinguished educator fellowships for elementary and secondary school mathematics and science teachers. Selected teachers spend eleven months in a Congressional Office or a Federal agency.

Summer Internships for Graduate Students — \$6,000 to \$9,000

Feb Interns in this eight-week program participate in research under the guidance of a senior ETS staff member in educational measurement and psychometrics, validity, natural language processing and speech technologies, cognitive psychology, learning theory, linguistics and computational linguistics, teaching and classroom research, statistics, and international large-scale assessments.

American Association of Physics Teachers — Grants & Scholarships

Barbara Lotze Scholarships for Future Teachers — Up to \$2,000

Dec Undergraduate students enrolled, or planning to enroll, in physics teacher preparation curricula and high school seniors entering such programs are eligible.

Susan Thompson Buffett Foundation — College Scholarships and Outstanding Teacher Awards

<https://buffettscholarships.org/>

Jan Omaha Public School Teachers (K-12) with a Minimum of Two Years of Teaching Experience.
15

James Madison Memorial Fellowship Foundation — Graduate Fellowships

<https://www.jamesmadison.gov/>

Mar The James Madison Memorial Fellowship Foundation offers Junior and Senior Graduate Fellowships to individuals desiring to become outstanding teachers of the American Constitution at the secondary school level. Fellowship applicants compete only against other applicants from the states of their legal residence. Generally, one Fellowship per state is awarded each year.

U.S. National Science Foundation (NSF) — Find Funding

Robert Noyce College and Graduate Scholarships and Stipends — At least \$10,000 per year

Mar The Robert Noyce Teacher Scholarship Program seeks to encourage talented science, technology, engineering, and mathematics majors and professionals to become K-12 mathematics and science teachers. The Noyce Scholarship Track provides funds to institutions of higher education to support scholarships, stipends, and academic programs for undergraduate STEM majors and post-baccalaureate students holding STEM degrees who earn a teaching credential and commit to teaching in high-need K-12 school districts.

Massachusetts Historical Society (MHS) — Fellowships

Teacher Fellowships — \$4,000

Mar Applications are welcome from any K-12 teacher who has a serious interest in using the collections at the MHS to prepare primary-source-based curricula, supported by documents and visual aids, in the fields of American history, world history, or English/language arts.
15

The White House

Presidential Awards for Excellence in Mathematics and Science Teaching (PAEMST)

Apr The Presidential Awards for Excellence in Mathematics and Science Teaching (PAEMST) are the nation's
1 highest honors for teachers of mathematics and science (including computer science). Awardees serve
as models for their colleagues, inspiration to their communities, and leaders in the improvement of
mathematics and science education.

Education Pioneers — *Become a Fellow*

<https://www.educationpioneers.org/what-we-do/education-pioneers-fellowships>

Apr The Education Pioneers Analyst Fellowship places talented data-savvy professionals in mission-critical
9 roles in school districts, charter management organizations, nonprofits, and other leading education
organizations. As an Analyst Fellow, you will consult for one-year on a mission-critical, data-driven
project a leading education organization.

National Council of Teachers of Mathematics — *Grants, Scholarships and Awards*

Prospective Middle School Mathematics Teacher Course Work Scholarships — *Up to \$3,000*

May The purpose of this scholarship is to provide financial support to college or university students preparing
4 for teaching middle school mathematics.

Prospective 7-12 Secondary Teacher Course Work Scholarships — *Up to \$10,000*

May The purpose of this scholarship is to provide financial support to college students preparing for teaching
4 secondary school mathematics.

Mathematics Course Work Scholarships for Grades PreK-5 Teachers

Nov The purpose of this grant is to provide financial support for improving teachers' understanding of
6 mathematics by completing course work in mathematics.

Mathematics Graduate Course Work Scholarships for Grades 6-8 Teachers

The purpose of this grant is to provide financial support for improving teachers' understanding of
mathematics by completing graduate course work in mathematics.

Mathematics Graduate Course Work Scholarships for Grades 9-12 Teachers

The purpose of this grant is to provide financial support for improving teachers' understanding of
mathematics by completing graduate course work in mathematics.

American Association of School Administrators — *Awards and Scholarships*

Educational Administration Scholarship Award — *\$2,500*

Jul Provide incentive, honor and financial assistance to outstanding graduate students in school
30 administration who intend to make the school superintendency a career.

Gilder Lehrman Institute of American History — Fellowships and Prizes for Historians

National History Teacher of the Year Award — \$1,000 to \$10,000

Feb The National History Teacher of the Year Award recognizes outstanding American history teachers from
1 elementary school through high school , and the crucial importance of American history education.

Teacher Education Assistance for College and Higher Education (TEACH) Grants

Jun Provides grants of up to \$4,000 per year to students who intend to teach in a public or private
30 elementary or secondary school that serves students from low-income families.

Teacher Ambassador Fellowships

Jan The Teaching Ambassador Fellowship is designed to improve education for students by involving
20 teachers in the development and implementation of national education policy. The Fellowship seeks to create a community of teacher leaders who share expertise and collaborate with policymakers and leaders in the federal government on national education issues.

Graduate Assistance in Areas of National Need

This program provides fellowships, through academic departments and programs of IHEs, to assist graduate students with excellent records who demonstrate financial need and plan to pursue the highest degree available in their course study at the institution in a field designated as an area of national need.

Earthwatch Institute — Education

Fellowships for Elementary, Middle, and High School Educators and Administrators

Get out of the classroom and head into the field to learn about cutting edge research and conservation efforts, to develop professional skills, and to make a difference for our shared environment.

Teach Plus — Fellows

Teaching Policy Fellowships

Engage early-career teachers in work on issues related to the future of the teaching profession.

Medical School And Health Profession Scholarships

[U.S. National Institutes of Health \(NIH\) — Training Programs in the Biomedical Sciences](#)

[Postbaccalaureate Intramural Research Training Award \(IRTA\)](#)

Open The NIH Postbac IRTA program (CRTA, Cancer Research Training Award, in the National Cancer Institute) provides recent college graduates who are planning to apply to graduate or professional (medical/dental/pharmacy) school an opportunity to spend one or two years performing full-time research at the NIH.

[Technical Intramural Research Training Award \(IRTA\)](#)

Open The NIH Technical IRTA Program (CRTA, Cancer Research Training Award in the National Cancer Institute) is designed to produce a cadre of highly trained research support personnel. College graduates and individuals who hold a master's degree spend two years (possibly three) mastering the latest and most advanced techniques for basic and/or applied research working in an environment devoted exclusively to biomedical research.

[Graduate Partnerships Program \(GPP\)](#)

Open The NIH Graduate Partnerships Program (GPP) allows participants to take advantage of the best of two worlds - the academic environment of a university and the breadth and depth of research at the NIH. The goal is to create a different kind of graduate experience, one that focuses on training the next generation of scientific leaders by emphasizing communication and collaboration skills, integration of information, and interdisciplinary investigation. At the NIH, graduate students work in a highly collaborative research environment with leading scientists and clinicians.

[Biomedical Engineering Summer Internships \(BESIP\)](#)

Feb 9 This internship program is for undergraduate biomedical engineering students who have completed their junior year of college. This ten-week program will allow rising senior biomedical engineering students to participate in cutting-edge biomedical research projects under the mentorship of world-class scientists in NIH laboratories.

[Summer Internship Program in Biomedical Research \(SIP\)](#)

Mar 1 The Summer Internship Program is for students who will be sixteen years of age or older at the time they begin the program and who are currently enrolled at least half-time in high school or an accredited U.S. college or university as undergraduate, graduate, or professional students. Students who have been accepted into a college or university program may also apply.

[National Institutes of Health \(NIH\) Undergraduate Scholarship Program \(UGSP\)](#)

Mar 2 UGSP offers competitive scholarships to students from disadvantaged backgrounds who are committed to careers in biomedical, behavioral, and social science health-related research. The program offers

scholarship support, paid research training at the NIH during the summer and paid employment and training at the NIH after graduation.

[NIH Academy](#)

The NIH Academy is a postbaccalaureate biomedical research program for recent college graduates with an interest in domestic health disparities, differences in the frequency or severity of diseases and other adverse health conditions among populations in the U.S.

U.S. Army — Education Opportunities

[F. Edward Hébert Armed Forces Health Professions Scholarship Program \(HPSP\) for Students Pursuing Advanced Degrees in Medicine, Dentistry, Veterinary Science, Psychiatric Nursing, Optometry or Psychology](#)

The U.S. Army can help with one of the most comprehensive scholarships available in the health care field. Qualifying students receive full tuition at any accredited medical, dental, veterinary, psychology or optometry program, plus a generous monthly stipend.

U.S. Health Resources and Services Administration (HRSA) — Loans & Scholarships

[National Health Service Corps \(NHSC\) Scholarships](#)

May
7

The National Health Service Corps Scholarship (NHSC) Program accepts applications once a year from students who are enrolled or accepted for enrollment at an accredited health professions training program in an eligible primary care discipline: medicine (MD or DO), dentistry, family nurse practitioner, certified nurse midwife or physician assistant. You can apply before your first year or after you have finished one or more years of school.

[National Health Service Corps \(NHSC\) Loan Repayment Program](#)

Mar
24

The National Health Service Corps recruits primary care medical, dental and behavioral and mental health clinicians who are dedicated to providing care to the Nation's underserved people. In return, they can reduce or eliminate their health professions student debt by providing care at a National Health Service Corps-approved site.

Tylenol® Future Care Scholarships

<https://www.tylenol.com/news/scholarship>

Jun
30

Students must have completed at least one year of undergraduate or graduate course of study at an accredited two or four year college, university or vocational-technical school.

Alpha One Foundation

[Postdoctoral Fellowships for Studies in the Basic Science or Clinical Investigation of Alpha₁-Antitrypsin \(AAT\) Deficiency](#)

Intended to provide support for postdoctoral research fellows who intend to pursue a career in AAT research. Applications will be accepted from candidates holding an M.D., Ph.D. or equivalent degrees who are interested in conducting basic science, clinical research, or ethic, legal, social issues studies related to AAT Deficiency.

American Academy of Family Physicians

Awards for Medical Students, Residents, and Medical Education Faculty

These awards recognize medical students, residents and medical education faculty who are deemed to have made exceptional advances in furthering the strategic objectives of the Academy. This program assists AAFP members and staff, as well as constituent chapters, to identify, select and recommend appropriate forms of recognition for exceptional initiatives or efforts that benefit Family Medicine.

American Optometric Foundation — Awards, Scholarships and Grants

<https://www.aaopt.org/awards-and-grants>

These scholarships support students enrolled in a full-time program of study and training in optometry.

American Academy of Pediatric Dentistry — Awards and Fellowships

Fellowships

Pediatric dental residents and individuals in their first five years post-residency are eligible and encouraged to apply.

American Association of Neurological Surgeons

Medical Student Summer Research Fellowship

Fellowships will be awarded to medical students in the United States or Canada who have completed one or two years of medical school and wish to spend a summer working in a neurosurgical laboratory, mentored by a neurosurgical investigator who is a member of the AANS and will sponsor the student.

Grants and Fellowships

American College of Surgeons

Research Scholarships, Fellowships, and Awards

International Guest Scholarships, ACS Traveling Fellowships, ACS Scholarships.

American Federation for Aging Research — *Funding Opportunities*

Medical Student Training in Aging Research (MSTAR) Program

The 2012 MSTAR Program provides medical students with an enriching experience in aging-related research and geriatrics, under the mentorship of top experts in the field. This program introduces students to research and academic experiences early in their training that they might not otherwise have during medical school.

Glenn/AFAR Postdoctoral Fellowship Program for Translational Research on Aging

Encourages and furthers the careers of postdoctoral fellows with outstanding promise in the basic biological and biomedical sciences relevant to understanding aging processes and age-related diseases and disabilities. The award is intended to provide significant support to permit these postdoctoral fellows to become established in the field of aging.

American Parkinson's Disease Association

<https://www.apdaparkinson.org/>

The Summer Fellowships are designed to provide a stipend to enable medical students to perform supervised laboratory or clinical research designed to clarify our understanding of Parkinson's disease, its nature, manifestations, etiology or treatment. It is hoped this experience will stimulate a student's interest in future research in the field of Parkinson's disease and related disorders.

American Pharmaceutical Association

Awards and Scholarships

American Philosophical Society — *Fellowships and Grants*

Daland Fellowships in Clinical Investigation

American Psychiatric Association

Resident Fellowships

American Veterinary Medical Foundation

Congressional Science Fellowships

Feb
6 AVMA Fellows serve for one year in Washington D.C. as scientific advisors to members of Congress.

Burroughs Wellcome Fund — Grant Programs

Career Awards at the Scientific Interface

Career Awards at the Scientific Interface provide \$500,000 to bridge advanced postdoctoral training and the first three years of faculty service. These awards are intended to foster the early career development of researchers who have transitioned or are transitioning from undergraduate and/or graduate work in the physical/mathematical/computational sciences or engineering into postdoctoral work in the biological sciences, and who are dedicated to pursuing a career in academic research. These awards are open to U.S. and Canadian citizens or permanent residents as well as to U.S. temporary residents.

Career Awards for Medical Scientists

Five-year awards for physician-scientists to bridge advanced postdoctoral/fellowship training and the early years of faculty service. Proposals must be in the area of basic biomedical, disease-oriented, or translational research.

Career Development Awards are intended to encourage the development of individuals with research potential to help them prepare for a career of independent basic and/or clinical investigation in the area of Inflammatory Bowel Disease (IBD).

Research Fellowship Awards

Research Fellowship Awards are intended to encourage the development of individuals with research potential to help them prepare for a career of independent basic and/or clinical investigation in the area of Crohn's disease and ulcerative colitis.

Student Research Awards

This program offers financial support for students to spend time performing research on topics relevant to Inflammatory Bowel Disease (IBD) for a minimum of 10 weeks. CCFA hopes to stimulate research interest in the areas of Crohn's disease and ulcerative colitis.

Areas of interest considered include, but are not limited to neuroscience, physiology, pharmacology, psychology, biochemistry, genetics, nursing, or pharmacy.

Foundation for Anesthesia Education and Research (FAER) — Programs

Medical Student Anesthesia Research Fellowship Program

The Medical Student Anesthesia Research Fellowship program encourages talented medical students to consider careers in academic anesthesiology. Medical students participate in research projects and

clinical anesthesia in academic departments across the country through the eight-week summer program.

Howard Hughes Medical Institute — *Opportunities for Individuals*

Medical Research Fellows - Year Long Program

As a medical, dental, or veterinary student, you are in a unique position to advance biomedical research and translate findings from the lab into the treatment of disease. HHMI's Medical Fellows Program gives you a chance to focus on a research project full-time and determine how you can incorporate research into your professional career.

International Student Research Fellowships

This fellowship program supports outstanding international predoctoral students studying in the United States who are ineligible for fellowships or training grants through U.S. federal agencies. Participation is Nov by invitation only. Nominated students must be in their second or third year of study to apply for the 18 fellowship. To activate the fellowship, students must be in the third or fourth year of a PhD program at one of the designated institutions. Students in the first, second, or fifth year of their PhD programs cannot activate the fellowship. In no case will support be provided past year five of a PhD program.

Human Frontier Science Program (HFSP)

Cross-Disciplinary and Long-Term Postdoctoral Fellowships in Brain Functions and Molecular Approaches to Biological Functions

Huntington's Disease Society of America

The Donald A. King Summer Research Fellowship

Application is open to matriculated undergraduate life sciences students, pre-medical students, and first-year medical students who are currently attending accredited institutions in the United States. The students will conduct full-time research, under the direction of a mentor, investigating a subject relevant to Huntington's disease. Applications must be accompanied by a letter of support from the mentor who oversees the laboratory where the research will be performed. The duration of each project shall be at least 10 weeks.

International Foundation for Ethical Research

Graduate Fellowships in Animal Welfare

Mayo Clinic and Foundation for Medical Education and Research

Postdoctoral Fellowships

Medical Scholarships

Merle A. Sande/Pfizer Fellowship Award in International Infectious Diseases

Mar 17 This award is intended to encourage young physicians interested in international medicine. The award will be given for important clinical research in infectious diseases and/or HIV/AIDS conducted in a resource-limited setting. The successful applicant will be expected to spend a significant amount of time during the year in country

Public Health Scholarships

U.S. Centers for Disease Control and Prevention — *Public Health Traineeships, Fellowships and Internships*

<https://www.cdc.gov/nceh/summerinternships/cleh.htm>

Jan 28 Ten-week summer internship for students interested in a career in environmental health; open to rising juniors and rising seniors majoring in environmental fields, such as, chemistry, engineering, biology, or ecology, or other environmental studies.

Dental Public Health Residency

Feb 15 Applicants must have completed a dental degree (DDS or DMD) from an accredited dental school. In addition, the applicant must have completed at least one academic year of advanced training in public health and obtained a graduate degree, a Master of Public Health (MPH) or comparable degree.

Hubert Global Health Fellowships for Medical and Veterinary School Students

Feb 21 This fellowship provides third- and fourth-year medical and veterinary students with valuable public health experience in an international setting. The main focus of the fellowship is a 6- to 12-week field assignment.

CDC Summer Graduate Environmental Health Internship (GEH)

Feb 25 The Graduate Environmental Health program (GEH) is a paid ten week summer internship available for graduate students with majors or interests deemed to be in support of environmental health missions at NCEH/ATSDR. During the program interns will be assigned to projects that utilize the skills they've acquired through graduate studies and personal experiences. Interns will also be able to take advantage of lecture series and other opportunities offered at the CDC.

CDC Disease Detective Camp for Upcoming High School Juniors and Seniors

Apr 3 CDC Disease Detective Camp is a week-long day camp for rising high school juniors and seniors that exposes students to epidemiology, the field of public health and the diverse career opportunities within the field of public health. Two separate, but identical iterations of the camp are held each summer.

[Epidemiology Elective Program for Senior Medical and Veterinary Students](#)

Mar The Epidemiology Elective Program (Epi Elective) is a 6 to 8 week rotation for senior medical and
30 veterinary students sponsored by the Centers of Disease Control and Prevention (CDC).

[Environmental Health Traineeships and Fellowships](#)

The program offers specialized training in environmental health to public health laboratory scientists. EH
Traineeship: Short-term (2-6 week) specialized training in environmental health technology and testing
Aug methods for current laboratory staff (a "trainee"). EH Fellowship: Recruiting and hosting a one or two-
2 year full-time "fellow" (not on current staff) who would be based in a laboratory and receive short-term
(2-6 week) training opportunities from other state or federal laboratories, and/or other appropriate
facilities.

[U.S. Health Resources and Services Administration \(HRSA\) — Loans & Scholarships](#)

[National Health Service Corps \(NHSC\) Loan Repayment Program](#)

The National Health Service Corps recruits primary care medical, dental and behavioral and mental
Mar health clinicians who are dedicated to providing care to the Nation's underserved people. In return, they
24 can reduce or eliminate their health professions student debt by providing care at a National Health
Service Corps-approved site.

[National Health Service Corps \(NHSC\) Scholarships](#)

The National Health Service Corps Scholarship (NHSC) Program accepts applications once a year from
students who are enrolled or accepted for enrollment at an accredited health professions training
May program in an eligible primary care discipline: medicine (MD or DO), dentistry, family nurse practitioner,
7 certified nurse midwife or physician assistant. You can apply before your first year or after you have
finished one or more years of school.

[Burroughs Wellcome Fund — Grant Programs](#)

[Student Science Enrichment Program](#)

The Student Science Enrichment Program supports diverse programs with a common goal: to enable
Apr primary and secondary students to participate in hands-on scientific activities and pursue inquiry-based
10 exploration in BWF's home state of North Carolina.

[Brown and Caldwell](#)

[College Scholarships for Students](#)

Apr Civil, Chemical or Environmental Engineering or One of the Environmental Sciences (e.g., Geology,
15 Hydrogeology, Biology, Ecology, Public Health, Industrial Hygiene or Toxicology).

Tylenol® Future Care Scholarships

Jun Students must have completed at least one year of undergraduate or graduate course of study at an
30 accredited two or four year college, university or vocational-technical school.

Columbia University College of Physicians & Surgeons — *Programs for Future Physicians and Scientists*

Summer Public Health Scholars

The program is designed for undergraduates in their Sophomore or Junior year and recent
baccalaureate degree students who are undecided about their career goals and who have a minimum
Jan GPA of 2.7. This is a rigorous program which includes Public Health course work at Columbia University;
31 hands-on field experience and immersion in a diverse, economically disadvantaged urban environment;
seminars and lectures with public health leaders; and mentoring by faculty members, ensuring students'
exposure to the breadth and importance of public health as a career option.

University of Michigan, School of Public Health — *Tuition and Financial Aid*

Future Public Health Leaders Program

The Future Public Health Leaders Program (FPHLP) is a 10-week residential program at the University of
Michigan School of Public Health (UM-SPH) designed to encourage underrepresented college students
Jan to consider careers in public health. The program is intended for college students in their Sophomore,
31 Junior or Senior year who are undecided about their career goals and are in good academic standing in
their area of study. The program includes public health and career mentorship, hands-on and practical
field experience, seminars, lectures and workshops with public health leaders.

Kennedy Krieger Institute — *RISE Programs*

Maternal and Child Health Careers/Research Initiatives for Student Enhancement

The Maternal and Child Health Careers/Research Initiatives for Student Enhancement (MCHC/RISE-UP)
Program provides opportunities for enhanced public health and related training to eliminate health
Jan disparities and promote health equity. This program's ultimate goal is to promote a more diversified and
31 equal health system by introducing highly qualified undergraduate students (juniors and seniors with a
GPA 2.5 or better on a 4.0 scale; and students who received their baccalaureate degree within 12
months of MCHC/RISE-UP program orientation) from underrepresented groups to the field of public
health. All students interested in addressing health disparities are encouraged to apply.

Public Health Leadership and Learning Undergraduate Student Success (PLLUSS) Program

The PLLUSS Program is a public health leadership and research program for undergraduate sophomore
and junior scholars minoring or majoring in public health with at least a 3.0 GPA on a 4-point scale. The
Jan PLLUSS Program provides scholars with mentored public health research and community health
31 activities, mentorship, and professional development, especially in the area of promotion of health
equity and the elimination of health disparities research.

[James A. Ferguson Emerging Infectious Diseases Fellowship Program](#)

Jan 31 A nine week summer program providing educational and professional development opportunities for students from underrepresented populations and those interested in addressing health disparities related to infectious diseases. Students must be currently enrolled as a full-time student in a medical, dental, pharmacy, veterinary, or public health graduate program.

Cancer Research And Education Scholarships

[American Cancer Society — Mentored Training and Career Development Grants](#)

[Young Cancer Survivors' Scholarships](#)

The American Cancer Society will transition out of the Young Cancer Survivor Scholarship Program by the end of 2013.

[Graduate Scholarships in Cancer Nursing Practice](#)

[Presidential Awards for Excellence in Mathematics and Science Teaching \(PAEMST\)](#)

Apr 1 The Presidential Awards for Excellence in Mathematics and Science Teaching (PAEMST) are the nation's highest honors for teachers of mathematics and science (including computer science). Awardees serve as models for their colleagues, inspiration to their communities, and leaders in the improvement of mathematics and science education.

[The White House Internships — Unpaid](#)

Apr 19 The White House Internship Program provides a unique opportunity to gain valuable professional experience and build leadership skills. This hands-on program is designed to mentor and cultivate today's young leaders, strengthen their understanding of the Executive Office and prepare them for future public service opportunities.

[Presidential Management Fellows](#)

Oct 13 The Presidential Management Fellows (PMF) Program seeks eligible individuals for selection as Finalists to obtain appointments as PMFs in the Federal Government. Presidential Management Fellows are assigned to work in a broad range of areas including public policy and administration, domestic and international issues, information technology, acquisition, human resources, engineering, health and medical sciences, financial management, and many other fields in support of public service programs. This year, the PMF Program continues the STEM track pilot for those Finalists having specific advanced degrees in the areas of Science, Technology, Engineering, or Mathematics (STEM).

[White House Fellows](#)

Jan 15 The White House Fellows program is one of America's most prestigious programs for leadership and public service. White House Fellowships offer exceptional young men and women first-hand experience working at the highest levels of the federal government.

[President's National Medal of Science](#)

Presidential award to be given to individuals deserving of special recognition by reason of their outstanding contributions to knowledge in the physical, biological, mathematical, engineering sciences, the social and behavioral sciences.

[President's National Medal of Technology and Innovation](#)

The National Medal of Technology and Innovation is the highest honor for technological achievement bestowed by the President of the United States on America's leading innovators.

[National Inventors Hall of Fame — Collegiate Inventors](#)

[Collegiate Inventors Competition — Up to \\$15,000](#)

Jun 15 The Competition promotes exploration in invention, science, engineering, technology, and other creative endeavors and provides a window on the technologies from which society will benefit in the future.

Siemens Foundation — Programs

[Siemens Math, Science and Technology Competition for High School Students - Up to \\$100,000 College Scholarships](#)

Sep 22 The Siemens Competition in Math, Science & Technology recognizes remarkable talent early on, fostering individual growth for high school students who are willing to challenge themselves through science research.

Woodrow Wilson International Center for Scholars — Fellowships and Grants

[Public Policy Scholars in the Social Sciences and the Humanities](#)

Oct 1 Topics and scholarship should relate to key public policy challenges or provide the historical and/or cultural framework to illuminate policy issues of contemporary importance.

John F. Kennedy Library Foundation

[Student Internships](#)

The John F. Kennedy Library Foundation awards several paid archival internships each year to undergraduate and graduate students majoring in history, government, archival administration, library science, English, journalism, communications and other related disciplines.

Coca-Cola Scholars Foundation — Scholarships

[Four-Year College Scholarships for High School Seniors](#)

Oct 31 Seniors in high schools throughout the United States who meet the eligibility requirements may apply each year for achievement-based scholarships.

Intel Education Initiative — Competitions

[Intel Science Talent Search for High School Seniors - Up to \\$100,000 College Scholarships](#)

Nov 6 Intel Science Talent Search is America's oldest and most prestigious pre-college science competition. Every year, high school seniors enter the Intel Science Talent Search with original science projects.

[Intel International Science and Engineering Fair](#)

The Intel International Science and Engineering Fair is the world's largest pre-college science fair competition. Each year, young scientists from around the world vie to attend.

[Research Award Contest for Undergraduate Students](#)

Throughout the world, Intel sponsors technical contests that stimulate interest in electric engineering, computer science, and software design, and help cultivate future innovators. Many of these

competitions put higher education students in situations similar to those they will face in the real-world with time, budget, and/or product component restraints.

[National Defense Science and Engineering \(NDSEG\) Graduate Fellowships](#)

Dec 12 The NDSEG Fellowship is a highly competitive, portable award for U.S. citizens and nationals in the beginning stages of their overall graduate study who intend to pursue a doctoral degree a science, technology, engineering, and mathematics disciplines. NDSEG confers high honors upon its recipients and allows them to attend any accredited U.S. institution. NDSEG Fellowships last for up to three years (36 consecutive months) and provides full tuition and mandatory fee coverage, a monthly stipend, and a \$1,000 per year medical health insurance allowance.

[Science, Mathematics & Research for Transformation \(SMART\) Undergraduate and Graduate Scholarships](#)

Dec 15 An opportunity for students pursuing an undergraduate or graduate degree in Science, Technology, Engineering, and Mathematics (STEM) disciplines to receive a full scholarship and be gainfully employed upon degree completion. Students pursuing degrees related to the following are encouraged to apply: Aeronautical and Astronautical Engineering, Biosciences, Chemical Engineering, Chemistry, Civil Engineering, Cognitive, Neural, and Behavioral Sciences, Computer and Computational Sciences, Electrical Engineering , Geosciences , Industrial and Systems Engineering (technical tracks only), Information Sciences , Materials Science and Engineering, Mathematics, Mechanical Engineering, Naval Architecture and Ocean Engineering , Nuclear Engineering , Oceanography , Operations Research (technical tracks only), Physics.

[Thiel Foundation Fellowships — A No-Strings-Attached Grant of \\$100,000 to Skip College](#)

[College Scholarships in Math, Science and Engineering for Rising College Juniors and Seniors — Up to \\$7,500 annually](#)

Jan 23 The Goldwater Scholars are selected on the basis of academic merit from a field of mathematics, science, and engineering students who are nominated by the faculties of colleges and universities nationwide.

[Teach for America — National Teacher Corps of Recent College Graduates](#)

[Teaching Jobs for Graduating College Seniors and Recent College Graduates](#)

Sep 10 Individuals from all backgrounds, majors, and professional experiences who have what it takes to excel as teachers and improve the quality of education for children growing up in low-income communities. Teach For America corps members commit to teach for two years in low-income communities, then go on as alumni to lead efforts to change the face of public education.

[Harry S. Truman Scholarship Foundation — Are You a Potential Truman Scholar?](#)

[College Scholarships in Government Careers for College Juniors — \\$30,000](#)

Feb 3 The Truman Scholarship provides up to \$30,000 in funding to students pursuing graduate degrees in public service fields. Students must be college juniors at the time of selection.

Beinecke Brothers Memorial Scholarship Program — *Nominating Institutions*

Graduate Scholarships in the Arts, Humanities and Social Sciences

Students enrolled at a participating institution who are interested in applying for a Beinecke Scholarship should contact their campus liaison for information regarding the procedure to be followed in selecting the school's nominee. Applicants must be college juniors pursuing a bachelor's degree and who plan to enter a master's or doctoral program in the arts, humanities or social sciences. Students in the social sciences who plan to pursue graduate study in neuroscience should not apply for a Beinecke Scholarship.

James Madison Memorial Fellowship Foundation — *Graduate Fellowships*

Junior and Senior Graduate Fellowships in the Study of the U.S. Constitution for Students and Teachers — Up to \$24,000

Mar 1 The James Madison Memorial Fellowship Foundation offers Junior and Senior Graduate Fellowships to individuals desiring to become outstanding teachers of the American Constitution at the secondary school level. Fellowship applicants compete only against other applicants from the states of their legal residence. Generally, one Fellowship per state is awarded each year.

Jack Kent Cooke Foundation — *Scholarships*

Young Scholars (High-Achieving Youth with Financial Need)

Mar 20 The Foundation's Young Scholars Program is designed to nurture exceptional students who have demonstrated, through academic excellence and extracurricular activities, that they have the potential to excel. Students apply for the program in 7th grade, enter the program in 8th grade, and continue through high school.

College Scholarships for High-Achieving High School Seniors with Financial Need — Up to \$40,000

Nov 4 This scholarship rewards excellence by supporting high-achieving high school seniors with financial need who seek to attend the nation's best four-year colleges and universities. Each award is intended to cover a significant share of the student's educational expenses — including tuition, living expenses, books and required fees. Awards vary by individual, based on the cost of tuition as well as other grants or scholarships he or she may receive.

Undergraduate Transfer Scholarships for Students and Recent Alumni from Two-Year Institutions

Dec 2 The Jack Kent Cooke Foundation's Undergraduate Transfer Scholarship honors excellence by supporting outstanding community college students with financial need to transfer to and complete their bachelor's degrees at the nation's top four-year colleges and universities.

U.S. Department of Education — Student Aid on the Web

Presidential Scholars - The Most Distinguished High School Seniors

The U.S. Presidential Scholars Program recognizes and honors some of our nation's most distinguished graduating high school seniors, including students who demonstrate exceptional talent in the visual, creative and performing arts.

Summer Jobs, Research Internships And Training Programs For Students

Harvard Business School

Summer Venture in Management Program

May 11 The Harvard Business School (HBS) Summer Venture in Management Program (SVMP) is a one week management training program for rising college seniors designed to increase diversity and opportunity in business education.

Harvard University, Graduate School of Arts and Sciences

Summer Internships at Harvard for Science Undergraduates

Summer Honors, Summer Research, Health Policy, Molecules, Cells, and Organisms, Biological Sciences in Public Health, Systems Biology Research, Quantitative Sciences, Summer Research Training, Continuing Umbrella of Research Experiences, Stem Cells, Genomics, Immunology, Engineering and Applied Sciences, Biomedical Informatics, Humanities, Social Sciences, and Life/Physical Sciences, Clinical and Translational Research, Forest Ecology.

Washington Internships for Students of Engineering (WISE)

Summer Internships for Engineering and Computer Science Students

Dec 31 Applicants must be juniors, seniors, or entering their final year of undergraduate studies in engineering (or computer science). WISE will also accept applications from engineering grads who are beginning Masters level study in a technology policy-related degree.

U.S. Department of Energy — Internships, Fellowships and Scholarships

Science Undergraduate Laboratory Internships (SULI)

Jan 9 The SULI program encourages undergraduate students to pursue science, technology, engineering, and mathematics (STEM) careers by providing research experiences at the Department of Energy (DOE) laboratories. Selected students participate as interns appointed at one of 17 participating DOE laboratories/facilities. They perform research, under the guidance of laboratory staff scientists or engineers, on projects supporting the DOE mission.

DOE Scholars Program

Jan 15 The DOE Scholars Program introduces students or recent college graduates to DOE's mission and operations. As a participant in the DOE Scholars Program, you will earn a competitive edge by familiarizing yourself with DOE functions while showcasing your education, talent and skills.

U.S. Department of Transportation, Federal Highway Administration

Summer Transportation Internships

Jan 16 The Summer Transportation Internship Program for Diverse Groups (STIPDG) provides a unique opportunity to gain valuable professional experience and skills that will compliment your academic pursuits. This hands-on program is designed to mentor and cultivate tomorrow's leaders, strengthen their understanding of the transportation industry and prepare them for future public service opportunities.

Columbia University College of Physicians & Surgeons — Programs for Future Physicians and Scientists

Summer Public Health Scholars

Jan 31 The program is designed for undergraduates in their Sophomore or Junior year and recent baccalaureate degree students who are undecided about their career goals and who have a minimum GPA of 2.7. This is a rigorous program which includes Public Health course work at Columbia University; hands-on field experience and immersion in a diverse, economically disadvantaged urban environment; seminars and lectures with public health leaders; and mentoring by faculty members, ensuring students' exposure to the breadth and importance of public health as a career option.

University of Michigan, School of Public Health — Tuition and Financial Aid

Future Public Health Leaders Program

Jan 31 The Future Public Health Leaders Program (FPHLP) is a 10-week residential program at the University of Michigan School of Public Health (UM-SPH) designed to encourage underrepresented college students to consider careers in public health. The program is intended for college students in their Sophomore, Junior or Senior year who are undecided about their career goals and are in good academic standing in their area of study. The program includes public health and career mentorship, hands-on and practical field experience, seminars, lectures and workshops with public health leaders.

U.S. Centers for Disease Control and Prevention — *Public Health Training Fellowships*

Public Health Associate Program (PHAP)

Jan 16 PHAP is a competitive, two-year, paid fellowship within the Centers for Disease Control and Prevention (CDC). Public Health Associates are assigned to state, tribal, local and territorial public health agencies and hold positions that are functionally indistinguishable from their local colleagues.

Public Health Informatics Fellowship Program

Nov 7 Two-year training program in the application of computer science, information science, and technology related to public health.

Steven M. Teutsch Post-Doctoral Fellowships in Prevention Effectiveness

Jan 16 The fellowship is a 2-year, highly-selective research fellowship for recent doctoral graduates with a background in economics, policy analysis, operations research, decision sciences, and other quantitative areas.

Collegiate Leaders in Environmental Health

Jan 28 Ten-week summer internship for students interested in a career in environmental health; open to rising juniors and rising seniors majoring in environmental fields, such as, chemistry, engineering, biology, or ecology, or other environmental studies.

CDC-Hubert Global Health Fellowship

Feb 21 Six- to twelve-week introduction to preventive medicine, public health, and applied epidemiology in an international setting; apply in your second or third year of medical or veterinary school.

Epidemiology Elective Program for Senior Medical and Veterinary Students

Six to eight-week introduction to applied epidemiology.

ASPPH fellowships provide recent graduates of ASPPH member schools with public health training experiences based at federal agencies, state/local health departments, and on Capitol Hill. The duration of the fellowships ranges from 12-24 months depending on the program.

APTR/CDC Preventive Medicine & Public Health Fellowships

Sep 29 Fellowship opportunities in public health and preventive medicine interest areas are available with the Centers for Disease Control and Prevention (CDC) through the APTR Preventive Medicine and Public Health Fellowship Program. Fellows will gain leadership experience in public health practice and policy,

access to state-of-the-art technology and national databases, and will train with leading experts in the field of preventive medicine and public health.

[Sustainable Management Development Program for Public Health Professionals from Developing Countries](#)

CDC's approach to sustainable management capacity building is founded on partnership and includes the use of mentoring, management expertise, and science-based best practices tailored to a country's culture and conditions.

[ASM/CDC Postdoctoral Research Fellowship Program](#)

Feb 15 Two-year fellowship to conduct research in infectious disease or public health microbiology at one of the CDC national laboratories; must have earned the doctoral degree within 3 years of start date.

[APHL/CDC Emerging Infectious Diseases Fellowship Program](#)

Postdoctoral Laboratory Research Fellowship: This is a two-year fellowship program designed for doctoral level (PhD, MD, DVM) scientists. The program emphasizes research and professional development in infectious diseases. Fellows conduct applied research in areas relevant to public health laboratory practice.

[Environmental Health Traineeships and Fellowships](#)

The program offers specialized training in environmental health to public health laboratory scientists.

[Epidemic Intelligence Service \(EIS\)](#)

Aug 17 The Epidemic Intelligence Service (EIS) is a 2-year postgraduate program of service and training in applied epidemiology. EIS is a unique program of mentoring and on-the-job training for health professionals interested in applied epidemiology.

[U.S. Department of Agriculture](#)

[Internships and Special Programs](#)

USDA invites currently enrolled students to apply for the Student Internship Program (SIP) providing students with employment opportunities year-round.

[U.S. National Institute of Standards and Technology \(NIST\)](#)

[Summer Undergraduate Research Fellowships \(SURF\)](#)

Feb 13 Students must be undergraduates at a U.S. university or college with a scientific major, have a G.P.A. of 3.0/4.0 or better (recommended), and are considering pursuing a graduate degree (M.S. or Ph.D.). Students with physics, material science, chemistry, applied mathematics, computer science, or engineering majors are always encouraged to apply. There may be research opportunities for students with other majors.

[U.S. National Science Foundation \(NSF\) — Find Funding](#)

[Research Experiences for Undergraduates \(REU\)](#)

The Research Experiences for Undergraduates (REU) program supports active research participation by undergraduate students in any of the areas of research funded by the National Science Foundation.

[American Nuclear Society \(ANS\) — Honors and Awards](#)

[Engineering Internships](#)

ANS is a full participant in the Washington Internships for Students of Engineering (WISE) Program, with guaranteed support for two students. ANS-sponsored students must be student members of the Society.

[American Red Cross](#)

[Internships for Undergraduate and Graduate Students](#)

There are internships throughout the year in different departments and ongoing volunteer opportunities, too.

[Summer Medical and Dental Education Program \(SMDEP\)](#)

[Free \(full tuition, housing, and meals\) six-week medical and dental school summer academic enrichment program for freshman and sophomore college students](#)

Factors considered in the admissions process include whether an applicant identifies with a group that is racially/ethnically underrepresented in medicine and/or dentistry (as defined independently by each program site); comes from an economically or educationally disadvantaged background; has demonstrated interest in issues affecting underserved populations; and submits a compelling personal statement and strong letters of recommendation.

[Directors of Health Promotion and Education \(DHPE\)](#)

[Directors of Health Promotion and Education \(DHPE\) Internship Program for Students of Minority-Serving Institutions](#)

Mar

1

Jun

15

Oct

15

The program has been designed to provide students with practical experiences in public health related to the core competencies of health education and to introduce the students to the essentials of public health.

[Athenaeum of Philadelphia](#)

[Charles E. Peterson Internships in Architecture and Building Technology](#)

Mar Internships for periods of up to four months are awarded to graduate students enrolled full time in an
1 architecture or historic preservation program.

University of Washington, Friday Harbor Laboratories — Fellowships and Scholarships

Blinks Summer Internships in Marine Research

Mar This program welcomes students who bring diversity to the FHL student body in any phase of their
1 undergraduate career.

Nuclear Age Peace Foundation — Internships

Paid Internships — \$3,200

Mar These positions are for qualified university students at either the graduate or undergraduate level
1 seeking experience in the peace and disarmament field. Candidates from anywhere in the world are
encouraged to apply, provided that they are students currently enrolled in an accredited college or
university in the United States.

[Association of Occupational and Environmental Clinics](#)

[Occupational Health Internship Program \(OHIP\)](#)

Mar 14 Summer internship program to help medical, nursing, public health, and other students learn more about the field of occupational safety and health from those with the most at stake: working people.

[National Hispana Leadership Institute](#)

[Latinas Learning to Lead Summer Youth Institute](#)

Mar 31 The program promotes and fosters the development of young college-age Latina leaders through training, mentoring opportunities, access to national networks and tools to create a community impact through their leadership projects.

[Carnegie Institution of Washington](#)

[Summer Internships in Geochemistry and Cosmochemistry](#)

[Charles Drew University of Medicine and Science, Division of Cancer Research and Training](#)

[Undergraduate Cancer Research Training Program \(UCRTP\)](#)

The UCRTP is a 12-week summer research program designed for outstanding minority and underrepresented undergraduate students who are contemplating a career in biomedical-related sciences.

[Committee on Institutional Cooperation — Student Opportunities](#)

[Summer Research Opportunities Program \(SROP\)](#)

Feb 10 The Summer Research Opportunities Program (SROP) is a gateway to graduate education at CIC universities. The goal of the program is to increase the number of underrepresented students who pursue graduate study and research careers. SROP helps prepare undergraduates for graduate study through intensive research experiences with faculty mentors and enrichment activities.

[Google — Scholarships](#)

[Internships in Computer Science \(or Closely Related Areas\), Advertising, Business Development, Sales, Marketing, and Product Management](#)

Google now offers internship opportunities throughout the year.

[Fermi National Accelerator Laboratory](#)

[Summer Internships in Science and Technology](#)

The program focuses on giving opportunities in science and technology to undergraduate college students currently enrolled in four-year colleges and universities in the United States. Internships are

offered to students majoring in physics, electrical engineering, mechanical engineering and computer science.

Harbor Branch Oceanographic Institution

Marine Science and Engineering Summer Internships

Open to qualified undergraduate and graduate students, the 10-week program is designed to provide hands-on experience in a research environment in areas that include aquaculture, biomedical marine research, marine biology, marine mammal research, marine natural product chemistry, marine microbiology, ocean engineering, ocean technology, and oceanography.

Harvard Medical School

Summer Honors Undergraduate Research Program

The Program is offered for currently-enrolled undergraduates who are considering careers in biological or biomedical research sciences, who have already had at least one summer (or equivalent term-time) of experience in a research laboratory, and who have taken at least one upper-level biology course that includes molecular biology.

Harvard School of Public Health

Summer Program in Quantitative Sciences (Biostatistics, Epidemiology, and Health and Social Behavior)

The Summer Program is a relatively intensive 4-week program, during which qualified participants receive an interesting and enjoyable introduction to biostatistics, epidemiology and public health research. This program is designed to expose undergraduates to the use of quantitative methods for biological, environmental and medical research.

Henry J. Kaiser Family Foundation

The Kaiser Media Internships in Health Reporting

An internship program for young minority journalists interested in specializing in urban public health reporting.

Hispanic Association of Colleges and Universities (HACU)

Hispanic Association of Colleges and Universities (HACU) National Internship Program (HNIP)

The HACU National Internship Program is open to all students, regardless of their ethnicity, gender, age, faith, etc. To be eligible for HNIP, applicants must (1) have a minimum 3.0 GPA (on a 4.0 scale); (2) be enrolled in a degree-seeking program at an accredited institution. (Students pursuing only a credential or certificate will be considered ineligible.) The only session for which you may apply if you have already graduated is the summer session immediately following your final spring semester; (3) have completed

the freshman year of college before the internship begins; and (4) be authorized or eligible to work in the United States by law.

[Howard Hughes Medical Institute](#) — *Opportunities for Individuals*

[Institute for Diversity in Health Management](#) — *Education Programs*

[Summer Internships in Health Management](#)

The Summer Enrichment Program (SEP) is an enhanced internship program which gives real-world work experience to graduate students in health administration with a 10-12 week, paid internship in a hospital or health care facility.

[George Mason University, Institute for Humane Studies](#) — *Scholarships and Fellowships*

[Internships and Job Opportunities](#)

Participate in an intensive public policy internship at an organization focused on state, federal, or single-issue policies. The journalism program offers paid internships in print, broadcast, new media, and investigative journalism at daily newspapers, major media outlets, and state policy think tanks across the country.

[Institute for Women's Policy Research \(IWPR\)](#)

[Summer Internships](#)

IWPR's internship program is designed to provide participants with challenging work experiences under the guidance and supervision of researchers with extensive knowledge of women's policy issues and social science research.

[International Crane Foundation](#) — *Get Involved*

[Crane Conservation Internships](#)

Internships are usually six months in length and are open on a competitive basis.

[John F. Kennedy Library Foundation](#)

[Student Internships](#)

The John F. Kennedy Library Foundation awards several paid archival internships each year to undergraduate and graduate students majoring in history, government, archival administration, library science, English, journalism, communications and other related disciplines.

[Maryland Sea Grant College](#)

[Research Experiences for Undergraduates \(REU\)](#)

The program is especially designed for students majoring in such fields as biology, chemistry, ecology, environmental science, engineering, physics, marine science and mathematics.

Microsoft — Internships

Technical, MBA, and Business Internships

You don't want to waste your summer making a widget that will never see the light of day. At Microsoft your projects matter and your team will be counting on your skills and insights.

Mote Marine Laboratory

Internship Opportunities for College Students

Mote offers a variety of internship opportunities for undergraduate/graduate students and recent college graduates interested in a career in the ocean sciences.

Research Experiences for Undergraduates (REU)

Feb 15 The awards offer paid research training experiences in estuarine science to undergraduate students during a 10-week summer period.

U.S. National Institutes of Health (NIH), National Cancer Institute — Training Programs in the Biomedical Sciences

Health Communications Internship Program (HCIP)

The HCIP gives highly qualified graduate students and recent graduate degree recipients the opportunity to participate in vital health and science communications projects in one of the many offices that make up the NCI. Interns will select an area of emphasis: health communications or science writing.

National Air and Space Museum — Research

National Air and Space Museum Summer Internship Program

Feb 15 Interns have a firsthand opportunity to learn about the historic artifacts and archival materials housed in the Museum and to study the scientific and technological advances they represent. To be considered for a summer internship, you must be a high school graduate and be enrolled in a degree-granting undergraduate or graduate program at an accredited college or university.

Space Telescope Science Institute (STScI) — Fellowships and Student Programs

Summer Student Program for Undergraduates

Jan 31 Each summer, the STScI brings highly motivated college students to Baltimore, Maryland, for a Space Astronomy Summer Program. STScI is the scientific operations center for the Hubble Space Telescope and the future James Webb Space Telescope. The SAS Program runs from mid-June to mid-August, and is designed for upper division undergraduates with a strong interest in space astronomy.

Student Conservation Association (SCA)

Conservation Internships

Expense-paid internships, living stipend, housing, round trip travel, 18 and older, 3-12 months, all 50 states.

University of Wisconsin, Madison

Integrated Biological Sciences Summer Research Program

Feb 15 [Computational Biology & Biostatistics](#), [Neuroscience](#), Cellular and Molecular Biology, [Plant Biology](#), and [Environmental Biology](#).

Wildlife Conservation Society

International Conservation Programs Internships

All WCS interns and volunteers based in New York City work within one of the four zoos or aquarium. With a strong focus on community education and a broad spectrum of functional areas, WCS is a prime institution for meaningful internships and volunteer experiences.

Woods Hole Oceanographic Institution (WHOI)

Summer Student Fellowship Program

Feb 15 A research project is at the heart of the Summer Student and Minority Fellowship programs. All fellows are expected to work on a project selected in collaboration with their sponsor(s) that will provide meaningful results in one summer's work. Research topics span a broad spectrum of topics throughout WHOI's science departments, and the Woods Hole Field Station of the United States Geological Survey (USGS).

Geophysical Fluid Dynamics Fellowships

Feb 15 Graduate students and researchers from a variety of fields who share a common interest in the nonlinear dynamics of rotating, stratified fluids share an intense ten-week research experience, and vigorous discussions of concepts that span different disciplines.

Woods Hole Diversity Advisory Committee

Summer Science Internships

Feb 18 The Woods Hole Partnership Educational Program (PEP) is designed primarily for college juniors and seniors who want to spend a summer gaining practical experience in marine and environmental science. The program consists of a four-week course and a six-to-ten week research project - all in the sea-side village of Woods Hole.

Princeton University, Woodrow Wilson School of Public And International Affairs

[Public Policy and International Affairs \(PPIA\) Junior Summer Institute \(JSI\)](#)

Nov The PPIA Junior Summer Institute is a seven-week program structured to introduce or strengthen skills
1 in economics, statistics, policy analysis, writing, public speaking and organization/time management.

[CHCI Congressional Internship](#)

Nov Provides college students with a paid Congressional work placement on Capitol Hill for a period of
7 twelve weeks (Spring/Fall) or eight weeks (Summer).

[American College of Healthcare Executives](#)

[Minority Internships in Healthcare and Professional Society Management](#)

The three-month internship program will provide an opportunity for the intern to rotate through all
Dec major ACHE divisions, including Communications and Marketing, Education, Executive Office, Finance
1 and Administration, Health Administration Press, Management Information Systems, Membership,
Regional Services, and Research.

[American Society for Engineering Education — Fellowship Programs](#)

[Naval Research Enterprise Internship Program \(NREIP\)](#)

NREIP provides competitive research internships to undergraduate sophomores, juniors & seniors, and
Dec graduate students. Participating students typically spend ten weeks during the summer doing research
19 at DoN laboratories. To participate, a student must be enrolled at an accredited 4 year US college or
university and have completed their freshman year before beginning the internship.

[Department of Homeland Security — Education Programs](#)

[DHS HS-STEM Summer Internships](#)

The U.S. Department of Homeland Security (DHS) Science and Technology Directorate sponsors a 10-
Dec week summer internship program for students majoring in homeland security related science,
22 technology, engineering and mathematics (HS-STEM) Disciplines. The program provides students with
quality research experiences at federal research facilities located across the country and allows students
the opportunity to establish connections with DHS professionals. It is open to undergraduate and
graduate students in a broad spectrum of HS-STEM Disciplines and DHS mission-relevant Research
Areas.

Biomedical Summer Internships

[Massachusetts Institute of Technology — Undergraduate Outreach](#)

[Biology/BCS Summer Research Program \(MSRP\)](#)

Jan 30 The Department of Biology and the Department of Brain & Cognitive Sciences at MIT offer a joint 10-week research-intensive summer training program in the biological sciences, neurosciences or biomedical-related fields to advanced sophomore and junior science majors from other colleges and universities. Only current undergraduate students studying full time in the U.S. are eligible for this summer program.

[MIT Undergraduate Summer Research Internships](#)

Jan 30 This program seeks to identify talented sophomores, juniors, and non-graduating seniors who might benefit from spending a summer on MIT's campus, working in a research laboratory under the guidance of experienced scientists and engineers who are MIT faculty members, postdoctoral fellows, and advanced graduate students. Students who participate in this program will be better prepared and motivated to pursue advanced degrees, thereby helping to sustain a rich talent pool in critical areas of research and innovation.

[Harvard University, Harvard-MIT Program in Health Sciences and Technology \(HST\) — HST Summer Institute](#)

[HST Summer Institute in Biomedical Informatics](#)

Jan 31 Undergraduate students interested in pursuing a career in bioinformatics are eligible to apply to this nine week program. From a base on the Cambridge, Massachusetts MIT campus, students attend lectures and perform research at HST and Harvard-affiliated institutions. The program combines didactic lectures in informatics and genomics, clinical case studies and a mentored research project to expose students fully to the exciting world of genomic research.

[HST Summer Institute in Biomedical Optics](#)

Jan 16 The HST-Wellman Summer Institute for Biomedical Optics provides undergraduate student participants with research experience in the field of biomedical optics. The program objective is to inspire talented students to pursue advanced research, education, and careers in science and engineering. Research experience in this program is focused on engineering--from discovery of new transformative approaches to development of cutting-edge technologies. Innovation in biomedical optics requires understanding of physical and engineering principles, as well as biological and medical insights, to define important challenges and to understand how new technologies must perform.

[Case Western Reserve University, Department Of Pharmacology — Educational Training Programs](#)

[Summer Undergraduate Research in Pharmacology](#)

Jan 31 The Summer Undergraduate Research Program provides "hands on" research experience for sophomores and juniors in the area of molecular pharmacology. Although the projects will vary, each is related to a common theme - elucidation of the molecular mechanisms underlying the interaction of chemical agents such as drugs, hormones and neurotransmitters with biological systems.

[Amgen-UROP Scholars Program](#)

The Amgen-UROP Scholars Program invites undergraduates to participate in faculty-mentored summer research at MIT in the science and biotechnology areas for sophomore status (with 4 quarters or 3 semesters of college experience), juniors, and non-graduating seniors who plan to continue undergraduate studies. Participants become fully integrated in MIT's summer research community, interacting with faculty mentors and fellow undergraduates while participating in research seminars and other networking events.

Medical University of South Carolina — Summer Research Program

Summer Undergraduate Research Program (SURP)

SURP offers undergraduates with a very strong interest in biosciences and biomedical research the opportunity to work closely with faculty members on cutting edge biomedical research projects. During the 10-week program, participants will be taught important research skills and techniques. In addition, there is a mandatory seminar series component to the program with tracks in Cardiovascular Biology, Cancer Biology, Neuroscience and Oceans and Human Health.

Summer Health Professionals Research Program

The goal of the program is to introduce students in the health professions to biomedical research by allowing them to work during the summer in a research environment under the guidance of an experienced investigator. Students in MUSC's Colleges of Medicine, Nursing, Dental Medicine, Pharmacy, Health Professions and other Medical Schools throughout the United States, who are enrolled in a professional graduate program (e.g., MD, PharmD, DMD) are eligible to apply.

Johns Hopkins Medicine — Diversity Programs

Summer Internship Program (SIP)

The Summer Internship Program (SIP) provides experience in research laboratories to students of diverse backgrounds, including underrepresented minority students, students from economically disadvantaged and underserved backgrounds and students with disabilities that have completed one - two or more years of college. The purpose of this exposure to biomedical and/or public health research is to encourage students to consider careers in science, medicine and public health.

Yale University Graduate School of Arts and Sciences, Office for Diversity and Equal Opportunity

Summer Undergraduate Research Fellowship Program (SURF)

The SURF Program is intended for students with a strong desire to pursue research careers at the Ph.D. level. The program is particularly interested in identifying and providing research experience to talented underrepresented minority students. Preference is given to students completing their sophomore or junior years.

Weill Cornell Graduate School of Medical Sciences (WCGS) — Financial Support

[Access Summer Research Program](#)

Access is a summer internship program that trains underserved college students in the biomedical sciences. Interns gain hands-on experience in a biomedical research laboratory and are encouraged to apply to PhD programs. Selected students are placed in laboratories at the Weill Cornell Medical College under the mentorship of experienced faculty members.

Gerstner Sloan-Kettering Graduate School of Biomedical Sciences

[Summer Undergraduate Research Program \(SURP\)](#)

A ten-week research program for outstanding undergraduate students who are interested in pursuing a career in the biomedical sciences. Participants have the opportunity to perform hands-on research in cutting-edge biomedical research laboratories. Designed for approximately 20 outstanding undergraduate freshmen, sophomores, and juniors.

Hunter College, Center for Translational and Basic Research (CTBR)

[Summer Program for Undergraduate Research \(SPUR\)](#)

SPUR is an 8-week program that gives undergraduates hands-on experience in one of 53 research laboratories at Hunter College, CUNY in NYC. The goal is to train and encourage undergraduate students to pursue graduate study in biomedical research, and in drug abuse/addiction and neuroscience. Students must major in biology, chemistry, biopsychology, biophysics or biotechnology, or another biomedical research area.

Mayo Clinic Graduate School — Research and Training Programs

[Summer Undergraduate Research Fellowships \(SURF\)](#)

A career in biomedical research is not for everyone, but if you love science, always want to know WHY, not just what, enjoy tough problems that just don't seem to want to be solved, want to contribute to new medical breakthroughs, and get a thrill out of discovery, then a career as a Ph.D. or M.D.-Ph.D. scientist might be for you. You won't be certain, though, until you immerse yourself in a research lab, and Mayo Clinic is one of the best places for you to do just that.

Icahn School of Medicine at Mount Sinai — Degrees and Programs

[Summer Undergraduate Research Program](#)

Summer research internships for outstanding undergraduate students who are planning to pursue an MD/PhD or a PhD and who are interested in doing research at a leading biomedical institution. Applications are invited from undergraduate students who are currently in their sophomore, or junior year, have a GPA of 3.5 or higher, and have a minimum of three months of research experience.

Students who have a GPA of less than 3.5 but have extensive research experience are also encouraged to apply.

[Northwestern University, the Graduate School — Diversity](#)

[Summer Research Opportunity Program \(SROP\)](#)

Feb 10 SROP is an eight-week competitive research experience at Northwestern University for sophomores and juniors from colleges and universities across the United States. All fields of research at Northwestern are open to SROP participants including the social sciences and humanities, physical sciences, chemical and biological sciences, technology, math and engineering fields. The program encourages students from underrepresented minority and other disadvantaged groups to apply.

[Stanford University School of Medicine — Students and Trainees](#)

[Stanford Summer Research Program \(SSRP\)/Amgen Scholars](#)

Feb 3 The Stanford Summer Research Program/Amgen Scholars Program is a fully funded, nine-week, residential research program. It offers undergraduates who want to prepare for and enter Ph.D. programs in the sciences a unique opportunity for advanced research experience within a world class university.

[Columbia University, Biological Sciences](#)

[Amgen Scholars Summer Research Program](#)

Feb 3 A summer research program for a select group of motivated undergraduate students who will benefit from the opportunity of hands-on biology related laboratory research. The Amgen Scholars Program is competitive, with awards based on grades, recommendations and career plans. You may apply if you are a US citizen or permanent resident and currently a sophomore, junior, or non-graduating senior at a four-year college or university in the United States, Puerto Rico or other US territory.

[New York University \(NYU\) School of Medicine, Sackler Institute](#)

[Summer Undergraduate Research Program \(SURP\)](#)

Feb 3 SURP is for qualified sophomores and juniors who are interested in pursuing M.D., M.D./Ph.D. or Ph.D. degrees and a career in research. Students may work with faculty in the disciplines of Biochemistry, Biomedical Imaging, Cellular and Molecular Biology, Developmental Genetics, Immunology, Microbiology, Molecular Oncology, Molecular Pharmacology, Neuroscience and Physiology, Parasitology, Structural Biology, Forensic Pathology, Computational Biology and Virology.

[Harvard University, Harvard Stem Cell Institute \(HSCI\) — Research](#)

[HSCI Internship Program \(HIP\)](#)

This is an undergraduate internship program open to rising sophomores, juniors, and seniors who express a strong interest in stem cell biology. Applicants may be from Harvard or any college or university across the United States and internationally. It provides undergraduate students with a focused and challenging summer research experience in a cutting-edge stem cell science laboratory. Interns are exposed to different professional options within the scientific arena through a stem cell seminar series, a career pathways presentation, and a weekly stem cell companion course.

Case Western Reserve University, Center for AIDS Research

Minority HIV Research Training Program (MHRTTP)

The MHRTTP focuses on recruiting and training underrepresented minority research trainees to expand the pool of researchers in the HIV/AIDS field. The program offers research-training opportunities to qualified minority undergraduate students or recent graduates who are members of an underrepresented groups in biomedical and behavioral research careers. Participants in the MHRTTP benefit from early exposure to HIV science, continuous research training and faculty mentoring.

Harvard University — Diversity

Summer Honors Undergraduate Research Program (SHURP)

SHURP is a ten-week summer research program primarily for college students belonging to groups that are under-represented in the sciences. To be eligible for SHURP, applicants must be currently-enrolled undergraduates who will not have completed their BA/BS degree by June 2014, are considering careers in biological or biomedical research sciences, and have already had at least one summer (or equivalent term-time) of experience in a research laboratory.

Penn State College of Medicine — Summer Undergraduate Research

Summer Undergraduate Research Internship Program (SURIP)

SURIP is designed for College students who are interested in pursuing a career in the biological sciences. The typical intern will be between their Sophomore and Junior year or between their Junior and Senior year of undergraduate studies. Students who will have a BA or BS prior to the start of the internship should not apply. SURIP 2014 would be most appropriate for students considering application to PhD programs in the Biomedical Sciences and is not intended for students who will apply to Medical School.

Rutgers Institute for Health, Health Care Policy and Aging Research — Undergraduate Research Training

Project L/EARN

The goal of Project L/EARN is to increase the number of students from underrepresented groups in the fields of health, mental health, and health policy research, thereby expanding the breadth of health research to include a broader range of ethnic, cultural, and socioeconomic issues, concerns and perspectives. For students who have at least one full academic year left to complete their undergraduate degree. Project L/EARN identifies students from economically disadvantaged

backgrounds, first generation college attenders, and those from racial/ethnic minority groups who have an interest in health-related social science fields, and provides them with training, experience and mentoring to make them stronger candidates for admission to graduate programs. Past interns have come from a variety of majors, including psychology, sociology, economics, political science, nursing, public health, pharmacy, biology, statistics, urban studies, and public policy. Project L/EARN is open to students from any U.S. college or university.

Marquette University, Biomedical Sciences

Biomedical Sciences Summer Research Program

Feb 14 A competitive summer program for rising sophomore, junior, and senior undergraduate students with interests in biomedical research. Successful applicants to the program receive a summer research stipend for participation in the 10-week, 40-hr per week program. As part of the program, students conduct biomedical research in the laboratories of participating faculty mentors and present their findings and a symposium upon completion.

Boston University — Undergraduate Research Opportunities

Summer Undergraduate Research Fellowship (SURF) Program

Feb 14 The SURF Program is designed to promote access to graduate education for talented undergraduate students, especially those from minority groups traditionally underrepresented in the sciences: African-American, Hispanic, Native American/Native Alaskan, and Pacific Islander/Native Hawaiian/Polynesian. It is open to non-BU students who are rising juniors or rising seniors, and wish to conduct research in the sciences, technology, or engineering. The program consists of ten weeks of full-time research in a Boston University lab, mentored by a BU faculty member. Most SURF research projects are in areas related to Biology and Neuroscience.

Harvard University, School of Public Health

Summer Program in Quantitative Sciences

Feb 1 The Summer Program is a relatively intensive 4-week program, during which qualified participants receive an interesting and enjoyable introduction to biostatistics, epidemiology, and health and social behavior. This program is designed to expose undergraduates to the use of quantitative methods for biological, environmental, medical and public health research.

Case Western Reserve University — ACES Program

ACES+ Summer Research Program for Science and Engineering (S&E)

Feb 15 This program seeks to attract students to pursue research in science or engineering as a career. It is organized in cooperation with the Support of Undergraduate Research and Creative Endeavors

(SOURCE) and the Summer Program in Undergraduate Research (SPUR) at Case Western Reserve University. Each student will be assigned to a faculty mentor with related research interests.

Medical College of Wisconsin, Medical School — Diversity Programs

Diversity Summer Health-Related Research Education Program (DSHREP)

Feb 10-week summer fellowship open to resident and non-resident undergraduate and graduate students
15 from diverse backgrounds. Sponsored by the National Heart, Lung, Blood Institute (NHLBI). Monthly salary, housing and travel expenses available.

Cincinnati Children's Hospital Medical Center — Research Education and Training

Summer Undergraduate Research Fellowships (SURF)

Feb The SURF Program offers undergraduates the chance to explore clinical and basic science research in
15 laboratories in the Department of Pediatrics, University of Cincinnati College of Medicine. The primary goal is to provide students with a foundation for making career choices in the biomedical sciences.

Kansas State University, Center for Sustainable Energy — Education

REU Summer Academy in Sustainable Bioenergy

Students will be accepted from all science, socioeconomic, agricultural, and engineering majors. Applicants must be American citizens or permanent residents. Preference is given to students who have completed their sophomore or junior year. Outstanding first-year students may be considered. Graduating seniors are not eligible. Research activities in this program under the guidance of faculty mentors, will advance students' state of knowledge in sustainable energy. Students will participate in "hands-on" experiences with processing agricultural biomass, experiencing the physical environment of industrial-scale biomass processing with all its limitations and opportunities. Students will also meet people who actually perform the work to produce renewable energy for the communities where they live.

Feb
15

Case Western Reserve University, School of Medicine

Heart, Lung and Blood (HLB) Summer Research Program

The Heart, Lung and Blood Summer Research Program is designed to engage 12 diverse undergraduates and 8 medical students in state-of-the art biomedical research in cardiovascular, pulmonary, hematological and sleep disorders research. Students who belong to groups underrepresented in biomedical sciences are eligible to apply. In general, this includes students who are African American, Latino, Puerto Rican, Pacific Islanders, students from low-income families, or those with disabilities. Please note that you must be a US citizen or Permanent resident to participate.

Feb
15
Mar
1

SUNY Upstate Medical University, College of Graduate Studies — Programs

Summer Undergraduate Research Fellowship Program

Applicants to the program should be undergraduate students in good academic standing, who will be between their junior and senior years during the summer of 2014, and are majors in chemistry, biology, or a related field. Applicants must have a strong interest in pursuing a Ph.D. degree in biomedical research.

Harvard University, Harvard Medical School and Brigham and Women's Hospital (BWH)

Four Directions Summer Research Program (FDSRP)

FDSRP is a summer research opportunity at Harvard Medical School and Brigham and Women's Hospital (BWH) for undergraduate students with a commitment to the health of Native American communities. Students engage for 8 weeks in basic science or translational research projects under the supervision of Harvard Medical School faculty advisors. At the end of the 8 weeks students share their research findings during a final research presentation day. Students also receive career development training, meet faculty from across the hospital and medical school, and participate in a variety of social networking events.

Georgia Regents University — Graduate Studies

Student Training and Research Program (STAR)

STAR is designed to provide biomedical research experience for undergraduate students with a sincere desire to pursue a graduate education in biomedical sciences. During the course of the nine-week program, STARs actively participate in a biomedical research project under the guidance of an GRU faculty member. STAR participants attend workshops, discussion groups and laboratory demonstrations that expose them to a broad range of biomedical research techniques, approaches and laboratory experiences. It provides excellent preparation and relevant experience for students planning to pursue a PhD or MD/PhD in the biomedical sciences.

National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) — STEP-UP

STEP-UP

The High School STEP-UP provides hands-on summer research experience for high school students interested in exploring research careers in the biomedical, behavioral, clinical and social sciences. The program provides exposure to the core NIDDK mission areas of diabetes, endocrinology and metabolic diseases; digestive diseases and nutrition; kidney, urologic and hematologic diseases.

High School and Undergraduate STEP-UP

Applicants must be 16 years of age or older and either be enrolled in high school or an accredited U.S. college or university, or plan to be enrolled in the fall. The STEP-UP provides hands-on summer research experience for undergraduate students interested in exploring research careers in the biomedical, behavioral, clinical and social sciences. The program provides exposure to the core NIDDK mission areas of diabetes, endocrinology and metabolic diseases; digestive diseases and nutrition; kidney, urologic and hematologic diseases.

Indiana University, Simon Cancer Center — Training Programs

Summer Research Program

The IU Simon Cancer Center Summer Research Program (SRP) aims to increase the number of high school and undergraduate students from underrepresented populations pursuing biomedical and behavioral science careers by providing positive and meaningful firsthand exposure to these fields. SRP participants are full-time high school or undergraduate students from populations underrepresented in biomedical or behavioral sciences. All students from metropolitan Indianapolis, from surrounding county high schools or from colleges and universities who meet the program criteria are encouraged to apply.

Des Moines University — Financial Aid

Health Professions Advanced Summer Scholars

Mar Provides participants with well-rounded perspectives on what it's like to be a medical school student in
1 osteopathic medicine, podiatric medicine and surgery, physical therapy and physician assistant studies.

Loma Linda University — Center for Health Disparities

Undergraduate Training Program (UTP)

Mar The UTP includes scientific mentoring, participation in scientific seminars and lectures, educational
1 enrichment activities, participation in our Health Disparities Research Symposium, and opportunities to attend national meetings to make scientific presentations. Participating students will be compensated competitively on an hourly basis.

The Ohio State University, College of Pharmacy — Research

Summer Undergraduate Research Fellowships in the Pharmaceutical Sciences

Fellowships are available for undergraduate sophomore and junior students who would like to do research work in any of the pharmaceutical sciences during the summer. This fellowship is for those students who would like to know more about the discovery, use, or mechanisms of drugs, who like working in a lab, or who would just like to find out if they like working in the lab. Students conduct research in the areas of Pharmacology, Pharmaceutics, Pharmacy Practice, or Medicinal Chemistry and Pharmacognosy.

Ohio University, Heritage College of Osteopathic Medicine

Summer Scholars

Mar While the program is designed to benefit rising college seniors, college juniors and college graduates
1 may also be considered. Programs is for disadvantaged students (economic or educational). Students will be considered educationally disadvantaged if neither parent has completed a bachelors degree or higher. Applicants also belong to racial or ethnic populations who are underrepresented in the designated health profession discipline relative to the number of individuals who are members of the population involved. This definition would include Black or African American, American Indian or

Alaskan Native, Native Hawaiian or Other Pacific Islander, Hispanic or Latino, and any Asian American other than Chinese, Filipino, Japanese, Korean, Asian Indian or Thai.

National Institutes of Health (NIH) — Training Programs in the Biomedical Sciences

Summer Internship Program (SIP) in Biomedical Research

Mar 1 SIP is for students who are at least sixteen years of age or older at the time they begin the program. To be eligible, candidates must be U.S. citizens or permanent residents. U.S. citizens are eligible to apply if they are enrolled at least half-time in high school or an accredited college or university as undergraduate, graduate, or professional students. Students who have been accepted into an accredited college or university program may also apply.

Summer Medical and Dental Education Program — Sites

Summer Medical and Dental Education Program

Mar 1 The SMDEP program offers students a variety of academic and career experiences that will support their dental and medical school career preparation. All the housing costs and most meals are covered by the program.

Loyola University Health Sciences, Department of Molecular Pharmacology and Experimental Therapeutics

Discover Pharmacology Program

Mar 6 Applications for the fellowship award are open to undergraduate students who intend to pursue a career in research. It seeks motivated students who have finished their sophomore or junior year in college, or those who have recently graduated from college and are exploring research as a career choice. Minority students are especially encouraged to apply.

New York University (NYU), Center for Neural Science

Summer Undergraduate Research Program (SURP)

Apr 15 The Center for Neural Science hosts a summer research experience program for undergraduates with an interest in neuroscience. This program is designed to foster entry into a neuroscience research-centered career. Applicants must be undergraduates completing their sophomore or junior year and with at least one course completed in the field of neuroscience. Priority will be given to students with minority cultural, racial or ethnic background or with demonstrable financial need or of the first generation to attend college.

The University of Texas, MD Anderson Cancer Center — CPRIT Training Program

MD Anderson Cancer Center & University of Puerto Rico Summer Research Program

Jan 16 The Partnership Summer Research Program offers college and medical trainees from the University of Puerto Rico System an opportunity to explore biomedical research as it relates to cancer, to gain firsthand experiences and mentorship in basic, clinical or translational research alongside world-

renowned faculty, as well as to attend targeted institutional lectures and seminars. Trainees actively participate in the technical aspects of their projects, interpret experimental data, as well as present findings. Return visits are offered to trainees demonstrating a sincere interest in biomedical research and outstanding research ability during their visit.

[CPRIT Summer Undergraduate Program](#)

Jan 18 The Cancer Prevention & Research Institute of Texas (CPRIT) Summer Undergraduate Research program is a ten-week research program designed for outstanding undergraduate students who are interested in pursuing a career in cancer research. Students will be given hands-on research training in cutting-edge labs, interact with faculty, postdoctoral fellows and graduate students, attend weekly events, lectures and seminars and the opportunity to present their work at a poster session at the end of the ten-week program.

[MD Anderson Summer Experience](#)

Jan 16 The MD Anderson Summer Experience is offered for high school seniors, college, graduate and medical students who are interested in exploring a career in cancer research. Ten paid weeks of research in a broad range of areas of cancer biology, medicine, and prevention.

[California Institute of Technology — *Student/Faculty Programs*](#)

[WAVE Fellows](#)

Jan 7 WAVE Fellows must be current sophomores, juniors, or non-graduating seniors. Caltech's WAVE Fellows program aims to foster diversity by increasing the participation of underrepresented students in science and engineering Ph.D. programs and making Caltech's programs more visible and accessible to students not traditionally exposed to Caltech. The program is extended, but not limited, to underrepresented minorities, women, first-generation college students, geographically underrepresented students, and educationally and financially disadvantaged students.

[Baylor College of Medicine — *Financial Aid*](#)

[Summer Medical and Research Training Program \(SMART\)](#)

Jan 10 The Summer Medical and Research Training Program is for undergraduate students who are interested in exploring a career in scientific research. We encourage Ph.D.-oriented candidates to apply. Students are recruited for the SMART Program from across the nation. The program offers nine paid weeks of biomedically related research in a broad range of areas.

[Cold Spring Harbor Laboratory — *Education*](#)

[Undergraduate Research Program \(URP\)](#)

Jan 15 URP provides one of the few places where young people are instructed in the techniques of modern biology while becoming integrated members of a vibrant scientific community. Each year, approximately 25 students from around the world are accepted to the fully subsidized, 10-week summer program to

work with senior Laboratory staff members on independent research projects in cancer biology, neuroscience, plant biology, cellular and molecular biology, genetics, and bioinformatics and genomics.

[Howard Hughes Medical Institute \(HHMI\), Janelia Farm Research Campus — Student Programs](#)

[Janelia Undergraduate Summer Scholars](#)

Jan 15 Janelia Undergraduate Scholars are among the very best future scientists, engineers, and mathematicians who are interested in exploring basic neuroscience, imaging technology, and related fields of research at Janelia. Any student who is enrolled in an undergraduate program may apply. Seniors are eligible to apply only if they are not committed to or planning to enroll in a graduate program in the upcoming academic year.

[Fred Hutchinson Cancer Research Center — Education & Training](#)

[Summer Undergraduate Research Program \(SURP\)](#)

Jan 16 SURP is an intensive, nine-week internship designed to provide research experience and mentorship for undergraduate students who are interested in biomedical research. Under the guidance of a faculty mentor, students will complete an independent research project and present their findings at a competitive poster session. Students will be paired with a faculty mentor after selecting one of the following areas of interest. Basic Science: Conducts structural, genetic, molecular, cellular, developmental and evolutionary biology; Human Biology: Interdisciplinary research; conducts lab-based and computational research at the interface of basic, clinical and population sciences; Public Health: Uses large populations as a "laboratory" to look for links between cancer and its possible triggers, from diet and lifestyle to environmental and genetic factors. Conducts statistical, epidemiological and prevention studies around the world; Clinical Research: Works to develop and analyze new treatments for cancers and other Diseases; and Vaccine and Infectious Disease: Integrates computational, laboratory and clinical research method to advance the understanding of microbial pathogenesis and infectious disease processes.

[Summer Undergraduate Research Fellowship \(SURF\)](#)

Jan 9 College sophomores and juniors are eligible to spend 10 weeks during the summer in a Rockefeller University laboratory. SURF students work with leading scientists in a broad range of areas including biochemistry; structural biology and chemistry; molecular, cell and developmental biology; immunology; virology and microbiology; neuroscience; physics; and mathematical biology.

Miscellaneous Scholarships

The Gloria Barron Prize for Young Heroes

Each year, the Barron Prize honors twenty-five outstanding young leaders ages 8 to 18 who have made a significant positive difference to people and our environment. The top ten winners each receive a \$5,000 cash award to support their service work or higher education. The primary goal of the Prize is to shine the spotlight on these amazing young people so that their stories will inspire others. Winners of the Barron Prize receive:

\$5,000 to be applied to their higher education or to their service project; a recognition plaque; a certificate of recognition; a signed copy of *The Hero's Trail*, by Barron Prize founder T.A. Barron; copy of *Dream Big*, our documentary film featuring several Barron Prize winners; a heroes study guide, curriculum, and bibliography; the opportunity to be paired with an adult mentor who is passionate about and working in the winner's area of interest; the opportunity to connect with other Barron Prize winners through the Young Heroes Listserv; numerous media opportunities – print, television, and radio.

Federal Grants, Student Loans, And Other Sources Of Student Aid

- Pell Grant (Eligibility: Financial Need; Maximum amount for 2017-2018 school year: \$5,902/year)
- Federal Supplemental Educational Opportunity Grant (FSEOG) Eligibility: Financial Need; \$100-\$500/year) <http://www2.ed.gov/programs/fseog/index.html>
- Academic Competitiveness Grant (ACG) (Eligibility: Financial Need; Amount varies)
- Teacher Education Assistance for College and Higher Education (TEACH) Grant
The Teacher Education Assistance for College and Higher Education (TEACH) Grant Program provides you with up to \$4,000 a year in grant assistance if you are completing or plan to complete course work needed to begin a career in teaching.

As a condition for receiving a TEACH Grant, you must sign an **Agreement to Serve** promising to teach full-time in a high-need field at a low-income school or educational service agency, or teach at certain low-income schools and within certain high-need fields for at least four complete academic years within eight years after completing (or ceasing enrollment in) the course of study for which you received the grant.

If you do not complete your teaching service obligation, the amounts of the TEACH Grants you received will be converted to a Direct Unsubsidized Loan that you must repay with interest charged from the date of each TEACH Grant disbursement.

- Iraq and Afghanistan Service Grant
If you are not eligible for a Pell Grant but your parent or guardian was a member of the U.S. armed forces and died as a result of service performed in Iraq or Afghanistan after Sept. 11, 2001, you may be eligible for this grant. To receive the grant, you must be under 24 years old or enrolled in college, at least part-time, at the time of your parent's or guardian's death. The amount of the grant will be equal to the maximum Pell Grant for the award year, although the amount will not exceed the cost of attendance for that award year.

Student Loans

- Federal Stafford Loans
Subsidized: The government pays the interest while the student is in school.
Unsubsidized: The student pays the interest while in school.
Limits:

First year in school (\$3,500 subsidized/\$2,000 unsubsidized)
 Second year (\$4,500 subsidized/\$2,000 unsubsidized)
 Third year and following (\$5,500 subsidized/\$2,000 unsubsidized)

- Parent Plus Loans
 Federal loans available to parents of dependent, undergraduate students to fund a child's college education. Eligibility is based on credit history, not financial need, and parents may borrow as much as needed.

Other Sources of Financial Aid

- Tuition Tax Credits—a dollar-for-dollar reduction of federal income taxes to help toward the cost of higher education
- Hope Tax Credits—for first and second year students enrolled at least half-time; up to \$2,500 per student
- Lifetime Learning Tax Credit—equal to 20% of a family's tuition expenses, with a maximum of \$2,000 in tax credits on the first \$10,000 of college tuition expenses for virtually any postsecondary education and training (even less than half-time study)
- Student Loan Interest Deduction—a long-term savings account parents can take out for a child's college education; this money is not taxed

When federal loans are not enough to finance your education, choose a responsible private loan.

The [Smart Option Student Loan](#):

- Defer your payments until after school or pay as much as you want while in school¹
- Get competitive variable interest rates that range from 3.17% APR–9.37% APR¹
- Pay no origination fees
- Prepay your loan at any time with no penalty
- Borrow up to 100% of your school-certified cost of attendance²

Surviving Those Financial Aid Forms

To apply for federal student aid, all post-secondary schools and colleges will require you to fill out the U. S. Department of Education's Free Application for Federal Student Aid (FAFSA). In addition, some institutions will require you to complete the College Scholarship Service's PROFILE form, for which there is a fee. These forms are available through college financial offices or from your high school guidance counselor's office.

To apply for a Stafford Loan, you may need to complete yet another form that you can get from a bank or savings-and-loan institution after the student has been accepted at a school.

Before you do battle with these forms, pay attention to these helpful hints:

1. Apply early. Aid is often distributed on a first-come, first-served basis.
2. Follow directions exactly. If you don't, your form will be returned to you for clarification.
3. You should have on hand tax and financial information for the year preceding the one in which the student will start college. In other words, if the student will be a college freshman next fall, you'll need copies of your family's federal, state and local income tax returns for the current year. That means you should try to do your income taxes earlier than usual—January is best.
4. For income reporting, take the adjusted gross income from your family's federal tax return. The FAFSA will tell you which tax year information to report.
5. Round off numbers to the nearest dollar.
6. Complete the entire financial aid form. Computers will reject incomplete forms, delaying your request for aid.
7. There is no fee for applying for federal aid. Remember to enclose the processing fee if the institution requires one and if you are using the CSS PROFILE form
8. Remember to sign the application! Both student and parent(s) should sign.

Scholarship Scams

It's no wonder that students and parents are so eager to find these sources of funding that they don't have to pay back, but this makes them easy targets for financial aid con artists. Scholarship scams have been around for years. Hundreds of thousands of people are cheated by scholarship scams each year, losing tens of millions of dollars. According to the Federal Trade Commission, if you hear these lines from a scholarship service, you may be getting duped:

"The scholarship is guaranteed or your money back."

No one can guarantee that they'll get you a grant or a scholarship. Refund guarantees often have conditions or strings attached. Get refund policies in writing and read the fine print before you go any further.

"You can't get this information anywhere else."

You can tell from the preceding information that there are thousands of scholarships that you can research through free means. It's highly doubtful that a company would have an exclusive list of scholarships that you can't find through another source.

"I just need your credit card or bank account number to hold this scholarship."

Don't give your credit card or bank account number without getting information in writing first. Be very cautious about any company that would ask for it. It may be the setup for an unauthorized withdrawal from your account.

"We'll do all the work."

Don't be fooled. There's no way around it. You must apply for scholarships or grants yourself.

"The scholarship will cost money."

Don't pay anyone who claims to be "holding" a scholarship or grant for you.

"You've been selected" by a "national foundation" to receive a scholarship or "you're a finalist" in a contest you never entered.

Before you reply to a scholarship offer you didn't initiate, check it out. Make sure the foundation or program is legitimate.

What to Do if You Suspect an Offer Is a Scam

Start with your school counselor. He or she may have information about well-known scams. Also, the following organizations can help you decide if an offer is legitimate. They will tell you whether they have received any complaints about the company, or whether the company is currently under investigation. Look for these organizations online or call for more information.

- Better Business Bureau (BBB) in the city where the scholarship service is located
- Federal Trade Commission 877 FTC-HELP www.ftc.gov/scholarshipscams
- State Bureau of Consumer Protection
- State Attorney General's Office
- National Fraud Information Center (NFIC) www.fraud.org

For more information about scholarship scams, visit www.finaid.org.

For more information about college costs and financial aid, visit the <https://bigfuture.collegeboard.org/pay-for-college/loans>.

Know How To Spot Scholarship Scams

The vast majority of private scholarships offered to high school students are legitimate, but every year, experts say, a few scams sneak into the pack

Tips for spotting scam scholarships are offered on the website of the National Association of Student Financial Aid Administrators (www.finaid.org), operated by Mark Kantrowitz of Carnegie Mellon University.

Here, from Kantrowitz's list, are some likely signals you're looking at a scam:

- **Guaranteed winnings.** No legitimate scholarship will tell you in advance that you have won.
- **Everybody is eligible.** "Scholarship sponsors do not hand out awards to students simply for breathing," says Kantrowitz.
- **No phone number.** Most legitimate scholarship programs will give you a phone number on their forms. If there is no phone number, be wary.
- **Requests for personal information.** If an application asks for your bank account number, credit card number, or Social Security number, run away from it fast.
- **Phone notification.** If you are told by phone you have won a scholarship, and the caller doesn't offer to confirm in writing, be careful. If the caller asks for money, hang up.

Kantrowitz's website also has links to scholarship search services that cost nothing. One of the free search services, www.fastweb.com, is updated with new scholarships, sometimes daily.

Financial Aid Crash Course: The Types of Federal Aid

If you're beginning the task of applying for financial aid, or are still puzzling over your FAFSA form, you may be confused as to what kind of loans and grants are available from Uncle Sam (as in the federal government, not your wacky relative). Consider this quick reference page a crash course in Federal Government Financial Aid 101.

Stafford Loans

Many students receive Stafford loans, which can be from the U.S. Government (called a "Federal Direct Student Loan") or from a private lender (called a "Federal Family Education Loan"). Whether your loan is directly from the government or from a government-backed bank depends on the school you attend. In either case, the eligibility requirements and loan limits are the same: If you're a dependent undergraduate student, you can borrow \$5,500 your freshman year, \$6,500 your sophomore year, and \$7,500 for each remaining (full) year of your program. Graduate students can borrow even more—up to \$20,500 per year.

Additionally, Stafford loans come in two distinct flavors: *Subsidized* or *unsubsidized*. Students with financial need may qualify for subsidized Stafford loans, which do not charge interest while you are in school or during deferment (such as if you later enroll in graduate school). Students who don't qualify for a subsidized Stafford loan can still get the unsubsidized version, but interest will continue to accumulate while they are in school, in their grace period, or in deferment.

Parent Loans for Undergraduate Students (PLUS Loans)

Unlike Stafford loans—in which students themselves assume the loan—PLUS loans allow parents with acceptable credit histories to borrow educational funds on behalf of their children (if their children are enrolled at least half-time). PLUS loans are available both through the U.S. Government and through private lenders, and the eligibility requirements and loan limits are about the same. To be eligible, parents must be U.S. citizens, pass a credit check (although one that is generally much less stringent than required for a home mortgage), and not currently be in default of any of their existing loans. PLUS loans can cover up to the amount of your tuition bill that is left after any other financial aid has been subtracted from your total cost of attendance. (For example, if your college costs total \$10,000 and you receive \$6,000 in financial aid, you could assume a PLUS loan of \$4,000.) PLUS loan payments are sent directly to your college, and unlike other federal loans, your parents must begin paying both the interest and the principal amount of the loan while you're still in school.

Federal Pell Grants

Unlike a loan, Federal Pell Grants do not have to be repaid (woo-hoo!). Students with a very high level of financial need qualify for this type of aid, which is awarded only to undergraduate students. Pell Grant award amounts can vary depending on the availability of funds and also your tuition costs, with a maximum award of \$5,550 per year. To qualify for a Pell Grant, it makes no difference if you're enrolled full-time or half-time...you're still eligible. You can thank Senator Claiborne Pell for this one.

Federal Perkins Loans

Perkins Loans are low-interest loans awarded through your university with government funds. Because funds for this program are partially derived from prior loan repayments, schools with low student default rates usually have the most Perkins loans available. Undergraduate and graduate students with financial need are

eligible for the loans, which award varying amounts to students based on their individual need. Undergraduates can borrow up to \$4,000 per year while graduate students can borrow up to \$6,000. The payments will be made to you directly, or as a credit to your account. The interest rate on Federal Perkins loans is fixed at 5 percent, and interest doesn't accrue while you are in school.

Making the Most Out of Your Database Search

In order to get the best results possible when using online scholarship search databases, you need to follow a systematic strategy. Here are some important techniques to remember when conducting your own Internet database search.

Explore As Many Databases As You Can

Scholarship databases are a lot like Lay's potato chips—betcha can't search just one! Quite simply, there are too many scholarships out there for any one database to be considered comprehensive. Since each database may use different methods for gathering their scholarship information, each database in turn has access to a different portion of the scholarship landscape—a fact you can definitely use to your advantage.

Be Overly Precise

Remember, you are much smarter than the computer database. For this reason, if you indicate on your database questionnaire that you are a skilled trumpet player, your search results may include only those scholarships directly related to the trumpet. This is because database-matching systems are not smart enough to realize that playing the trumpet is a subcategory of both band class and music. To combat this problem, check the band and music boxes in addition to the trumpet box.

Use the Same Questionnaire Several Times

Some databases will not allow you to select as many items as you'd like in a given category (sometimes as few as two or three). To work around this problem, conduct several searches in the same database and vary the information you include each time around. If the database doesn't allow you to vary your personal information, you can even register under a new name with new information.

Ask to Include Every Scholarship

Some databases will ask you if you'd like to eliminate from your search the scholarships whose dates have already passed. Although it may seem more convenient, it is generally not a good idea to do this because application deadlines often change, listings can be outdated, or the database may have the wrong deadline altogether. And even if the deadline has passed, you'll still want to know what future awards you can begin preparing for.

Take Your Time, But Not Too Much Time

Most database questionnaires need to be completed in one sitting. If you allow too much time to pass between entries (such as leaving your computer to answer the phone), you may lose valuable information you've already entered.

Perform Generic Searches In Addition to Specific Ones

While specifying a lot of very specific information can often point you to scholarships designed for a specialized area of interest, doing so can also cause some databases to omit widely accessible scholarship programs—the ones for which the majority of students are eligible to apply. So don't forget to perform fairly generic database searches as well (in which you specify minimal information about yourself).

Maximizing Your Summer For Scholarship Success

The wonderful months of summer can provide a much needed break from the hustle and bustle of the school year, and from your scholarship search. But while you might go to Hawaii or Disneyland, summer is no time for a scholarship vacation! On the contrary, the summer is a terrific time to hone your scholarship appeal without having to worry much about the pressures of deadlines and applications. How do you fine tune your record? By starting with your strengths, of course.

The term "content" refers to the raw ingredients of a scholarship application: all of the activities, awards, achievements, experiences, and credentials that are detailed in the application itself. Content strategies, therefore, encompass the tactical techniques we use to improve our records in key areas, thereby enhancing how our overall scholarship resumes are perceived. And with summer finally here, it's the perfect time to get going on these content strategies right away.

Content Strategy #1: Expand upon your strong points

At first glance, adding content in areas you're already good at may seem counterintuitive. If you already excel at something, why do you need to add to your record in that area? Well, the answer is that we want to take your strongest skills, and transform them into truly standout talents that get you noticed by scholarship judges. In this way, expanding your strong points adds depth to your application self-portrait. (See Chapter 7 of my book, *How To Go To College Almost For Free*, for more on how content strategies mesh with your overall application theme.)

What are some ways to employ this strategy during summer break?

- Use jobs as learning experiences. Try contacting some organizations, professors, or professionals in an area that you're good at or interested in and inquire about any job or internship possibilities. What if they don't have such a program? Well, suggest they create a position just for you. Many such individuals would love to serve as mentors. The best jobs and internships I've ever had were the ones I effectively created for myself.
- Devise your own project. Summer is a great time to pursue an independent project that extends your skills. One science-minded scholarship winner from Alaska I interviewed for my book used the summer to pursue his own science project on the Exxon Valdez oil spill. Another artistic scholarship winner painted murals on old buildings to spruce up the community.
- Leverage your other summer activities. For those students traveling over the summer, turn your trip into scholarship gold. One scholarship winner I interviewed transformed a summer trip to Europe into a scholarship-enhancing endeavor simply by keeping a journal of the trip and turning it into an independent study paper on cultural differences.

In general, the summer is a great time to sharpen your scholarship image; when else will you have three months out of the year to focus entirely on yourself? So get out your pencil and paper, grab a nice spot in the shade, and start thinking about your strong points...and how you can make them even stronger. And hey, don't forget your shades.

Start Your Scholarship Search Today!

It's never too late to start searching for scholarships. It's also never too early! While a surprising number of scholarships are targeted at high school students, there is a sizable array of scholarships that students as young as sixth grade (and sometimes even younger) can apply for today.

Starting early allows students to prepare and better position themselves for scholarship success in later years. For example, if you've been thinking about joining a club or trying a new extracurricular activity, there's no time like the present. And remember, your scholarship search need not stop when you graduate from high school—there are hundreds (if not thousands!) of scholarship programs aimed at students already enrolled in college.

As you build up your list of scholarship opportunities, plan to apply early for as many of these opportunities as possible. Contest judging is far from an exact science, and you can enhance chances to win by submitting numerous applications.

Don't neglect the small, local scholarships either--the money could help cover the cost of textbooks for a term, and it's not unheard of to find local scholarships in which you're the only applicant!

You should also start requesting scholarship applications for programs you hope to apply for in later years. Pay special attention to the kinds of questions that will be asked of you down the road. Bottom line—if you work hard enough and start early enough, nothing can stand in the way of your eventual scholarship success.

If the Coach himself had it to do all over, he would have started applying as early as seventh or eighth grade! Many scholarships for middle-school students are project-oriented, rather than achievement-oriented, meaning that they reward students for things they've made and created, rather than what they've done. A few good examples of these are:

- The Craftsman/NSTA Young Inventors Awards Competition: Students in grades 2-8 submit inventor's logs and pictures of an invention or modification of a tool.
- Toshiba/NSTA Exploravision: Students in grades K-12 submit futuristic ideas for scientific advancement.
- Optimist International Oratorical Contest: Students under age 16 write and memorize speeches on specified topics.

By starting the search for scholarship early on, students can better position themselves for scholarship success, and ultimately afford the college of their choice.

The Art of Scholarship Recycling

In the wonderful world of scholarships, there are two kinds of scholarship seekers. The run-of-the-mill scholarship seeker uses each essay response only one time, and wastes valuable hours coming up with new ones for each scholarship application. These types of seekers don't spend much time thinking ahead about what could be on future applications, and instead spend too much time racking their brains for answers and inspiration just minutes before deadline time. The worst trait of such students is that they never keep any of their application materials.

Then there is another breed of scholarship seeker—someone who is savvy beyond compare: This type of scholarship hopeful knows the value of creating a suite of generic reusable materials that can later save massive amounts of time and energy. The good news is, whether you're already a savvy seeker, or may have already committed one of the ill-advised acts we just mentioned, there is a lot you can do to decrease your workload while increasing your potential for winning college cash.

When applying for large numbers of scholarships, creating a suite of generic reusable materials saves a great deal of time and energy. By having this suite to draw from, you will be able to focus less on just completing application requirements, and more time on customizing and fine-tuning the material you've already prepared.

More than just a reduction in your workload, reusing and rethinking old materials can mean vast improvements as you repeatedly refine and edit the same work. By employing this strategy, you gain the opportunity to fine-tune your materials with every submission. And take it from me—your tenth draft will be far better than your first.

Creating your own scholarship "suite"

To create this suite of generic materials, first seek to develop standard essay responses to perennial scholarship application themes—such old favorites as college plans, career goals, and future contributions to society. Survey the scholarship's landscape and isolate common themes and requirements (whether it is a similar essay question or a comparable extracurricular activity worksheet). Attempt to bridge multiple applications with every sentence you write or form you prepare.

In addition, go back into your archive of old scholarship applications (you'll develop one quickly) and try to recycle essays and other past materials. Don't just recopy such passages verbatim; instead, try to rethink, improve, and hone everything to fit the criteria of each new contest.

Unlocking the Secret World of Online Search Databases

In order to begin successfully using Internet scholarship databases, it is important to know how to maximize their strengths and minimize their weaknesses. Let's start with the basics, shall we?

Scholarship databases are basically collections of college cash awards organized in a way that allows you to easily search and find them. These databases are designed to streamline your search by centralizing information about thousands of scholarships all in one place.

These databases are commonly misused, however, simply because most people don't fully understand how they function. To complicate the issue even further, more and more of these databases have sprung up all over the Internet, each one claiming to have "the most scholarships" or the "highest dollar value of awards." It's no wonder, then, that using these databases can be frustrating, to say the least.

But it doesn't have to be this way. Think of each scholarship database as being divided into two basic parts. One part is the information itself, which includes the name of the scholarship award and hopefully a general description of the judging criteria, a list of contact information, and a summary of who can win the award. The second part is the search mechanism—the system that uses the information you provide to help you find scholarship listings pertinent to your interests. Let's take a look at these search mechanisms in greater depth.

Internet scholarship databases, by and large, use one or two different search mechanisms to find scholarships that fit your interests: *matching systems* and *browsing systems*. A matching system provides you with a questionnaire that asks you to supply information relevant to your scholarship eligibility (like age, gender, and GPA), while a browsing system requires you to sift through categories of scholarships that might interest you.

Each system has obvious advantages and disadvantages. On the plus side, a **matching system** saves you time by showing you only the scholarship listings pertinent to the information you entered. On the other hand, because you only see the scholarship listings the systems says fit your profile, you do not know what scholarships could be missing.

The strength of a **browsing system** is that by sorting through several scholarship categories yourself, you are able to get a good feel for the scholarships in the database. On the flip side, however, browsing systems can suck up a lot of valuable time, energy, and concentration, since it's easy to be overwhelmed and confused by the sheer number of awards.

Using the Summer to Iron Out Scholarship Wrinkles

In Part I of our strategy building series, we examined how you can use the summer months to further develop your strong points. However, while the summer is a perfect opportunity to focus on the positive, it's also a time to begin developing areas that aren't quite so strong. When applying for scholarships, it's important to come across as well-rounded. Although your application spotlight should be shining on your strongest areas, you will also want to include activities, achievements, and other credentials that demonstrate a wide range of exploration.

To implement this strategy, try to participate in activities that fill in any glaring gaps in your record, and that help you become more well-rounded. For example, in my high school record, a high percentage of my most compelling achievements had clearly involved fields related to the arts and humanities. To emphasize that I wasn't just a one-dimensional student, I joined my high school's science club and competed on the Science Olympics and math teams. This participation demonstrated my quantitative skills--a range of abilities that I didn't often have the opportunity to exhibit in other extracurriculars. Not only did this benefit my scholarship applications (and college applications, too), but it also improved my math and science skills on the side. What are some great summer activities to shore up common weak spots?

- **Serve your community.** Many students have told me that they just don't have enough time to do community service work. Well, why not devote some extra summer hours to a worthy cause? Pick a cause you're interested in, and join an existing program or create your own. If you're someone who can't get enough of the summer sun, find a community service endeavor that gets you outdoors.
- **Take a summer course.** School in the summer may sound like a major drag, but taking one course at a local community college isn't a big deal. Pick a subject that you've struggled with in school, and use the summer course as an opportunity to demonstrate your competence.
- **Explore old subjects in new settings.** Sometimes subject areas that seem dull or difficult in the school environment aren't so bad once you get out of the classroom. Look to participate in programs, camps, clubs, activities, workshops, and conferences that enhance your exploration of subjects you've shied away from in the past. In general, look for activities in which you get to explore something you're curious about, try something you're unfamiliar with, and meet new and interesting people.

All of these experiences can also provide you with great raw material for those upcoming scholarship essays. These strategies I've briefly outlined, of course, are not only useful during the summer months, but also during the regular school year. However, if you utilize just a small portion of those lazy, hazy, crazy days of summer to pursuing these worthwhile goals, you'll be way ahead when the back-to-school regimen starts up once again.

Twenty Things You Need to Know About Financing College

It’s important to make an informed decision about an institution of higher education. We recommend using the following three phases together, as a whole, to arrive at the best possible decision.

This information was developed by a College Board work group sponsored by the College Scholarship Service® (CSS®) Council. Comments and questions about these guidelines may be directed to dsexton@collegeboard.org. 200279

Phase 1: Applying to College

Once the student’s academic and social interests and objectives have been matched with appropriate institutions, the student might need to consider financial assistance. College admission and financial aid advisers should be prepared to provide the following information:

1. What are the average costs for tuition and fees, books and supplies, room and board, transportation, and other personal expenses for the first year? What are the ranges of room (single, double) costs, board costs (21 meals?), and special tuition rates (flat rate for 15-18 credits, etc.)? By how much will total costs increase each year? (A three- to five-year printed history of tuition and fee increases as well as room and board increases should be available.)
2. Does financial need have an impact on admission decisions?
3. Does the decision to apply for early admission affect financial aid?

4. Does the institution offer financial aid programs as well as merit or other scholarships that do not include consideration of financial need? How and when should applications for need-based and merit aid be completed?
5. What non-institutional sources of aid and information are available? (Check with the financial aid office regarding fee-based sources.)
6. What application forms are required to complete the financial aid process? What is the priority deadline for applying for financial aid? When will the student be notified about financial aid decisions?

Phase 2: Choosing a College

During this phase, the student chooses the college with the best academic, social, and financial fit. To make this decision, college financial aid offices should supply the following information:

7. How much financial aid will the student receive? Will he or she be billed for his or her share of the costs? Are there any other costs not accounted for in the aid offer that the student should plan for, such as expenses for books, room and board, transportation, or personal needs?
8. If the student and/or the student's family cannot meet the financial responsibilities from current income or assets, what financing options are available to help them pay their share?
9. Will the financial aid office provide each student with an explanation of how his or her expected family contribution, financial need, and award package was determined?
10. If the financial aid award package is insufficient to make it possible for the student to attend this institution, under what conditions, if any, will the aid office reconsider its offer?
11. What are the terms and conditions of the aid programs included in the student's award package (e.g., treatment of outside scholarships, loan repayment policies, renewal criteria, etc.)? Regarding renewal, what are the academic requirements or other conditions for the renewal of financial aid, including scholarships?
12. How will the student's aid package change from year to year? Will loan amounts increase? What impact will cost increases have on the aid package? What will happen if the student's financial situation changes? What will happen if the student's or another family member's enrollment status changes?
13. What amount of student loan debt does your typical student borrower have once he or she finishes college?

Phase 3: Before Leaving Home

By the end of this phase, the student should be clear about his or her financial obligations to the college of his or her choice and how to meet those obligations. The financial aid and/or business office of the student's chosen college should be helpful in answering the following questions:

14. When can the student/family expect to receive bills from the college? How many times a year will they be billed? If the bill is not paid by the deadline, will there be penalties? Does the college accept payment by credit card? Is there an option to pay monthly?

15. Is all financial aid credited to the student's account, or will the student receive checks for some or all of the financial aid awarded? What about student employment earnings? If aid exceeds billed charges, how does the student receive the funds?
16. How much money will the student need during the first week of school for things such as books, a parking permit, etc.? Can the student use financial aid to pay for books and supplies? Can books and supplies be charged to the student's account? What typical out-of-pocket expenses do most students have during the year?
17. Is information provided to students regarding budgeting resources, money management, and credit card usage?
18. Are there banking services with fee-free ATMs and/or check cashing on or near campus? Does the campus have a debit card?
19. Will the college be responsive to midyear changes in family financial situations?
20. Regarding student employment, including federal work-study: How are jobs assigned? How many hours per week will a student be expected to or allowed to work? How often and in what manner will the student receive earnings payments? Will earnings be automatically credited to the student's account?

The Six Most Common Blunders of College Applicants

Advice from Jeremy Spencer, Former Director of Admissions at Alfred University

By [Allen Grove](#)

I met with Jeremy Spencer, former Director of Admissions at Alfred University and asked him what he sees as the most common blunders made by college applicants. Below are six mistakes he encounters frequently.

1. Missing Deadlines

The college admissions process is filled with deadlines, and missing a deadline can mean a rejection letter or lost financial aid. A typical college applicant has dozens of dates to remember:

- Application deadlines which vary from school to school
- Early action and early decision deadlines, if applicable
- Institutional financial aid deadlines
- Federal financial aid deadlines
- State financial aid deadlines
- Scholarship deadlines

Realize that some colleges will accept applications after the deadline if they have not yet filled their new class. However, financial aid may be much harder to obtain late in the application process. (Learn more about [senior year deadlines](#).)

2. Applying for Early Decision When It's Not the Right Choice

Students who apply to a college through Early Decision typically must sign a contract stating that they are applying to just the one college early. Early Decision is a restricted admissions process, so it is not a good choice for students who aren't really sure that the Early Decision school is their first choice. Some students apply through Early Decision because they think it will improve their chance of admission, but in the process they end up restricting their options. Also, if students violate their contract and apply to more than one college through Early Decision, they run the risk of being removed from the applicant pool for misleading the institution. While this is not the policy at Alfred University, some colleges share their Early Decision applicant lists to make sure students haven't applied to multiple schools through Early Decision. (Learn about the difference between [early decision](#) and [early action](#).)

3. Using the Wrong College Name in an Application Essay

Understandably, many college applicants write a single admissions essay and then change the name of the college for different applications. Applicants need to make sure the college name is correct everywhere it appears. The admissions officers will not be impressed if an applicant begins by discussing how much she really wants to go to Alfred University, but the last sentence says, "R.I.T. is the best choice for me." Mail merge and global replace can't be relied on 100% -- applicants need to reread each application carefully, and they should have someone else proofread as well. (Learn more [tips for the application essay](#).)

4. Applying to a College Online Without Telling School Counselors

The Common Application and other online options make it easier than ever to apply to colleges. Many students, however, make the mistake of submitting applications online without notifying their high school guidance counselors. Counselors play an important role in the application process, so leaving them out of the loop can lead to several problems:

- High school transcripts are delayed or never get mailed
- Letters of recommendation from teachers are delayed or never get sent
- The college admissions decision process becomes inefficient and delayed
- Applications end up being incomplete because the counselor can't follow up with the colleges

5. Waiting too Long to Ask for Letters of Recommendation

Applicants who wait until the last minute to ask for letters of recommendation run the risk that the letters will be late, or they will not be thorough and thoughtful. To get good letters of recommendation, applicants should identify teachers early, talk with them, and give them as much information as possible about each program to which they are applying. This allows teachers to craft letters that match an applicant's particular strengths with specific college programs. Letters written at the last minute rarely contain this type of useful specificity. (Learn more about [getting good letters of recommendation](#).)

6. Failing to Limit Parents' Involvement

Students need to self-advocate during the admissions process. The college is admitting the student, not the student's mom or dad. It's the student who needs to build a relationship with the college, not the parents. Helicopter parents--those who constantly hover--end up doing a disservice to their children. Students need to manage their own affairs once they get to college, so the admissions staff wants to see evidence of this self-sufficiency during the application process. While parents should certainly be involved in the college admissions process, the student needs to make the connections with the school and complete the application.

Jeremy Spencer's Bio: Jeremy Spencer served as the Director of Admissions at Alfred University from 2005 to 2010. Prior to AU, Jeremy served as the Director of Admissions at Saint Joseph's College (IN) and various admissions level positions at Lycoming College (PA) and Miami University (OH). At Alfred, Jeremy was responsible for both the undergraduate and graduate admissions process and supervised 14 professional admissions staff. Jeremy earned his BA degree (Biology and Psychology) at Lycoming College and his MS degree (College Student Personnel) at Miami University.

10 College Interview Mistakes

Make Sure the Impression You Make is a Good One

By [Allen Grove](#)

Before you set foot in the interview room, make sure you have answers for these [12 common interview questions](#). Keep in mind that the college interview probably isn't the most important part of your application, but it can help you if you make a good impression. A bad impression can hurt your chances of getting accepted.

During the interview, **DO NOT...**

1. Be Late

Your interviewers are busy people. Alumni interviewers are probably taking time out of their full-time jobs to meet with you, and campus admissions folks often have back-to-back appointments scheduled. Lateness disrupts schedules and shows irresponsibility on your part.

2. Underdress

Business casual is your safest bet, but the main thing is to look neat and put-together. You'll look like you don't care if you show up wearing ripped jeans or saran wrap. These clothing tips for [men](#) and [women](#) can help.

3. Talk Too Little

Your interviewer wants to get to know you. If you answer every question with a "yes," "no," or a grunt, you're not impressing anyone, and you're not demonstrating that you can contribute to the intellectual life of the campus.

4. Make a Prepared Speech

You want to sound like yourself during your interview. If you have prepared answers to questions, you might come off sounding artificial and insincere.

5. Chew Gum

It's distracting and annoying.

6. Bring Your Parents

Your interviewer wants to get to know you, not your parents. Also, it's hard to look like you're mature enough for college if Dad is asking all the questions for you.

7. Show Disinterest

This should be a no-brainer, but you'd be surprised what some students will say. A comment like "you're my back-up school" or "I'm here because my parents told me to apply" is an easy way to lose points during the interview.

8. Fail to Research the College

If you ask questions that could easily be answered by the college's website, you'll send the message that you don't care enough about the school to do a little research. Ask questions that show you know the place: "I'm interested in your Honors Program; could you tell me more about it?"

9. Lie

This should be obvious, but some students do get themselves in trouble by fabricating half truths or exaggerating during the interview.

10. Be Rude

Good manners go a long way. Shake hands. Address your interviewer by name. Say "thank you." Introduce your parents if they are in the waiting area. Say "thank you" again. Send a thank you note.

Application Essays

Tips for Writing Your Way Into Your Top Choice School

By [Allen Grove](#)

Nearly all colleges rate application essays as either important or very important in their admissions process. A poorly executed essay can cause a stellar student to get rejected. On the flip side, exceptional application essays can help students with marginal scores get into the schools of their dreams. The tips below will help you win big with your essay. Also be sure to check out these [tips for the five personal essay options](#) on the Common Application, these [nine tips for improving your essay's style](#), and the [sample essays](#).

Avoid the List

Many college applicants make the mistake of trying to include all of their accomplishments and activities in their application essays. Such essays read like what they are: tedious lists. Other parts of the application provide plenty of space for you to list extracurricular activities, so save your lists for the places where they belong.

The most engaging and compelling essays tell a story and have a clear focus. Through carefully chosen detail, your writing should reveal your passions and expose your personality. A thoughtful and detailed narration of a difficult time in your life tells far more about you than a list of competitions won and honors achieved. Your grades and scores show that you're smart. Use your essay to show that you're thoughtful and mature, that your personality has depth.

A Touch of Humor (but just a touch)

While it's important to be thoughtful and mature, you don't want your college application essay to be too heavy. Try to lighten up the essay with a clever metaphor, a well-placed witticism, or a little self-deprecating humor. But don't overdo it. The essay that is filled with bad puns or off-color jokes will often end up in the rejection pile. Also, humor isn't a substitute for substance. Your primary task is to answer the essay prompt thoughtfully; the smile you bring to your reader's lips is just a bonus (and a tear can sometimes be effective too). Many students have been rejected for failing to take the prompt seriously and writing essays that end up being more foolish than clever.

Tone, Tone, Tone

Not just humor, but the overall tone of your application essay is remarkably important. It's also difficult to get right. When you are asked to write about your accomplishments, those 750 words on how great you are can make you sound like a braggart. Be careful to balance your pride in your achievements with humility and generosity towards others. You also want to avoid sounding like a whiner -- use your essay to show off your skills, not to explain the injustices that lead to your low math score or failure to graduate #1 in your class.

Reveal Your Character

Along with the essay, most colleges rate "character and personal qualities" as extremely important in their admissions decisions. Your character shows up in three places on the application: the interview (if you have

one), your involvement in extracurricular activities, and your essay. Of the three, the essay is the most immediate and illuminating to the admissions folks as they read through thousands of applications. Remember, colleges aren't looking solely for straight "A"s and high SAT scores. They are looking for good citizens for their campus communities.

Mechanics Matter

Grammatical problems, punctuation errors, and spelling mistakes can hurt your chance of being accepted. When excessive, these errors are distracting and make your application essay difficult to understand. Even a few errors, however, can be a strike against you. They show a lack of care and quality control in your written work, and your success in college partly depends upon strong writing skills.

If English isn't your greatest strength, seek help. Ask a favorite teacher to go over the essay with you, or find a friend with strong editorial skills. If you can't find expert help, there are many on-line essay services that can provide a careful critique of your writing.

What Is a Good SAT Score? A Bad SAT Score? An Excellent SAT Score?

Posted by [Dr. Fred Zhang](#) | Jan 30, 2016 11:00:00 AM

[SAT/ACT Score Target](#)

What is a good SAT score? You took [the SAT](#), got your scores back, and now you want to know how you did. Or maybe you just want to know what score to aim for next time. Here we answer that question for you quickly, and then dive in carefully to explain the answer. Importantly, we also give you a step-by-step guide to figuring out what SAT score YOU need, depending on the colleges you want to apply to.

[Gain 160+ Points in a Week:
Read our Free eBook Now!](#)

Note: the Old SAT was scored on the 2400 scale, but the New SAT is scored on the 1600 scale. Because most colleges will [accept scores from both SATs for the Class of 2017](#), we'll cover both tests here.

What's a Good SAT Score, Compared to the Entire Country?

The short answer: for the New SAT (out of 1600), 1000 is considered an [average score](#). Roughly half the students score higher than this threshold and the other half score below it.

For the Old SAT (out of 2400), 1500 is the national average score.

The top 25% of SAT takers score about 1200 or more (or 1800 on the Old SAT); if your New SAT score **is above 1200, then that's quite good**. Whether this is good enough to get into the colleges you care about is what we'll cover next.

The bottom 25% of SAT takers score 840 (or 1260 on the Old SAT); if you're scoring in that range, be careful! It may be hard for you to get into the college you want to attend.

Again, to reiterate:

	New SAT (of 1600)	Old SAT (of 2400)
Excellent (top 25%)	1200	1800
Good (Average)	1000	1500

Poor (lowest 25%) 840

1260

[Here is the precise chart of percentiles](#), provided by the College Board.

The round number 1000 is not a coincidence. The SAT makers actually design the test so the overall average score is 1000, and the average score per section is 500.

Remember, the lowest you can score on the SAT is 400, and the highest you can score is 1600.

But wait - this is just the national average. Is the entire US population the exact right basis for finding what a good SAT score is? What if you're not an average American, but a football star, or an international student? **Don't you want to define what a good SAT score is based on your personal potential?**

If you agree, then you should read our guide to [Defining what a Good SAT Score](#). We cover four different ways of defining what a good SAT score is.

One popular definition of a good SAT score must depend on what college you're aiming for. What you really care about is how good your **SAT score is compared to the average score of students at schools that you're planning to apply to**. If you don't get a score above your target score, you may find it hard to get into the colleges you're looking for.

Keep reading for our step-by-step guide to figuring out what a good SAT score for YOU is, in just 10 minutes.

[Gain 160+ Points in a Week:](#)
[Read our Free eBook Now!](#)

Want to improve your SAT score by 160 points? We've written a guide about the top 5 strategies you must be using to have a shot at improving your score. Download it for free now:

[Get eBook: 5 Tips for 160+ Points](#)

What's a Good SAT Score for YOU Specifically?

By now, you already know that your SAT score is vital for getting into college. This leads most people to this important question: **how high does YOUR SAT score need to be to get into YOUR favorite colleges?**

Having a concrete target SAT score is really important. It gives us a goal to aim for and helps us track our progress during our study time.

Your score target needs to be different from everyone else's, because you have different goals from theirs. You need your own score target to aim for, based on data about colleges.

You are NOT aiming for what your parents think you should get. You are NOT aiming for what your friends think you should get.

There is a mathematical way to determine the target score you should be aiming for.

Step 1: Download This Worksheet

Now do the same for the rest of your schools on the list.

[Gain 160+ Points in a Week:](#)

[Read our Free eBook Now!](#)

Step 4: Calculate the New SAT Score Out of 1600

Because you're taking the new SAT out of 1600, you need to convert the 2400 score to the 1600 scale in the right-most column.

Use our [converter tool](#), which is based on official concordance tables from the College Board.

For U Alabama, this tool gives a new SAT goal score of 1320.

Step 5: Calculate Your Final SAT Target Score

Finally, take the average of all columns - 25th percentile and 75th percentile.

I highly recommend that your **personal target score be the average 75th percentile score** for all your schools that you just calculated. If you achieve this score, **you'll have a very strong shot at getting into all the schools you listed.**

For you, this is what a "good SAT score" is. **This is your special number** - not your friends', and not your parents'. If you get this number, you will almost certainly get into at least one of the colleges on your list.

Finally, you should have a target for what your score for each section should be. My suggestion would be to just divide your target score by 2. If you're applying to engineering schools, try to aim for your Math score to be 50 points higher than the others. If you're applying for a humanities program, your Math score can be a little bit lower than your Reading and Writing score.

Here's an example sheet I filled out:

SAT Score Target Worksheet

School Name	25 th Percentile (of 2400)	75 th Percentile (of 2400)	75 th Percentile (of 1600)
U of Alabama	1490	1870	1250
Georgia Southern	1510	1740	1160
Samford University	1540	1880	1250
UC Santa Barbara	1640	1990	1330
Average	1540	1870	1250

My SAT Score Target

Total Score: 1250

(we recommend you use the average 75th percentile score out of 1600 calculated above)

Math: 630 Reading/Writing: 620

Step 6: Make Your Goal Known

Once you've finished your worksheet, I recommend you do two things:

1. **Share it with your parents.** This will get everyone on the same page on what SAT score you're aiming for and what kinds of colleges you're looking at. Plus, they'll be impressed that you're taking the initiative to set your own goals.
2. **Tape it to your wall.** I want you to think about your score target every time you study. This is your goal, and you're going to meet it.

Don't get stressed out by this score target. **You can reach it.** Every single student I've worked with has met his or her score target if she put in serious effort to study.

What's Next?

If you got a lower score, we have a [low score guide](#) that can help. Alternatively, here's a guide to [scores for the Ivy League](#) schools and other top schools.

[Click here if you're considering whether or not you should retake the SAT.](#)

Disappointed with your scores? Want to improve your SAT score by 160 points? We've written a guide about the top 5 strategies you must be using to have a shot at improving your score. Download it for free now:

Ways to Score Scholarship Money

April 20, 2012

By [Brandon Ballenger](#) - [@btballenger](#)

Read more at <http://www.moneytalksnews.com/2012/04/20/5-ways-to-win-more-scholarship-money/#Uy34x5eTq26ZTItP.99>.

A college degree can open doors, but finding the money to get one can mean knocking on a bunch first.

The average annual cost to attend a four-year public college is \$8,244, says [College Board](#). For out-of-state students, that number more than doubles (\$20,770) – and for private schools, it triples (\$28,500). And that’s just tuition. Those numbers don’t include housing, living expenses, or textbooks.

With student loan debt [topping \\$1 billion](#), the Consumer Financial Protection Bureau says, “Student loans have eclipsed credit cards as the leading source of U.S. household debt outside of mortgages.” But there may be more available scholarship money than debt. [College Board’s scholarship search](#) alone claims to check “scholarships, other financial aid and internships from more than 2,200 programs, totaling nearly \$6 billion.”

While many believe college will pay for itself later through higher salaries, there’s no reason to take on loans (and years of debt) before searching out as much free money as possible. In the video below, [Money Talks News founder Stacy Johnson](#) interviews Harvard grad [Ben Kaplan](#), who won two dozen scholarships worth \$90,000. Find out how he did it, and then read on to learn how you can too....

Read more at <http://www.moneytalksnews.com/2012/04/20/5-ways-to-win-more-scholarship-money/#Uy34x5eTq26ZTItP.99>.

This is the kind of advice I could’ve used heading into college. I had a state scholarship that covered 75 percent of my tuition for four years. But it wasn’t until senior year I realized I could’ve had a full ride and saved myself thousands more. I just assumed I wasn’t eligible, but you know what they say about assumptions. Don’t make the same mistake. Follow these tips...

1. Check non-academic scholarships

As we already mentioned, there are literally billions of dollars in scholarships out there every year. As we covered in [25 Bizarre Scholarships](#), many don’t require great grades, test scores, or any kind of performance at all – there are scholarships based on everything from your [height](#) to a passion for the [science behind wine](#).

Some of them have such weirdly specific criteria that you might win just by being the only person crazy enough to apply. For instance, there’s a scholarship for [Catholics named Zolp](#). (Name changes won’t work.) So don’t sell yourself short when searching.

2. Use scholarship databases

There are many places to hunt for scholarships online. Try some of these:

- [Scholarships.com](#)
- [CollegeBoard.org](#)

- College-Scholarships.com
- College Answer
- QuestBridge
- Scholarship America
- FastWeb.com

Also check with the financial aid department of any school you might apply to. Several, [like Harvard](#), have dedicated Web pages for scholarships available only to their students.

Wherever you look for scholarship money online, remember you shouldn't have to *pay* anything. Don't fall for scholarship application fees, matching services, or other fee-based services. Not all places that charge are rip-offs, but many are, and there's no need to take risks with so many free resources at your fingertips.

3. Check locally and offline

Online searches are a great tool, but your odds of winning nationally competitive scholarships might be lower than less-advertised local ones. Check with local businesses and community-oriented organizations in your area: Rotary clubs, YMCA, Kiwanis, and even churches. High-school and library bulletin boards and well-connected guidance counselors might also be able to clue you in.

4. Reuse your work

Apply for a few scholarships, and you'll start to see a pattern. Many want the same information, and essay scholarships may touch on the same themes (especially "tell us who you are and why you want our money").

While plagiarism is a no-no in college, you can't plagiarize yourself. Save time by keeping documents you can copy and paste from, and use your Web browser's autocomplete feature so you don't have to type in your contact info a billion times. Just make sure to double-check everything.

5. Be persistent

While there's a mind-boggling amount of free money out there, don't expect it to fall into your lap. Do the legwork and keep checking every semester. Some scholarships aren't available to freshmen or undecided majors, and new opportunities pop up all the time.

Fill out the [Free Application for Federal Student Aid](#) at the start of every year so your school knows you're still interested in grants and other financial aid. Do it early in the spring semester – need-based aid such as federal Pell grants is often first-come, first-served.

What To Do If You Can't Get Enough Financial Aid

Consider [starting at a community college](#), which charges significantly less than a four-year university and lets you finish core courses before transferring to the school you really want. Just make sure your credits will carry over – ask the transfer schools for an [articulation agreement](#).

You could also try applying to [some of the cheapest schools](#) in the country, or the tuition-free schools named in [this BusinessWeek article](#). The Consumer Financial Protection Bureau's new [comparison shopping tool](#) might also help.

If you need more money, you'll probably have to turn to student loans. While their interest rates are relatively low compared to most other types ([3.4 percent for subsidized undergraduate loans](#)), it's still easy to rack up a mountain of debt. Check out [Are Student Loans the Next Debt Crisis? 6 Ways to Stay Out of Trouble](#) to learn how to minimize interest and seek loan forgiveness.

Clean Up Your Social Media

<http://www.hercampus.com/high-school/applying-college/how-clean-your-social-media-college-applications>

Measuring a College Grad's Salary Prospects

Jul 6, 2016 [Lynn O'Shaughnessy](#) | Wealth Management Magazine

This is the question that parents are increasingly asking schools as they contemplate bankrolling their children's college years: Will my child get a good-paying job after graduating from your school?

Pose this question to a college admissions representative, and you are likely to hear that nearly all the institution's recent graduates are employed.

But institutional evidence is flimsy at best. Schools typically base their employment statistics on surveys that they send out to new graduates. The percentage of graduates who fill out these surveys, however, is usually low.

And the alumni with jobs are more likely to complete these surveys, while those who moved back in with their parents and have no employment prospects are more likely to ignore them.

These surveys are also not likely to differentiate between those who have jobs that actually require a college degree and those that don't. Nor would it be in a school's interest to make a distinction between students who have a full-time job versus a part-time one.

With this focus on job prospects, there has been a growing interest within the U.S. Department of Education and outside groups to generate and share salary and job statistics for individual schools.

PayScale, the online salary information company, has been sharing salary data linked to individual schools through its annual [PayScale College Salary Report](#). PayScale relies on individuals voluntarily sharing their wages if they want to use its salary comparison site, and the site uses this information when ranking schools by salary potential.

In addition, the federal government started releasing aggregate salary data for graduates at individual schools last year via its [College Scorecard](#) website. On the site, you can discover the median salaries of alumni 10 years after leaving their schools.

On this federal website, for instance, it says graduates at the University of Maryland earned a median salary of \$59,100, while graduates from the University of Virginia earned \$58,600. Grads at Johns Hopkins University earned a median salary of \$69,200.

While the federal government could access actual salary figures for graduates, it has been hamstrung in what it can share. With intense lobbying primarily from private colleges and universities, Congress has repeatedly voted against making salary data available to consumers.

What the Department of Education was able to do on its own, however, was to release salary figures from graduates who either obtained federal grants, which are earmarked chiefly for lower-income students, and/or who borrowed through federal loans. The available data fails to cover the salaries of about half the graduates.

But a California-based nonprofit has recently stepped in to offer greater graduate salary information than any other source.

[Educate to Career](#) provides a more precise picture of the salaries that graduates at a particular school are earning. The site drills down and shares not only the salaries per academic major of last year's graduates, but also by occupations within those majors.

For example, recent economic majors at the University of Chicago made an average salary of \$67,600. Of the jobs surveyed, alumni who became marketing and sales managers (\$87,600) and financial managers (\$84,500)

earned the highest beginning salaries. Their earnings far outpaced the econ grads who became accountants or auditors (\$63,400) and personal financial advisors (\$65,500).

To find the academic major/occupation figures of a school, click on the [Career Counselors](#) link on the home page of Educate to Career, then click on the [College and Major Outcomes](#) link.

Educate to Career also created a [college ranking system](#) that measures the return on investment that attending a particular school provides its graduates. The site compares the cost of the school with the improvement in earnings and employment prospects that its graduates enjoy.

The site, which ranks 1,182 public and private schools, looks at such metrics as the percentage of grads employed in occupations that utilize their field of study, the average salary earned by recent grads and the typical number of years to graduate.

The schools that rose to the top of the ETC rankings include the University of North Carolina, University of California-Irvine, University of Virginia, College of William and Mary, The Citadel, University of Michigan and University of Florida. The private schools near the top include Bob Jones University (12), Berea College (14), St. John's University in Minnesota (18), Brigham Young University (21), College of St. Benedict (24) and St. Vincent College in Pennsylvania (25).

The data powerhouse behind ETC's figures is [Job Search Intelligence](#), which is a leading provider of educational attainment and career outcomes. Among the California firm's clients are more than 5,000 employers and more than half of Fortune 500 companies. The firm uses dozens of data points in generating its salary figures from such sources as the U.S. Census Bureau, Bureau of Labor Statistics and National Center for Education Statistics

Lynn O'Shaughnessy is a nationally recognized higher-ed speaker, journalist and author of The College Solution. She writes about college for CBS MoneyWatch and her own blog, [TheCollegeSolution.com](#).

SAT vs ACT: Which One Should I Take

<https://www.collegeraptor.com/getting-in/articles/act-sat/pros-cons-taking-act-sat/>

More Miscellaneous Scholarships

Howell & Jane Teasley Scholarship

Application deadline: June 30

Type of Award: Scholarship

Award is school specific: No

Dollar amount awarded per individual per year for most recent year: \$1,000.00

Unlimited number of awards available: No

Award must be repaid: No

Award is renewable: No

Award is granted every year: Yes

Number of awards granted per year: 1

Scholarship Requirements:

Applicant must be a U.S. citizen enrolled full-time in a recognized college or university. Selection based upon academic excellence, school/community leadership, extra-curricular involvement/service, and a commitment to impacting the culture through Christian ministry OR public service. Financial need is considered. Minimum 2.75 GPA, 1000 (MAX) word essay, official transcript, two letters of recommendation, and proof of U.S. citizenship required.

Essay: Explain what it means to have a Christian Worldview and why that is important. Also, briefly explain how you intend to use your college education to impact the culture through Christian ministry OR public service.

Submit Documentation by June 30 to Sponsor Organization:

Citizen Impact

Teasley Scholarship Box 2947 Loganville, GA 30052

Phone: (770) 466-8156

Web site: <http://www.CitizenImpactUSA.org>

BluePay STEM Scholarship

<https://www.bluepay.com/company/scholarship/>

Payment processing is already driven and enabled by technology. Successful execution in the future of payments requires educated minds that focus on both business goals and cutting edge innovation. As an industry leader, BluePay is continuing our support of students pursuing degrees in science, technology, engineering and math (STEM) disciplines.

Through the BluePay STEM Scholarship, we will award a winning student \$1,000 to be used toward his or her degree. In addition, we will award \$250 book scholarships to two runners-up. Featured essays may be published in part or in entirety on the BluePay blog, citing the author.

Qualifications

To qualify, undergraduate or graduate students must be majoring in a STEM field of study and attending an accredited college or university.

Attach an essay below answering 1 of these 3 questions in a minimum of 500 and a maximum of 1,000 words:

1. What recent innovation has meant the most to your daily life?
2. What do you imagine or have you experienced to be the single greatest challenge that arises when you start your own business?
3. What do you think is the biggest threat to the security of your personal information?

Applicants will have the opportunity to be featured on the BluePay blog with approval.

Please read [full Program Rules here](#).

Deadline

The deadline to apply for the BluePay STEM Scholarship is August 17. Winners will be announced August 24.

Michael Moody Fitness Scholarship

<http://www.michaelmoodyfitness.com/student-scholarship-chicago/>

The [Michael Moody Fitness Scholarship](#) is a **college scholarship** of \$1,500 awarded to a high school senior, undergraduate, or graduate student who has demonstrated outstanding achievement, participation and leadership in school activities and work experience, and interest in pursuing a career in the health and fitness related fields. The student may apply and use the money for education-related expenses, including tuition, fees, books, supplies, room, and board. The scholarship is sponsored by Michael Moody Fitness.

The 2018 program will be accepting [scholarship applications](#) from August 2nd, 2017 until 1,000 scholarship applications are submitted or **July 15th, 2018**, whichever comes first. Your scholarship application **MUST** be one of the first 1,000 submitted by the deadline date. **The scholarship is still available...We have not received 1,000 applications yet!**

Who is eligible for a Student Scholarship?

Applicants to the [Michael Moody Fitness Scholarship](#) must:

- Be United States citizens or legal residents living or claiming residency in one of the 50 united states, Washington, D.C. or Puerto Rico.
- Be current high school senior, undergraduate, or graduate students who plan to enroll full-time in an accredited two-year or four-year college or university in the United States for the entire 2018-2019 academic year.
- Demonstrate ambition and self-drive as evidenced by outstanding achievement in school, and participation and leadership in school activities and work experience.
- Demonstrate interest in pursuing a career and enrolled in the following majors: Athletic Training, Psychology, Biology, Kinesiology, Nursing, General Medicine, Dentistry, Behavioral Sciences, Personal Training, Physical Education Teaching and Coaching, Health and Physical Fitness, Exercise Science, Sports and Recreation Management, Health Sciences, Physical Therapist, or another related major.

What will be awarded?

The Michael Moody Fitness Scholarship must be used for education-related expenses for undergraduate or

graduate study only. The one (1) recipient receiving the [\\$1,500 scholarship award](#) must use it during the 2018-19 academic year.

How do I apply?

To begin, click on the [Apply for a Scholarship](#) link at the bottom of this page.

Students should gather the following information needed for the application process:

- Details of outstanding achievement in school
- List of involvement in school and community activities
- List of work experience
- Current high school or university cumulative grade point average (GPA) on a 4.0 or 5.0 scale

Only electronic scholarship applications received through the above process will be considered. Paper copies of applications, resumes or other materials will not be accepted.

Privacy policy

Information received is considered confidential and is reviewed only by Michael Moody Fitness. No additional contact will be made unless additional documents are needed and/or the applicant is a finalist. No information is collected from the site visitor.

Are any documents required?

No documents are to be sent to Michael Moody Fitness at this time. Scholarship applicants selected for further consideration will be notified by email to submit high school or university transcripts and an applicant appraisal confirming the academic achievement. Do not send any materials until invited to do so.

When is the program open period?

Only the first 1,000 scholarship applications will be considered. If the program reaches 1,000 [scholarship applications](#) before the deadline date of July 15th, 2018, then the program will automatically close. Your scholarship application MUST be one of the first 1,000 submitted electronically.

How are recipients selected?

Selection of recipients is a two-stage process. The first stage will be the selection of finalists.

Primary consideration will be given to the applicant's non-academic outstanding achievement as described in the [online scholarship application](#) essays when selecting finalists. The achievement may be a long-term achievement, an activity or a project that occurred in their school, in the community or the workplace. Other extracurricular activities in school and community, work experience, and the applicant's academic record over the past four years will be considered when selecting finalists.

Finalists will be notified by email and asked to submit further information including a current transcript of grades and an appraisal from an unrelated adult who is closely involved with your achievement and knowledgeable about your accomplishments. The primary consideration of recipients will be given to the finalist's demonstrated achievement as reported on the application and supported by the appraisal completed

by an adult who is not related to the applicant.

All finalists and recipients are selected by Michael Moody Fitness. All decisions are final and are not subject to appeal. The program is competitive; not all applicants will be selected as finalists; not all finalists will be selected as recipients.

How and when will I be notified?

All applicants will be notified of their status via email in early August 2018. The email address on file must be active and you must check your email regularly. Finalists will receive instructions regarding further documentation required for recipient selection.

How and when are scholarships paid?

Payment is made in one installment in August, 2018.
Revival Fitness LLC issues checks on behalf of Michael Moody Fitness.
Checks are made payable to the school for the recipient's account.

Michael Moody Fitness reserves the right to review the conditions and procedures of this scholarship program and to make changes at any time including termination of the program.

Questions about the [scholarship application process?](#)

Straight North STEM Scholarship

<https://www.straightnorth.com/scholarship/>

With Internet marketing becoming more complex and challenging by the day, successful execution requires a solid education. As an industry leader, Straight North supports students pursuing degrees in science, technology, engineering and math (STEM) disciplines.

Through the Straight North STEM Scholarship, we award the winning student \$1,000 to be used toward his or her degree. In addition, we award \$250 book scholarships to the two runners-up.

Qualifications

To qualify, undergraduate or graduate students must be majoring in a STEM field of study, and attending an accredited college or university.

Deadline

The deadline to apply for the Straight North STEM Scholarship is August 1. Winners will be announced August 15.

Alco Alert Scholarship

<https://alcoalertinterlock.com/scholarship-program/>

Alco Alert Interlock is happy to be supporting ambitious young adults in their path towards obtaining higher education.

We're offering a \$1,000 scholarship to help a college student with his or her educational costs.

The scholarship start date is March 16. The deadline to submit an application is November 1, 11:59 PM PST. A winner will be announced via email by November 15.

Students must meet the following conditions in order to qualify for our scholarship:

- Must be an undergraduate student
- Must be enrolled in a higher education institute in the US
- Must complete our scholarship application and essay (400-600 word limit)

Essay Topic

Please describe your future career/educational goals and explain how the Alco Alert Interlock Scholarship will help you achieve these goals.

To apply for the scholarship, please submit the application form below.

Students Affected by Cancer Scholarship

<https://www.ambientedge.com/2018-students-affected-by-cancer-scholarship/>

Please send your scholarship application by email to: wecare@ambientedge.com

Instructions and requirements are below. Incomplete or incorrect applications cannot be considered. We're happy to answer any questions you have—[just send us a note](#) and we'll typically reply within 48 hours.

Ambient Edge is a top-rated air conditioning, heating & plumbing company serving Las Vegas and surrounding communities in Nevada and Arizona. A large part of our work involves removing contaminants from a home's air or its water supply—including many contaminants that are known to cause cancer. In addition, many of us at Ambient Edge have been affected by cancer personally. We have seen coworkers; family members and treasured friends face this dangerous disease.

That's why we've created the Ambient Edge Scholarship for Students Affected by Cancer. Our goal is simple: we want to help high-achieving students who have dealt with—or are still dealing with—cancer in any form. The scholarship will grant \$1,000 to one talented, hard-working student to help them reach their dreams.

We understand that there are many ways for cancer to affect a life. Our scholarship is open to students who have been diagnosed with cancer themselves, as well as those who have stood by a loved one. Survivors, current cancer patients, and the allies of patients and survivors are welcome to apply. A single case of cancer can impact whole families or friend groups—often for years to come. We want to recognize this breadth of experience in our scholarship.

Our hope is that this scholarship will help a student overcome the unique challenges they've faced, and turn at least some small part of their cancer experience into a source of strength.

Eligibility

- You must be currently enrolled in, or were accepted to, an accredited college/university in the U.S. Undergraduate and graduate students are both welcome, as are incoming first-year students.
- Your GPA is 3.0 or higher.

- You are either a current/former cancer patient, or have stood by a loved one who was diagnosed with cancer.
- You must submit a copy of your transcript, along with your application and essay (see below) by email at wecare@ambientedge.com.

Deadline for Applications: December 31Application Requirements

Please attach all of the following to your application email:

- **Your completed application form:** [Click here to download the scholarship application form.](#)
- **A copy of your current college/university transcript.** Unofficial copies are fine. If you are an incoming first-year student, you may attach a transcript from your high school (or other most recent school) instead.
- **You must attach a 500-1,000 word essay on the following topic:**

How did your experience with cancer change the way you look at your own life or the world around you? Did it affect your goals, or change the way you want to live your life? And how are you living up to that or pursuing those goals today? Tell us how your personal experience has shaped your broader approach to life, the people around you, and/or your career goals.

The winner of the Ambient Edge Scholarship for Students Affected by Cancer will be announced in spring.

Deadline & Instructions

You must submit your full application—with all required attachments—in order to be considered. You must submit the application by email to wecare@ambientedge.com, with your full name included in your email.

Your complete application must be received no later than December 31.

We cannot consider applications that fail to meet these requirements.

Scholarship Terms and Conditions

This scholarship is open only to undergraduate and post-graduate students at accredited colleges and universities in the United States. You must be scheduled to enroll in classes within one academic year of the deadline for the scholarship. Winners will be determined by a committee of our choosing, and the decision of the committee is final. We are not responsible for technical issues that cause an application not to be received by the deadline.

We will notify the winner within 60 days of the scholarship. After notifying the winner, we notify all applicants of their status.

This is an equal opportunity for all eligible applicants. The choice of the winner will be based on the essay and meeting the scholarship requirements. We do not discriminate based on race, religion, gender, sexual preference, age, disability, national origin or any other protected status.

Our Privacy Policy:

We don't sell or share your information. However, we will announce the winner by name. We may also choose to share or publish the winning essay—or an excerpt—online or in other media.

Annual University Scholarship

<https://www.antibodies.com/scholarship>

Our mission at Antibodies.com is to support life science research in any way we can. That is why we decided to help out life scientists who are struggling financially during their studies.

Each year we give away \$2000 to one student in the United States. The scholarship money is transferred to their University's bank account in order to help cover tuition fees.

Application Requirements

The application requirements are as follows:

- Your University must be located in the United States.
- You must be studying for a life sciences degree (i.e. Associate's, Bachelor's, Master's or Doctoral Degree).
- You must submit your application by the 1st August 2018.
- You must answer all the questions in the application form.
- Your University must be a partner in this [campaign](#).

Assessment

We will read all submitted applications and select one applicant to award the scholarship to.

\$1400 Scholarship Program by Autozin

<https://www.autozin.com/scholarship.html>

Scholarship details

- By submitting your essay you agree to abide by all rules that have been established by [Autozin](#).
- All participants must be over the age of 18.
- No plagiarism will be excepted and you will automatically be disqualified.
- Judging panel of Autozin will determine the winner and the decision will be final.
- All received material will be considered a property of Autozin and may be used as a marketing material in the future.

The Bellhops "Moving Forward" Scholarship

<https://www.getbellhops.com/scholarship/>

Bellhops has always been in the business of helping people. In keeping with this, we want to give back to the thousands of college students that make up the vast majority of our workforce. Bellhops is proud to award one (1) \$10,000 scholarship each year to either a current college student or an incoming freshman pursuing higher education. The Bellhops scholarship contest is held annually to help outstanding students to complete their college education.

Eligibility Criteria

Applicants must be either currently enrolled or planning to enroll at an accredited undergraduate college or university in 2018.

Applicants must have a GPA of 3.0 or higher.

Applicants must agree to Bellhops' official scholarship rules and follow all application instructions.

How To Apply

A valid application shall be comprised of the following: (1) a completed application form; (2) an essay; (3) an academic transcript; and (4) your photo.

1. Application Form
[Download the scholarship application form here](#) and complete all fields.
2. Scholarship Contest Essay
Write a 1000-1250 word essay that explains the importance of your major in today's society. Winning submissions will give clear details, demonstrate creativity, appropriately cite sources (if necessary), and express the personal thoughts and opinions of the applicant.
3. Academic Transcript
Submit a copy of your most recent official academic transcript. (Note: If you are a graduating high school senior, please provide a copy of your high school transcript.)

Essay Requirements

Essays should be written in English.

Essays should be between 1000-1250 words in length.

Essays should be submitted as a Microsoft Word document or a PDF.

Essays should include applicant's name, date submitted, major, and undergraduate institution that applicant attends (or is planning to attend).

Essays should contain a clear thesis and supporting arguments.

Essays must be 100% original work.

Deadline

Your completed application, essay, and transcript must be submitted before 11:59pm EST on September 15. Please send all scholarship pieces to scholarship@getbellhops.com.

Applicant must include "Scholarship Application" and their full name in the subject line of the submission email.

The winner will be announced on September 25 and will be notified via email.

Note: For further questions regarding the scholarship, you may contact Bellhops via email at scholarship@getbellhops.com.

Best Foot Forward 2018 Scholarship

<https://www.grantlawoffice.com/scholarship/>

Education is more important than ever in today's fast-paced global economy. Technology connects us to places and people we could never have imagined, and more information is available now than in all of human history. But that doesn't mean you can learn everything you need online. We didn't become lawyers without going to

college first. Now, we want to extend our help to the next generation of future architects, engineers, doctors, lawyers, educators, and more!

Grant Law Office is offering a **\$1,000 national scholarship** to one deserving high school or college student. The deadline to apply is **August 15**; and we will be announcing our winner on **September 18**. We look forward to meeting you in writing, and perhaps in person, if your essay impresses us the most. Please read below for more details, and best of luck!

- **Amount Awarded:** A one-time \$1,000 non-renewable scholarship to be used for post-secondary education purposes.
- **Who Can Apply?**
 - Option 1** - Any U.S. resident high school senior who is on track to graduate, and currently holds a minimum 3.0 GPA, who plans to pursue a post-secondary degree after graduation;
 - Option 2** - Any U.S. resident student currently enrolled in a two-year or four-year post-secondary educational institution.
- **Application Deadline:** August 15
- **Application Process:** All application fields must be filled out in their entirety and the application must be submitted on the Grant Law Office website no later than 11:59 pm on August 15. Any materials received after this time will not be eligible for consideration of this scholarship award. There will be no exception to not submitting the completed application by the due date, so please allow enough time to complete all scholarship fields prior to the submission deadline.
- **Winner will be chosen by:** September 19
The winner's name will be announced on the Grant Law Office website and the firm's social media sites on September 19th, 2018. Once the submission period is over, updates will sporadically be made to the website regarding the review process, so please regularly check our company blog for relevant updates that may impact finalists. Non-winners will not be notified.

CGK Business Sales

<https://cgkbusinesssales.com/scholarship/>

Mergers and Acquisitions Advisors

Unique Ways to Market a Business for Sale \$500 Scholarship Offer

CGK Business Sales remains an industry leader when it comes to closing a deal on a company for sale. The industry average remains at 20 percent, yet CGK sells more than 80 percent of those businesses entrusted to us. We do so using a proprietary sales process, and our experience at higher levels of finance benefits the client in numerous ways. Furthermore, we create more interest in a client's business than our competitors do, but we are always searching for new ways to attract potential sellers. As a result, we are currently offering a \$500 scholarship to the student that comes up with the most unique way to market a business for sale.

Application Deadline: December 15

Winner Announced: December 31

The \$500 scholarship will be offered to the high school junior or senior who comes up with the most unique way to market a business for sale. Current college students looking to continue their education may also apply. The essay needs to focus on bringing attention to a business that is available and ensure it is seen by the largest target audience.

APPLICATION REQUIREMENTS

- Applicants must be planning to pursue a degree in business or marketing at an accredited college or university or currently be enrolled in an accredited program in one of these fields.
- The student must be a junior or senior in high school with a 3.0 GPA or higher.
- The application needs to be completed in full and accompanied by the required essay discussing the abovementioned topic.

APPLICATION PROCESS

- Submit an essay of no more than 1,500 words to scholarship@cgkbusinesssales.com in .doc or .pdf form.
- Creativity is encouraged. However, essays containing profanity or vulgarity will be rejected without consideration.
- The essay must present a unique way to market a business for sale and must be written in English.
- Entries, once submitted, cannot be edited or returned.
- Only one entry per applicant will be considered.

SELECTION PROCESS

- Entries must be received by midnight ET December 15.
- The winner will be announced on or before December 31.
- The winner will be notified by email and has 10 business days to reply. If no reply is received within these ten days, a new winner will be chosen.
- Questions regarding the scholarship, application process, or essay topic should be submitted to scholarship@cgkbusinesssales.com

\$10,000 Discover Student Loans Scholarship Award

<https://scholarship.collegecovered.com/>

\$500 Annual Student Scholarship

<https://www.dontpayfull.com/page/scholarships>

Find.jobs Scholarship

<https://find.jobs/scholarship>

What is the Find.jobs scholarship?

The [Find.jobs](#) scholarship is a yearly scholarship that provides students with a monetary award to pursue career focused activities. These can include but are not limited to using the scholarship award for expenses related to the pursuit of a job, student loans, books, general activities that aid in the attainment of skills needed for employment.

How much is awarded for the Find.jobs scholarship?

The Find.jobs college scholarship award includes: **\$1,500.00, Chromebook, Find.jobs swag!** (submission deadline: August 1)

The Find.jobs high school scholarship award includes: **\$1,000.00, Amazon Kindle, Find.jobs swag!** (submission deadline: August 1st)

Who can apply for the Find.jobs scholarship?

Find.jobs college scholarship application minimum requirements:

In order to be eligible for the Find.jobs college scholarship award students must be either an incoming junior or incoming senior at an accredited university within the United States. Students must be able to provide proof that they are currently enrolled. Submission of your current resume.

Find.jobs high school scholarship application minimum requirements:

In order to be eligible for the Find.jobs high school scholarship award students must be a senior at a high school within the United States. Students must be able to provide proof that they are a high school senior on pace to graduate.

What do I need to do?

Find.jobs is a resource for job seekers. We help millions of job seekers every year find their dream jobs. We are looking for students ready to make their impact on the world. Candidates for the Find.jobs scholarship must provide a short **500 word essay** on what they have done, or are planning to do with their future. Exceptional candidates will submit essays that include their degree if applicable, their desired field, what they are doing to find their dream job and how their work will impact the world for the better.

Who reviews the submissions?

This is our teams favorite part. The Find.jobs leadership team selects the best submissions and reduces the pool down to ten candidates. Five candidates from each scholarship application pool. Five from the Find.jobs college scholarship and five from the high school Find.jobs scholarship. Then we let the world decide. All ten finalists will have their entries publicly displayed on Find.jobs for review and a poll will be posted on our facebook account. Visitors from around the world will have the ability to vote on submissions. The submission with the most votes after two weeks takes home the scholarship. **All finalists will be notified prior to social voting.*

Convince the world that you will make an impact and take home the scholarship.

How do I submit?

Submission is easy. Fill out the following form. Be sure to complete all fields. Candidates applying for the Find.jobs college scholarship must submit their resume. Applications that are not fully complete will not be submitted for review and award.

How will students that secure a Find.jobs scholarship be notified?

All finalists (10) will be notified through email. All Find.jobs scholarship recipients (2) will be notified through phone and email.

Collecting your scholarship:

All Find.jobs scholarship recipients will be sent awards through priority mail at no charge. Upon delivery a signature will be required.

Dental Student Scholarship

<https://friendlydentalgroup.com/scholarship/>

Do you see yourself as a Dentist someday?

Or do you perhaps dream of becoming a Dental Hygienist, Dental Nurse, Dental Assistant, or an Orthodontist?

Then, let Friendly Dental Group assist you in making that dream become a career.

Pursuing a career in the Dental Industry is a **worthwhile cause and it is indeed a noble profession**. Dentists aid to improve a patient's oral care, and to help them live healthier and happier lives. In dentistry, you will appreciate the passion of making a person wear the most perfect smile all the time.

Here at Friendly Dental Group, we pride ourselves with outstanding [Dental Practitioners](#) who cater to the oral care needs of everyone – kids, teens and adults, the young and young at heart, and students and professionals alike. With great pleasure, this scholarship program we are offering will make your aspirations **align with the advocacies of Friendly Dental Group**, albeit to make the lives of patients healthier and happier.

WANT TO TAKE HOME THE SCHOLARSHIP?

HOW TO QUALIFY

If you are at least a high school senior getting ready to graduate, enrolled as an undergraduate or a college graduate, with a minimum Grade Point Average (GPA) of 2.5, then this opportunity might be for you. More so, you **should be considered to be in "good standing" in the current school** or university that you are enrolled in.

If you are aspiring to become a dedicated and skillful dentist, dental hygienist, orthodontist, or looking for a profession in the dental industry, then here is your chance to make that dream come true.

To join, **click APPLY NOW**, fill out the form, and upload an essay of at least 500 words telling us a life experience that led you to take the educational path in the dental industry.

Once your essay is uploaded, make sure that all fields are properly filled, and hit the submit button. Your essay will be evaluated, according to how your experience has influenced your decision to join the dental field and how that decision will give you a promising career in the dental industry.

Entries must be submitted on or before July 31, 2018. The best applicant will be awarded by Friendly Dental Group \$1,000 worth of scholarship for the academic year 2018-2019 on August 15, 2018. This will help fund your journey of becoming successful in the dental industry. What are you waiting for? **APPLY NOW**, and become a lucky scholar of Friendly Dental Group, where dental care and healthier teeth are our passion.

Future Stars Scholarship

<https://foothillsphilharmonic.org/future-stars-scholarship>

For many years, the Foothills Philharmonic has been providing audiences with great music performed by talented local musicians. Community support has been so strong that we are ready to begin a new phase in our history. In the upcoming months, you will see several new projects be added to our already active roster. We are always moving with our mission: Educate, Enrich, Entertain.

In that spirit, We are pleased to announce Foothills Philharmonic's Future Stars Scholarship Competition. This competition is designed to provide a student musician the unique opportunity to perform as a soloist with a symphony orchestra. Both rising high school juniors and seniors are invited to apply: string, woodwind, brass, percussion players, and pianists- are all welcome. Winners of the competition will win a \$1000 scholarship and perform as a featured soloist on our final Masterworks concert in the 2019-2020 season.

For application rules [click here](#).

HealthyLine Scholarship

<https://healthyline.com/healthy-line-scholarship/>

At Healthy Line, we are committed to improving lives not just in health, but in any way that we can. The next step in this mission is what we are calling the Healthy Line Scholarship. Each year we will award three \$1,000 scholarships to three extraordinarily passionate and driven students. We hope to be able to help you afford some of the amenities that required and make your schooling a smoother experience. The scholarship is not limited to any one specific disciplinary study. What matters most to us is how passionate you are about living a healthy lifestyle.

Here is what you need to know to apply for the HealthyLine Scholarship:

- Who can apply – Any undergraduate and graduate students of accredited US university or college.
- How can you apply – submit 1,000 words essay about how to live a healthier life, with detailed steps and your personal experiences.
- How will you get the money – \$1,000 checks will be sent directly to your college.
- Deadline – the deadline for the submission is December 1. Winner will be picked by a commission each year by December 15, and the check will be mailed out by December 20.

If you are interested in this scholarship, please send your 1,000-word essay to scholarship@healthyline.com. In the email include your name, major, school, expected year of graduation, and your contact information.

HostGator's Annual Scholarship

<https://www.hostgator.com/blog/hostgator-2019-technology-scholarship/>

Each school semester, HostGator aims to help college students achieve their goals of graduating and entering the professional world. In fact, HostGator was founded in a college dorm room back in 2002, so we understand the importance and the impact students can make in the world. That's why we're so excited to announce our fall technology scholarship for college students!

Being in the technology sector ourselves, we know firsthand what a massive impact technology has made. Now we want to know your thoughts on how technology will impact the future.

We will be selecting three students to win a \$1,500 scholarship based on their answers to the essay question, **“In what industry or area do you see technology making the largest impact in the next 10 years?”**

These scholarship funds must be used for qualified school expenses such as tuition, fees, books and board for the 2018-2019 academic year.

How to Enter:

Send us your essay to hgscholarship@hostgator.com and make sure it includes:

- Your completed 500 word essay attached as a Google Doc
- Ensure your name is in the title of the Google Doc
- What college or university you’re attending
- Your expected year of graduation
- Your intended major

The deadline for submissions is August 30th and we will be notifying the winners around September 10th

Eligibility:

- You must be enrolled in an associate’s degree, bachelor’s degree or graduate level program at an accredited 2-year college or 4-year anniversary during the 2018-2019 academic year.
- Employees or immediate family members of employees of HostGator or Endurance International Group are ineligible.
- Students of all majors are encouraged to apply!
- View the [HostGator Technology Scholarship Rules](#)

We look forward to reading your entries!

For more information on HostGator web hosting, please visit our home page.

Read about last year’s [scholarship winners here](#).

Digital Rights Agreement: By submitting an entry to this competition, you agree that all essay and content submissions will become the property of HostGator and may be used in marketing materials, reposted or displayed online in whole or partial form without notification.

Insignia SEO Annual College Scholarship

<https://insigniaseo.com/college-scholarship/>

College isn’t cheap and we know that all the expenses tied into it can make things difficult. With an ongoing education there’s the increasing costs of tuition, books, materials, living and a lot more, so we want to help.

Insignia SEO will be offering an annual \$1,000 College Scholarship to college and university students. The money will be dispersed in 2 increments during the fall and winter semesters. We are currently accepting applicants for the Fall 2018 Scholarship.

*Winnings will be paid directly to the University to be used towards graduate or undergraduate tuition and/or on-campus room and board!

How To Apply

Eligible students will write an essay of 500 words or more about a creative piece of work (art, design, ad, content, and more) that has influenced their perspective on life. There should be supporting content that supports the influence that the piece of art, design, etc has had on their life. We're open to creativity and outside the box topics, which is why leave this topic so open-ended.

Requirements

1. Copy of your Current Student ID (The only exception with additional verification is an incoming student.)
2. The essay needs to be in Word or PDF

Who Can Apply?

1. Current, Full-Time Students Enrolled in an Accredited University or College in the United States
2. Incoming Freshmen
3. Undergraduate & Graduate Students
4. No Age Requirement

Scholarship Deadline

August 25: You can submit your essay anytime before that date. The winner will be announced September 1

Other Details

1. The scholarship will be sent to University
2. Can only be used towards Tuition, Books, or On-Campus Room and Board

- Your Name, Email Address and Phone Number
- School Name.
- Area of Study.
- Your current GPA and any [Advanced Placement \(AP\) books](#) scores you have (note AP scores are not required, but considered a bonus)

Cheques can only be made out directly to Universities and Schools, we do not make out funds directly in the student's name. Proof of cost by means of an official document from your school is required to receive the funds.

We run our scholarship program every year.

The Kalu Yala Scholarship

<http://kaluyalascholarship.com/>

The **Kalu Yala scholarship** was created with the future entrepreneurs and business people in mind. We hope that this scholarship helps someone get a little closer to their dream career. Applicants will be required to write a 500-word essay to be considered for this \$1000 scholarship. A committee will select one winner based on their essay at the end of December.

This scholarship is not exclusive for Kalu Yala students or alumni. Anyone can apply for this scholarship and use the funds at any college or university.

Eligibility:

To be eligible for the Kalu Yala Scholarship you have to meet one of the following criteria:

- High school senior that has been accepted into a college or university.
- Current college or university student that is not in their final semester. This includes all education levels (undergraduate, graduate, post-graduate).

Guidelines:

To apply for this scholarship you must write a 500-word essay on the topic: "The Main Benefits of Studying Abroad".

Application Process:

To apply for this scholarship you have to fill out the form below. All fields should be completed. By submitting your application, you are giving Kalu Yala permission to use your essay for marketing and promotional purposes.

Submission Deadline:

December 31

Winner Selection:

The Kalu Yala committee will announce a winner in January 2019 and will contact a winner by the end of January. The winner will have two weeks to respond. If no response is received a runner-up will be selected and contacted.

LedsMaster's Essay Scholarship

<https://www.ledsmaster.com/Scholarship.html>

LedsMaster's Essay scholarship provides opportunity for college students to think of the ways for saving energy. Undergraduate or postgraduate students studying Engineering, Earth & Environment, or Science related discipline are welcome to join. Energy crisis is affecting us now. To promote sustainable development, using LED lights in different sectors help reduce power consumption and carbon dioxide emission. Apart from lighting, there are tons of innovative ways to relieve the burden of using fossil fuels. If you are finding outside scholarship for college and willing to protect our environment, please don't miss our less competitive scholarship!

10 winning students will be sharing **US\$10,000 scholarship** for their efforts. To be eligible to apply, please read carefully the following instructions.

Eligibility

1. Undergraduate and postgraduate students in Science, Engineering, Environment and related discipline.
2. Studying in College, exchange students are welcome.
3. Minimum GPA: 2.7 or B- equivalent
4. Plagiarism is prohibited. The essay must be your own work.

How to Apply

You are required to submit the essay answering one of the following topics:

1. Advantages of using LED lights over metal halide, high pressure sodium, mercury vapor and halogen lamps
2. The Future trend of LED lighting for residential, commercial and industrial use
3. Application of LED flood light (Hints: indoor and outdoor large areas)
4. Solar powered lighting nowadays (Hints: Street lighting and sports lighting)
5. Electric cars are the unprecedented invention in recent years, what other innovative measure can we take to move away from coal and fossil fuel energy?
6. What is light pollution? And how to solve it?

Please submit your essay (minimum words: 500) in doc, docx or pdf format to our mailbox edwinhu@ledsmaster.com, along with your brief personal information:

1. First and Last Name

2. College
3. Faculty and major

Deadline: Sep 1 (Renew every year). The results will be announced on Oct 1

Enquiry: edwinhu@ledsmaster.com (or Phone: 2134389858)

Sleep Health Scholarship

<https://mattresshelp.org/scholarship/>

The details

MattressHelp.org is pleased to announce our annual Sleep Health Scholarship. We created this scholarship to spread awareness about sleep as a public health issue and help students cut down the rising costs of higher education.

Each student who is awarded our scholarship will be given **\$1,000 towards their university or college fees**. The scholarship is **awarded once every academic year** and is open to all students in the United States who meet the eligibility criteria.

Eligibility requirements

- Current high school (or home-schooled) seniors attending school in the United States or Canada OR current college students already studying at an accredited U.S. post-secondary institution
- You must be a U.S. citizen
- Anticipating completion of high-school diploma at time of application or already in possession of high-school diploma/GED
- Planning to or currently pursuing a degree at an accredited U.S. post-secondary institution
- Carrying a minimum 3.00 GPA

***If you cannot find Mattress Help's Sleep Health Scholarship listed on your university or college's financial aid website, please ask the financial aid office to list our scholarship. ***

Deadline

Scholarship applications close on **Sept 25th every year**. The scholarship winner will be notified via email within one month of the annual deadline.

How to apply

Please submit your scholarship application to our [contact AT mattresshelp DOT org](mailto:contact@MattressHelp.org) email address.

To apply, please create a short video (no longer than 5 minutes) that answers the following:

- What factors most negatively and positively affect your sleep?
- Assess the quality of your own sleep health and discuss some ways that you can improve it.
- Make your video creative and impactful both to yourself and others.
- The most creative submission will win the scholarship each year.

Upload your video to YouTube, make sure it is titled “Mattress Help Scholarship Submission – Your Name – Year” and include the link when you submit your application below.

Note: by submitting this form you agree to allow Mattress Help to use your video for promotional purposes (it will be posted to our site and potentially other locations once we announce the winner).

Candidates are encouraged to submit, along with their letter, any documents demonstrating their interest in entrepreneurship.

The deadline for submissions is Monday, August 6, and the award will be announced on Friday, August 17.

Please feel free to direct questions to Kristen.Brown@brownpc.com.

The Nationwide Debt Reduction Services Scholarship

<http://www.ndrsscholarship.com/>

The Nationwide Debt Reduction Services Scholarship was created to help students avoid racking up massive amounts of debt in order to obtain their desired degree. All high school seniors who have been selected to attend a college or university and current college students are encouraged to apply. To enter for a chance to receive this \$1000 scholarship you just have to write a short 500-word essay. Full details can be found below:

Eligibility

You are eligible to apply for this \$1000 scholarship if you meet one of the below requirements.

1. A high school senior that has been accepted into a college or university
2. A current college student that is not in their final year.

Guidelines

To apply for the \$1000 Nationwide Debt Reduction Services Scholarship please write a 500-word essay on the following topic: *“What is one money tip that you learned that you feel will help you become financially stable after graduation”?*

Application Process

Please completely fill out the form below. By submitting your application for this scholarship you are giving

Nationwide Debt Reduction Service permission to use your name and essay for marketing and promotional purposes.

Submission Deadline

January 31

Winner Selection

A winner will be selected by the scholarship committee in February 2019. Once contacted the winner will have two weeks to respond so the scholarship can be awarded to their school's financial aid department.

NORTH AMERICAN SPINE SCHOLARSHIP CHECKLIST

<https://northamericanspine.com/scholarship/>

We want to reward your passion for patient awareness.

About North American Spine

North American Spine partners with physicians to provide a broad range of minimally invasive spine procedures for the relief of chronic pain. With facilities in several states, North American Spine is the leader in minimally invasive back and neck care.

About the Scholarship

We want to ensure medical researchers in training will provide patients with a concierge-style experience. North American Spine believes that by supporting the education of future medical practitioners, we will nourish the education of patients.

If you share our goal of helping patients fully understand the best treatment options available to them, we want you to submit an essay for the chance to win \$2,500.

What is required to apply for the scholarship?

To apply for the prize, an applicant must submit:

- A personal statement of your course of study and intended career (max length 750 words)
- Name of school, area of study, and intended graduation date
- An essay (max 2000 words) or a video (max 2 minutes)

When are applications due?

The essay and application submission deadline for the fall semester is December 1.

Is this scholarship open to all students regardless of major?

This scholarship is open to any currently enrolled student who wishes to pursue a career in medicine.

What is the essay topic?

We believe that simplicity provides medical patients with the highest quality of care possible and increases their satisfaction. The essay or video submitted must address disc-related spine pain and non-pharmaceutical treatment to a non-professional audience of spine pain sufferers. Use clear, concise language to inform your potential patient's decision.

Sample ideas include:

- The causes and progression of a disc-related disease or condition. For example: a bulging disc.
- How to recognize a disc-related condition and what to do about it
- Common co-morbidities of disc-related conditions
- Risks and rewards of surgical spine intervention

What is the amount for winning the scholarship?

The essay prize is \$2,500.00.

Are there limitations as to what the scholarship money can be used for?

The \$2,500.00 prize will be awarded without restrictions.

When will a winner be selected? How will the winner be notified?

The results will be announced within two months of the submission deadline. We will email the selected party.

Where do I direct further questions?

Please direct questions to scholarship@northamericanspine.com.

How do I submit my essay?

Please submit your essay to scholarship@northamericanspine.com.

The Profisee Computer and Management Information Systems (MIS) Scholarship

<https://www.profisee.com/mis-scholarship>

The Profisee Computer and Management Information Systems (MIS) Scholarship was created to help students interested in MIS, computer engineering, or similar reach their goal of attending college or university. Each applicant will be asked to submit a short (min 500 words) essay about why you believe computer engineering or information systems is important to today's business environment.

The award for this scholarship is \$1,000 and all applications must be submitted by November 1. A committee will select a winner by November 30 and the \$1,000 scholarship will be awarded by December 31.

Eligibility

The following are eligible for Profisee Computer and Management Information Systems (MIS) Scholarship:

- High school students who graduate in the current year and have been accepted into a college or university.
- Students currently enrolled in a college or university.
- Students who are seeking or plan to seek a degree in Management Information Systems, Computer Science or related degree.

Guidelines

Profisee wants to hear how you believe computer engineering or information systems powers innovation in today's businesses environment.

Application Process

Please complete each section of the form below. All field are required. By submitting an application, the applicant gives Profisee consent to use their essay, name, and information for marketing and promotional purposes.

Submission Deadline

November 1

Winner Selection

The winner will be selected by November 30, contacted by December 10, and will have two weeks to respond. Award will be honored by December 31. If no response, a new winner will be selected.

KaTom Restaurant Supply Culinary Arts and Hospitality Scholarship

<https://www.katom.com/about/scholarship.html>

KaTom takes pride in equipping the next generation of foodservice professionals with what they need to succeed. We offer a \$1,500 grant to qualified students in accredited culinary and hospitality programs to help pay for the cost of that education. If you are studying in one of those areas, read on to learn more about the KaTom Culinary Arts and Hospitality Scholarship and how to [apply](#).

Who can apply?

Current or future culinary arts and hospitality students are encouraged to apply for the KaTom Culinary Arts and Hospitality Scholarship. These students include:

- Any student currently enrolled in a culinary or hospitality program at an accredited post- secondary educational institution in the United States
- High school seniors planning to pursue a degree in the culinary arts or hospitality field
- Students working toward a GED
- Adult learners enrolling in culinary or hospitality courses

The Essay:

How will you make a difference?

Submit a 500 word essay that tells us why you are passionate about pursuing a career in the culinary arts or hospitality field and how you hope to have a positive impact on your community through it. Don't put too much pressure on yourself; we just want to know about your foodservice dream.

The Application:

The KaTom Culinary Arts and Hospitality Scholarship grants \$1,500 to one student for their fall semester. All applications are due by May 1. The winner of the scholarship will be notified on May 17. The one-time grant will be paid to the recipient's educational institution for use to cover expenses for the 2019-2020 academic

year. To be considered, please complete the form below, including the submission of your essay in a PDF or Word document.

STEM Scholarship

<https://revpart.com/scholarship/>

1-\$1,000 Scholarship/2-\$250 Scholarships

RevPart is proud to support the next generation of science, technology, engineering, and math (STEM) students by providing a scholarship of \$1,000 to a student demonstrating excellent promise in their area of study. As an innovator in the tech industry, we understand the importance of the STEM fields and wish to advocate for the industry's future leaders by assisting their efforts towards a degree.

Any student majoring in a STEM field that is attending an accredited college may apply. The 2018-Spring scholarship winner will be awarded to an undergraduate or graduate student to be used towards their degree. RevPart will also be offering a book scholarship for the first and second runner-up.

Application Requirements

Candidates must attend an accredited college and must be pursuing a career in one of the following, Science, Technology, Engineering or Math to qualify for the 2018 Spring RevPart scholarship.

General Information

The deadline to apply for the 2018 Spring STEM scholarship is December 31st, 2017 and the winners will be announced by January 12th, 2018.

SeniorAdvice.com Senior Caregiver Scholarship

<https://www.senioradvice.com/senior-caregiver-scholarship-fall-2018>

We are offering a \$2,000 scholarship to an eligible student who has been a caregiver for a senior friend or relative. One student, who will be attending college or university in the Fall of 2018, will receive \$2,000 for tuition and/or books.

APPLICATION:

Email your completed questions and 2 required attachments (copy of transcript and video file) to scholarship@senioradvice.com.

The following information should be provided in the email:

- Full name
- Mailing address and street address, if different
- Phone number
- Email address
- Area of study

- Name and mailing address of the university or college accepted into for the Fall of 2018
- Anticipated date of university or college graduation
- Your current GPA (high school or university/college)
- Do you agree that your application materials may be used by SeniorAdvice.com via social media, on the World Wide Web, and other media to raise awareness about senior caregiving? Yes or no
- Scan and attach copy of current (high school or university/college) transcript
- Video file (.mov, .mp4, .avi, or .mpeg)(3 minutes maximum)

In video format, please provide answers to the five questions below:

1. Please share your caregiving story with us. Who are you/have you been caring for and how do you help/have you helped care for this person?
2. What have you learned from your experience as a caregiver? How has this experience affected you?
3. What is a valuable piece of advice you've received from your aging friend or family member? What is a valuable piece of advice that you've given to them?
4. What will you be studying in school in the Fall of 2018 and how has your role as a caregiver influenced your chosen career path?
5. Why should you receive this scholarship and how will it help you?

ELIGIBILITY:

- Students must be attending a two or four year university or college in the Fall of 2018. They must have been involved in caregiving for a family member or friend.
- SeniorAdvice.com employees and their family members are not eligible to apply for this scholarship.
- Submission of application is regarded as acknowledgement and adherence to the following agreement guidelines below.
- Application must be submitted by July 15, 2018. Scholarship winners will be notified by August 1, 2018.

AGREEMENT:

- Applicant agrees that the information in application is truthful and applicant is fully eligible to participate.
- Applicant acknowledges that if he/she receives the scholarship, funds will be delivered directly to him/her for tuition and/or books.
- Applicant acknowledges that submission of more than one application per year by the same individual will result in disqualification.
- Applicant verifies that everything required is included in submission. Incomplete applications will be disqualified.

- If stated, applicant agrees that SeniorAdvice.com may use their application materials via social media, on the World Wide Web, and other media to raise awareness about elderly caregiving. Applicant agrees that his/her entry is regarded as permission to use their content in its entirety or edited as needed.
- Applicant acknowledges that all scholarship entries to SeniorAdvice.com are the property of SeniorAdvice.com and will not be returned.
- Applicant understands that SeniorAdvice.com may choose to not award or to withdraw the scholarship for any reason.

AWARD:

- Judging will be based on the following criteria, that include, but are not limited to:
 - Quality of submission content.
 - Impact the scholarship will make on the life of the student.
 - Whether the applicant has addressed the application questions and satisfied the application guidelines.
- Scholarship winners will be notified by August 1, 2018.
- The winner of the SeniorAdvice.com Caregiver Scholarship will receive \$2,000 for tuition and/or books paid directly to the recipient.

SeniorHomes Caregiver Scholarship

<https://www.seniorhomes.com/p/assisted-living>

There are 47.8 million seniors in the United States and we're dedicated to helping each and every one of them find the best possible care. To that end, we are offering two \$1,000 scholarships for students who are passionate about using their studies to help seniors live healthy lives.

To apply, students who are actively enrolled in a U.S. college or university may submit a 500-word essay or a 2-3 minute video that addresses the following topic:

Nearly 90% of adults 65 and older say they prefer to grow old in their own homes or communities. What upcoming trends or services will become increasingly important for seniors who want to age in place? How will your degree help seniors age with dignity?

Your application should be submitted to us by July 31. Winners will be announced by August 31.

Award Details

Two students who are in good academic standing and attending a U.S. college or university will each receive a \$1,000 scholarship from SeniorHomes.com for use in paying tuition and/or books.

How To Apply

- Read our [Scholarship Agreement](#).

- Complete and submit the [Application Form](#) by 11:59 p.m. PST on July 31.
- Judging will be based on the following criteria, that include, but are not limited to:
 - Submission quality (inspiring, extraordinary, or otherwise compelling)
 - Whether the applicant has addressed the application questions and satisfied the application guidelines
- Announcement of the winners will be made by August 31.

[CLICK HERE TO APPLY](#)

Eligibility for Application

1. Students attending a U.S. university or college in upcoming fall semester. This includes high school seniors who plan to attend college immediately after high school.
2. Students must agree to the [Scholarship Agreement](#) and follow all application instructions.

Past Winners

- [Andrea Vuono](#) from Northwestern University (2017)
- [Monica Schnapp](#) from University of San Diego (2017)
- [Kathryn Eckhardt](#) from Arizona State University (2016)
- [Arianna Beverly](#) from Arizona State University (2016)

SMITH PUBLICITY'S \$1,000 BOOK MARKETING SCHOLARSHIP

<https://www.smithpublicity.com/smith-publicitys-2nd-1000-book-marketing-scholarship/>

One of the leading book marketing and book publicity firms in the publishing industry, Smith Publicity, is offering a one-time, \$1,000 scholarship to one high school or college/university student in the United States. The scholarship will be awarded to the student who submits the best essay on persuasive writing. We chose this topic because it's an important part of the services we provide for [book](#) marketing.

Previous winner, Kelci Weidenaar said, "I truly love writing and it meant a lot to me to win this scholarship from an organization like Smith Publicity! It's opportunities like this that are helping my educational dreams come true!" Kelci attends Central Christian College of the Bible in Moberly, MO.

Details on the essay:

- 1,500 word limit
- Points which must be addressed in the essay:
 - The most essential elements of persuasive writing
 - At least one personal example of how the student persuaded someone through writing
 - Comparative analysis of the art of persuasion through written language versus verbally

Details:

- Essay must be submitted with cover sheet including student's address and phone number
- Essays will be evaluated, and the winner chosen, by Smith Publicity senior staff members
- Deadline for submissions: December 10, 2018
- Winner will be announced January 7, 2019
- \$1,000 payment will be made, on student's behalf, directly to the college or university student will be/are attending
- This is a one-time scholarship award

South Carolina Tour Guide Scholarship

<https://www.thezebra.com/south-carolina-car-insurance/#scholarship>

At The Zebra, we know better than most just what a pain buying car insurance can be. We also know that students suffer from higher-than-average policy rates. Talk about a double-whammy. That's why, this year, we've decided to continue The Zebra's annual scholarship with the goal of helping to alleviate the financial pressures of college-bound students in the South Carolina area, while also getting an insider view of the Palmetto State.

Prompt

So, South Carolina students, we want to see your favorite road trip destination(s) in your state— from your unique perspective. If it makes sense to hit the open road and be our virtual tour guide, that's great! But there are no limits to what we're looking for: a narrated animation, a slideshow of memorabilia, an illustrated map of the best roadside attractions on the way. This is a chance for you to showcase any place you love in as an original way as possible.

Please Note:

- The length of the road trip to your feature destination is inconsequential. So if you have an awesome spot in mind that's just two miles from home, we want to see it.

Qualifications:

Applicants must be currently enrolled at or planning to attend a four-year university, graduate program,

community college, or trade school located in the continental United States. Upon notification, winner(s) must supply a current proof of enrollment or letter of acceptance.

How to Apply:

- Entrants should create an original video not exceeding 2 minutes. Each video submission must be hosted on YouTube or Vimeo, and should be submitted by email to scholarships@thezebra.com.
- With your submission, please include your name, address, and phone number.

Details

- Selected winner(s) will be awarded a check for \$1,000.
- Applications must be received no later than 11:59 p.m. CST on December 31st, 2018.
- Winner(s) will be selected and notified by e-mail by January 31st, 2019.
- Submissions will be judged by The Zebra and the winner will be selected based on creativity in the content and presentation.
- Upon notification, winner(s) must also supply a current proof of enrollment at a four-year university, graduate program, community college, or trade school located in the continental United States.

Fine Print

- By participating, entrants represent that the video submitted is their sole and original work and does not infringe the intellectual property rights of any other party. In other words, no copyrighted music or images may be used.
- Employees of The Zebra and their immediate family members are not eligible to participate in the contest.
- Written credits for any technical or talent positions (e.g., editor, director, actors) should be included with your submission, along with any sources used to create the video.

STEM Scholarship

<https://www.microfluidicscorp.com/scholarship/>

As leaders in material processing, we set the standard for nanoemulsion and nanoparticle applications. Our technology enables some of the world's top companies to create superior products and develop intellectual property. Microfluidics supports students pursuing degrees in science, technology, engineering and math (STEM) disciplines to successfully complete their education.

Through Microfluidics STEM Scholarship, we will award the winning student \$1,000 to be used toward his or her degree.

Qualifications

To qualify, undergraduate or graduate students must be majoring in a STEM field of study, and attending an accredited college or university in the United States in the fall of 2018.

Deadline

The deadline to apply for the Microfluidics scholarship is August 1, 2018. A winner will be announced August 15, 2018.

Award

The award recipient will be notified of the selection on or around August 15, 2018. The scholarship award is to be used exclusively for school tuition and related expenses. A check for \$1,000 will be made payable to the award recipient's college, university or technical school. The recipient is expected to submit receipts in accordance with IRS regulations.

To apply, see website above.

The ATE Ballistic Helmet Scholarship Funds

<https://www.hardheadveterans.com/pages/ate-ballistic-helmet-scholarships>

We are pleased to offer two scholarships to those looking to start or further their education in the university setting and also for current officers in a training setting!

We want to help protect this knowledge, and if you complete your schooling or training successfully, HHV will provide a ballistic helmet free of cost.

College Fund (\$1,000 + [ATE Ballistic Helmet](#))

Is for those who plan on seeking a degree in Law Enforcement

To Qualify

- Must be pursuing careers in the fields of law enforcement full time
- Be accepted for full-time enrollment at an accredited two-year American university, and seek to become a police officer.
- Students should include an official high school transcript signed by their guidance counselor
- 1000-word essay outlining why they want to pursue a [career in law enforcement](#).
- Two letters of recommendation
- See website above to Complete Application

The Corban OneSource Scholarship

<https://corbanone.com/scholarship/>

About Corban OneSource

Corban OneSource is one of the oldest, privately owned mid-market Human Resource Outsourcing companies in the United States. We have developed our successful and time tested best practices over decades and leverage them to benefit our clients in every way possible.

About Our Scholarship

As a team at Corban OneSource, we strive everyday to remember our core values – giving, respectful, accountable, client focused, and encouraging. With these values in mind, we have established an annual scholarship to award a deserving undergraduate student with \$1000 for their education.

Scholarship Amount

\$1000

Eligibility

To apply, you must be

- a high school senior that has been accepted to an accredited university or
- a current undergraduate student enrolled in an accredited university.

Application Requirements

- Please write a 1500-2000 word essay about your own personal values. How were these values instilled in you? How do you live out these values daily? Why do you think that these values are important?
- Proof of enrollment in an accredited college or university. We will accept a transcript, tuition bill, or acceptance letter.
- Please be advised in the privacy policy below that your submission can be shared publicly.

Submitting Your Application

Please complete the following form to submit your application – [The Corban OneSource Scholarship Application](#):

To complete the application, you must include:

- Full name
- Address
- Email Address
- Phone Number
- Attached proof of enrollment in an accredited college or university. We will accept an acceptance letter, recent transcript, or most recent tuition billing statement as proof of enrollment. By applying for this scholarship, you give us express consent to confirm your admission and attendance by contacting the college or university.
- Your essay as an attachment. We will accept .doc and .pdf files only.

Deadline

The deadline to apply for the scholarship is July 15. A winner will be announced on August 1.

Additional Scholarship Details

- Any questions about the scholarship can be directed to: [Contact Us](#)

- Winning candidate will be selected by a team of judges from Corban OneSource based on successful completion of all requirements and essay content.
- The scholarship funds provided by Corban OneSource can be sent via check to the University. Funds are to be applied to qualified college expenses (including tuition, fees, books, and on-campus room and board) for the current academic year.
- This scholarship is available on a yearly basis.

Privacy Policy and User Communications

Privacy Policy: By submitting an application, the applicant automatically grants Corban OneSource permission to post the applicant's name, college, photo (if submitted), and essay on CorbanOne.com or in other marketing communications, even if the candidate does not win the scholarship. We are also granted permission to call and/or send you information regarding your application.

User Communications: When you send email communications to Corban OneSource, and/or its representatives may retain those communications in order to process or respond to your inquiries or application as related to the scholarship. Corban OneSource and its representatives will not knowingly sell, share, rent or otherwise transfer your information other than in accordance with the terms set forth in this Privacy Policy. By participating in this scholarship, you give us your express consent to confirm your admission and attendance at the college or university by contacting the institution for verification.

Terms & Conditions

All submitted photos, videos, and essays must be original work of the applicant. Only one submission may be entered per student, per year. Duplicate entries will be disqualified. All scholarships are non-renewable. By submitting an application to the Corban OneSource Scholarship, you certify that all the information you have provided is accurate and complete.

The applicant automatically grants Corban OneSource, its agents and/or representatives permission to:

- Use their name, photo, essay response, and award amount, if any, in announcements or articles (i.e. social media, newsletter, etc) issued by Corban OneSource.
- Post the applicant's name, college or university, video, and essay on CorbanOne.com web site.
- Call and/or send information to the applicant regarding their application.
- Winners will be notified via email, and announced publicly, as well as on Corban OneSource's social media pages.

Students must show proof of current enrollment to an accredited US college, university or vocational/trade school within 21 calendar days by submitting either a copy of the tuition bill or a letter of proof from the school. In the event a winner cannot prove their enrollment to an accredited college, university or vocational/trade school, Corban OneSource will revoke the award for that individual and award it to the first runner-up.

Family Assets Scholarship

<https://www.familyassets.com/scholarship>

About Family Assets

FamilyAssets supports families navigating long-term care issues and educates them on their options for selecting and paying for care. Our purpose is to help families make better care decisions by providing them with digestible free information about complex topics.

About Our Scholarship

Because we value supporting families and helping those in need of affordable senior care, we are thrilled to offer one \$3000 scholarship to a deserving student that has shown their own passion for providing care for an elderly person in need. The student should also have ideas on how long-term care can be adapted to better suit the needs of seniors.

Who Can Apply?

- You must be either volunteering providing services to seniors or helping take care of an elderly relative at home.
- You must be enrolled in an accredited university in the United States.

Deadline For Applications: August 1**Application Requirements**

Please write a 1,500 word essay that addresses the following questions:

- What is the most important lesson you have learned from providing elderly care?
- How has working with seniors changed your outlook on life?
- In your opinion, what can society do to improve the quality of life for seniors receiving care?

Please provide proof of enrollment in an accredited college or university. This can be a recent transcript, acceptance letter, or tuition bill.

How to Apply

Please complete this application before August 1: [The FamilyAssets 2018 Scholarship](#) To complete the application, you will need to submit the following information:

- Full name
- Email address
- Phone number
- College or university name
- College or university mailing address
- Attached proof of enrollment in an accredited college or university - current transcript, acceptance letter, or tuition bill will be accepted.
- Attached essay detailing your experience caring for seniors. We will accept .doc and .pdf files only.

Additional Scholarship Details:

- The winner will be announced on August 15

- The winner will be selected by a member of the team at FamilyAssets
- A check will be mailed to the winning candidate's college or university to be used towards tuition, room and board, or books
- Applicants can contact advisors@familyassets.com.
- This scholarship is available on a yearly basis and is non-renewable.
- You will not infringe copyright or plagiarize any content in your essay

The Gorilla 76 Women in Marketing Scholarship

<https://www.gorilla76.com/the-gorilla-76-women-in-marketing-scholarship/>

Deadline: Monday, August 6th by noon CST

Award amount: \$750 for the Fall 2018 semester

There's a disparity in gender representation in the digital marketing industry and we want to do something about it. That's why we've created The Gorilla 76 Women in Marketing Scholarship.

We're looking for a sophomore or upperclassman who is both inspired and inspiring and will use her knowledge and passion to succeed in our field of results-driven marketing.

To Apply

Send application to scholarship@gorilla76.com

In the body of the email please include: name, phone number, college/university, major, and anticipated graduation date.

Application materials

- Résumé with college GPA
- Essay responses in 12 pt. Times New Roman, double-spaced

Essays

1) At Gorilla 76, we want to become the best industrial B2B marketing agency in the nation. To accomplish this, each member of our team strives to do their best and takes charge when needed. But that equality isn't represented across the board in the marketing industry. In fact, research indicates that women are less likely than men to hold higher-ranking, decision-making positions in the online marketing industry. Who or what has inspired you to want to become a leader in the marketing field? (Minimum of 300 words)

2) Professional development matters in our field. A lot, in fact. We learn from each other, marketing publications, and working with our clients to find new ways to approach things. What does professional development mean to you and how do you make yourself better? (Maximum of 500 words)

The House Method Commitment to Our Homes Scholarship

<https://housemethod.com/scholarships/>

House Method is committed to improving our homes to make them safer, more efficient, more sustainable, beautiful, and functional. We believe that those committed to doing the work of bettering our homes deserve to be honored in their pursuits.

House Method will award a \$1,000 scholarship to a student committed to improving the way we live in our homes.

The deadline for scholarship applications is October 15.

Who qualifies?

Any student enrolled in a post-secondary associate, four-year, or graduate program at an accredited college or university in the United States.

Applicants must have a GPA of 3.5 or higher.

How to apply for the Commitment to Our Homes Scholarship

Submit an essay no longer than 1,000 words that answers the question: *How do you hope to improve the way people live in their homes?*

Submit a completed [scholarship application form](#).

Applicants must use a school or university email and provide proof of enrollment. All materials should be sent in a single PDF to scholarships@housemethod.com by 11:59 pm on October, 15, 2018.

How a winner is chosen

One scholarship will be awarded each year to a post-secondary student who demonstrates a commitment to bettering our lives at home. Scholarship winners will be chosen based on the following criteria:

- Writing ability
- Creativity of proposed contribution to the home
- Demonstrated commitment to contribution
- Overall excellence

The Olive Branch Scholarship

<https://www.theolive.com/scholarship/>

As of 2018, U.S. student loan debt has topped \$1.48 trillion dollars, with 11% of students who are 90 days behind on their student loans. [\[source\]](#)

Here at The Olive, we see this is a problem and we'd like to do our part to help.

That's why we introduced the **The Olive Branch Scholarship**, an annual scholarship of \$3,000.00 for young people burdened with student loans.

Scholarship Details:

- Deadline: September 1st, 2018

- Winner Selection Date: September 15th, 2018
- Amount: \$3,000.00 USD (United States Dollar)

Eligibility Criteria:

- Currently enrolled in post-secondary education at an accredited institution in the United States;
- Has student loans with accounts in good standing (not behind on payments, if any);
- Individuals born in 1988 or later.

How to qualify:

Write a 1,000 word [persuasive essay](#) on one of the following questions:

- Is the status quo growing of national, state and municipal debt (bond issues) sustainable in the long-run?
- What level of wealth inequality, if any, is appropriate in a free society?
- What is the most important habit a young person should develop to secure their financial future?

The winning essay will be based on quality: Use of descriptive language, citation and authority, clarity, logical flow and courage of your position (we encourage students to take “non-politically correct” positions if they can make strong persuasive arguments for them)

Please send your essay, as a PDF file, to scholarship@theolive.com. We look forward to reviewing your submission!

Responsify \$1000 Scholarship

<https://www.responsify.com/scholarship/>

Our Scholarship

Our team at Responsify is wonderfully unique. We are a group of people who work with our many strengths to empower people, a value we all share. With qualifications and interests in strategizing, storytelling, designing and writing to name a few, we recognize that working together creatively is when things really take shape.

We believe that with the correct tools anyone can reach their aspirations and use their skills to empower others. Current students will be tailoring their talents, getting ready to apply them in their lives and in their careers and we're excited to contribute to this exciting journey with a scholarship. Our scholarship will be awarded to an undergraduate student who can demonstrate how their major can be used to empower others in a self-reflective essay.

Scholarship Amount

\$1,000

Eligibility

- All applicants must be enrolled, or due to be enrolled, as a full-time student at an accredited college or university for the semester they are applying to receive the scholarship.

- Applicants are not required to have a minimum GPA.
- Domestic, international, and undocumented students may apply.

Required Application Details

Please write a 1,000 to 1,500 word essay answering the following questions:

- Why is empowering others so important?
- How do you think your major can be used to empower others?
- When was the last time you felt empowered? What inspired this?

Please provide proof of enrollment in an accredited college or university. A transcript, tuition receipt, or acceptance letter will be accepted.

Please submit The Responsify Empowering Others Scholarship form below.

How to Apply

Please gather the following and [submit your application with this form link](#).

1. Full Name
2. Email Address
3. Phone Number
4. College or University Name
5. College or University Mailing Address
6. Proof of Enrollment – Transcripts, tuition receipt, or acceptance letter will be accepted. Please submit as .jpeg, .pdf, or .doc
7. Essay answering above questions. Please submit as .pdf or .doc
8. Confirmation and acceptance of terms and conditions

Application Deadline

All applications must be submitted by October 5, 2018. A winner will be selected and notified by October 20, 2018.

Additional Scholarship Details

Winning candidate will be selected by a panel of judges from Responsify.

Scholarship is available on a yearly basis and is non-renewable.

Any questions about The Responsify Empowering Others Scholarship can be directed to: scholarship@responsify.com.

The scholarship funds provided by Responsify will be sent via check to the college or university. Funds are to be applied to qualified college expenses (including tuition, fees, books, and on-campus room and board) for the current academic year.

Privacy Policy and User Communications

Privacy Policy

By submitting an application, the applicant automatically grants Responsify permission to post the applicant's name, college, photo (if submitted), and essay on responsify.com or in other marketing communications, even if the candidate does not win the scholarship. We are also granted permission to call and/or send you information regarding your application.

User Communications:

When you send email communications to Responsify, and/or its representatives may retain those communications in order to process or respond to your inquiries or application as related to the scholarship. Responsify and its representatives will not knowingly sell, share, rent or otherwise transfer your information other than in accordance with the terms set forth in this Privacy Policy. By participating in this scholarship, you give us your express consent to confirm your admission and attendance at the college or university by contacting the institution for verification.

Terms & Conditions

All submitted photos, videos, and essays must be original work of the applicant. Only one submission may be entered per student, per year. Duplicate entries will be disqualified. All scholarships are non-renewable. By submitting an application to The Responsify Empowering Others Scholarship, you certify that all the information you have provided is original, accurate, and complete.

The applicant automatically grants Responsify, its agents and/or representatives permission to:

- Use their name, photo, essay response, and award amount, if any, in announcements or articles (i.e. social media, newsletter, etc) issued by Responsify LLC.
- Post the applicant's name, college or university, video, and essay on responsify.com website.
- Call and/or send information to the applicant regarding their application.
- Winners will be notified via email, and announced publicly, as well as on Responsify's social media pages.

The SecureCare65 Scholarship

<https://securecare65.com/scholarship/>

About Our Scholarship

At SecureCare65, our goal is to provide seniors currently on, or approaching Medicare with the educational materials and guidance that they'll need to make well informed, educated decisions regarding the selection of their Medicare insurance coverage.

Early on, along this educational path, seniors discover that coverage for Long Term Care (Home Health & Nursing Home Care) under the federal Medicare program is very limited, and private LTC insurance is very expensive. Therefore, As students begin to navigate the world after graduation, planning for the future care of their parents and older loved ones can become a top priority and primary concern.

We are offering a scholarship to one undergraduate student who can best express in words, their thoughts regarding the planning for the future of their loved ones, in an engaging written piece.

Scholarship Amount

The scholarship award is for \$2000.

Application Deadline

All applications must be submitted by December 1, 2018. A winner will be selected and notified by December 15, 2018.

Who is Eligible?

All applicants must be enrolled, or due to be enrolled, as a full-time student at an accredited college or university for the semester they are applying to receive the scholarship.

- Applicants are not required to have a minimum GPA.
- Domestic, international, and undocumented students may apply.

Required Application Details

- Please write a 1,000 word essay answering the following questions:
 - While navigating the world of becoming an adult, how will you also care for your parents and loved ones?
 - Do you believe that the topic of preparing for the future of family members is a concern for other students?
 - Why is planning for the future for yourself in addition to your parents and family members so important?
 - How do you believe your education will enable you to take better care of your parents and loved ones?
- Please provide proof of enrollment in an accredited college or university. A transcript, tuition receipt, or acceptance letter will be accepted.
- Please submit the scholarship form below.

How To Apply

Please complete the form with the following information to apply: [The SecureCare65 Scholarship](#)

- Full Name
- Email Address
- Phone Number
- College or University Name
- College or University Mailing Address
- Proof of Enrollment – Transcripts, tuition receipt, or acceptance letter will be accepted. Please submit as .jpeg, .pdf, or .doc
- Essay answering above questions. Please submit as .pdf or .doc

- Confirmation and acceptance of terms and conditions

Additional Scholarship Details

- Winning candidate will be selected by a panel of judges from SecureCare65.
- Scholarship is available on a yearly basis and is non-renewable.
- Any questions about the The SecureCare65 Scholarship can be directed to: mae.vega@securecare65.com .
- The scholarship award provided by SecureCare65 will be sent by check to the winning candidate's college or university. Funds are to be applied to qualified college expenses (including tuition, fees, books, and on-campus room and board) for the current academic year.

The Travel Office Local Adventures Scholarship

<https://traveloffice.org/scholarship/>

About Our Scholarship

We are a family-owned business and regard travel, excursions, and entertainment as an integral component in strengthening communities, helping cities financially prosper, and creating a friendly and inviting environment for everyone to enjoy.

Many people live in or visit cities without engaging in its history, its culture, its entertainment or adventures. Having easy information for events and travel opportunities for locals and visitors alike, inspire people to experience the city as they wouldn't have before. Opportunities like these support financial growth, tourism, and a friendly, community atmosphere.

Students living in a new city may be experiencing new attractions, culture, and traditions. We'd love to hear their stories so far and are offering a scholarship to one undergraduate student which best highlights their city.

Scholarship Amount

The scholarship award is for \$1000

Who is Eligible?

- All applicants must be enrolled, or due to be enrolled, as a full-time student at an accredited college or university for the semester they are applying to receive the scholarship.
- Applicants are not required to have a minimum GPA.
- Domestic, international, and undocumented students may apply.

Required Application Details

Please write a 1,000-1,500 word essay answering the following questions:

- Since starting your studies, how have you explored your new environment?
- If you are studying locally, how has your view of your city changed since starting college?
- How can being engaged in a city's conversation promote a sense of community?
- How do you currently find entertainment local to you?

\$500 Scholarship From TopSpot

<https://topspotsem.com/scholarship/>

TopSpot is a leading search marketing agency that helps clients extend their marketing reach and increase their visibility in online searches. We believe in the power of digital marketing to maximize our clients' potential for success, and we are excited to be a part of this ever-evolving technology. The world of digital marketing is shaped by new ideas and new approaches, and we want to welcome more young professionals into the field by offering a \$500 college scholarship.

Application deadline: December 1

Winner announced: December 15

This scholarship is open to any current or future college student who is interested in a career in business or marketing. To apply for the scholarship, you need to write 500-word essay telling us how you plan to use digital marketing to achieve your goals in life. In your essay, consider how you currently define digital marketing and how the field and technology may change during the next few years. How do you anticipate that these changes will affect your career path?

REQUIREMENTS

- You must be over the age of 16 and have a high school diploma or GED.
- You must be either accepted by or currently enrolled in an accredited two-year or four-year U.S. college or university.
- You should have an interest in business and marketing.

APPLICATION PROCESS

- Write an original essay on the topic given above and do not exceed 500 words.
- Attach your essay to an email as a .doc file. Please do not use any other file type or send a link to an online document.
- Use “Scholarship Application” in the subject of your email, and write us a brief message introducing yourself and explaining your interest in the scholarship.
- Send the email to scholarship@topspotsem.com before midnight on June 1, 2019. You can also send the email using the link below.

SELECTION CRITERIA

- Originality of ideas and insights
- Understanding of the role of digital marketing in business
- Quality of writing, including grammar and style

NOTIFICATION PROCESS

- We will select the winner on or before December 15, 2018 and notify him or her by email.
- If we have not received a response after 14 days, we will select a new winner.

APPLY HERE

Submit your essay [here](#).
